Exceptions are at the discretion of the Sheriff.

- A. Verifying that the civilian is eligible:
 - 1. Currently enrolled in the Citizen's Academy or
 - 2. Active intern at the Sheriff's Office or
 - 3. An approved exception by the Sheriff
- B. Conducting or verifying a criminal background check of the interested party after being furnished with the individual's full name, date of birth, and any other information needed to conduct such.

- D. Obtaining a signed Alamance County Sheriff's Office "Waiver, Release, and Hold Harmless Agreement" form signed and dated by the interested party and the authorizing party.

II. ASSIGNMENTS:

The Captain of Patrol will make civilian ride-along assignments, or will assign a designee in a supervisory position to do so. The supervisor in the division in which

the civilian is assigned will notify the individual and the deputy as to the time and date of the assignment.

III. DEPUTY RESPONSIBILITIES:

- A. A deputy assigned to a civilian ride-along must fully acquaint the civilian with the range of a deputy's duties and responsibilities, and of the potential hazards and dangers involved.
- B. The deputy shall notify Central Communications that he/she is being accompanied by a civilian ride-along.
- C. The deputy shall attempt to expose the civilian to law enforcement activities without putting the individual into any hazardous situations. Deputies who are assigned any civilian, intern, or other ride-along will not engage in vehicular pursuits.
- D. The deputy shall not allow the civilian to participate in the actual carrying out of any of his or her duties.
- E. The deputy shall not allow the civilian to be privileged to any confidential or sensitive information or situations, nor shall the deputy converse with the ride-along about any personnel problems, opinions, or any matter which might place the Sheriff's Office or any of its officers or employees in a poor posture.
- F. When assigned a ride-along individual, the deputy will immediately make known to the supervisor-in-charge any unusual assignment which could present a hazard beyond normal to the civilian, whereby the supervisor will reassign the civilian to another deputy or to another date and time of service.

IV. CIVILIAN RESPONSIBILITIES:

- B. North Carolina General Statute 15A-405 authorizes a civilian to assist law enforcement officers in making an arrest or preventing an escape from arrest when officers requested assistance. However, a civilian is not legally obligated to assist and is entitled to ignore their request. A person who assists a requesting officer has the same legal rights as does the officer – i.e., the civilian has the same authority to make an arrest or to prevent an escape and is entitled to the same benefits as the officer, such as death benefits and Worker's Compensation. Civilians are not subject to any civil or criminal liability if the arrest was unlawful, unless the civilian had reason to know that it was an unlawful arrest; malicious or negligent conduct, or the use of unreasonable to excessive force by the civilian, is not legally excused or justified while acting in this capacity.

POLICY #: I-XI

EFFECTIVE DATE: 7/09/2013

PURPOSE: The purpose of this directive is to establish policies and procedures that clearly define the qualifications, duties, and areas of responsibility for the Sheriff's Office Chaplaincy program and provide guidelines for the call out of chaplains.

We seek to use a variety of resources (including volunteer chaplains) to provide assistance and empathy for those in distress.

POLICY: The Alamance County Sheriff's Office Volunteer Chaplaincy program is designed to identify qualified members of the clergy who wish to volunteer as Sheriff's Office Chaplains, to guide the way they are recruited, and to establish the standards of them to perform their duties. The primary purpose of volunteer chaplains is to assist officers, civilian office employees, and their families to maximize their spiritual resources as they, in the course of their duties, encounter persons in crisis and other stressful situations; and to provide comfort, counsel, ministry and spiritual guidance as appropriate/requested.

Volunteer Sheriff's Office Chaplains are members of the clergy who:

- * are recommended by current chaplains and/or members of this office.
- * pass background investigation/screening that is deemed appropriate by this office.
- * desire to serve and be available to respond to situations where a chaplain's response is indicated.
- * are ecclesiastically certified and endorsed by a recognized religious body.
- * have a minimum of three years of service in full-time public ministry.

I. DUTIES AND RESPONSIBILITIES

The chaplaincy program will consist of a diverse group of chaplains representing the different religious denominations of Alamance County. There will normally be several chaplains at any one time, depending on the needs of the office and the availability of chaplains.

- A. **SCHEDULED** – Each chaplain will normally be on call for one (1) week at a time, beginning on Monday (8:00 am) and concluding on Monday (8:00 am). They will be responsible to cover all scheduled activities during their week, and

will be available for unscheduled call-ups as required. The Major of Administration will prepare a monthly schedule, and individual chaplains will be responsible for finding a substitute in a timely manner whenever they cannot meet the requirements of the published schedule. Schedules normally cover a two-month period.

B. **CALL-UP** – There are certain critical events that happen from time-to-time when Office supervisors will deem it appropriate for a chaplain to be called-up to support the sworn officers in the performance of their duties. Such critical events might include (but would not be limited to):

1. Line-of-duty death/serious physical injury of an employee;
2. A critical event where a deputy responds to the incident and a member of the community dies as a result of the event;
3. A critical event where the responding deputy requests the support of a chaplain;
4. A critical event where a supervisory deputy deems chaplaincy support appropriate;
5. The duty chaplain would also be expected to provide hospital visitation calls upon sick/injured office employees and their families;
6. Death notification assistance;
7. Group crisis intervention for employees and survivor-victims.

C. **OCCASIONAL** – There are times when other chaplaincy ministries may present themselves, to include:

1. Promoting of employee wellness;
2. Individual and family counseling;
3. Liaison to the religious community;
4. Community education to promote support for the office;
5. Participation in annual observances (i.e., Law Enforcement Week, Law Enforcement Memorial Day Ceremony);
6. Grief Ministry, (funeral home visitation, funeral, etc.);
7. Consulting or coordinating with other law enforcement agencies as directed by the Sheriff;
8. Referrals to other care option or service providers.

D. **RIDE ALONG** – Sheriff Chaplains are encouraged to ride along with officers at least once per month. Patrol officers and/or chaplains may request a “chaplain ride-along.” Shift and hours are determined by availability of the chaplains and determined appropriateness. During a ride-along, the chaplain is considered “available for duty”. Chaplains are encouraged to familiarize themselves with general Office operating instructions. Chaplains will follow the directions of the duty deputy at all times. The chaplain will remain in the Sheriff’s office vehicle unless instructed otherwise by the deputy (or unless exigent circumstances exist). The chaplain shall ensure that the deputy knows the chaplain’s location at all times. The chaplain must be available at all times to render assistance

if called upon. The chaplain **will not** handle any evidence at the scene of any incident or crime. All procedural questions will be directed to the Supervisor on scene.

II. **CREDENTIALS OF THE OFFICE** – Sheriff’s office chaplains will be issued an identification card and essential issued equipment at the time of appointment. Loss of an identification card or any other issued equipment will be reported to the Major of Administration immediately.

A. **MEDIA** – Sheriff’s office chaplains shall not release any information to news media, insurance companies, or any other non-involved individuals/agencies. All requests for information shall be referred to the Supervisor on scene or the PIO.

B. **ACCESS TO THE CHAPLAIN** – The chaplain may be contacted directly by any full-time, part-time, or reserve employee of the Office, or family member through C-COMM, or directly.

III. **LOGISTICAL SUPPORT** – Appropriate use of ministry tools (i.e., the Holy Bible, the Sacraments of the Church) is encouraged. Chaplains should only engage in acts of faith when such contact is initiated by office staff/employees or citizens.

IV. **CONFIDENTIALITY** – All individual requests for Chaplaincy assistance will be handled in strict confidence. When additional support and referrals are necessary, these arrangements are made with the consent of the individual. Sheriff Chaplains shall maintain all privileged communications to them as confidential (unless waived by the individual) or unless those communications affect life, personal injury, or the integrity of that individual or others. The chaplain, while respecting confidentiality, has direct access to the Major of Administration, Chief Deputy and Sheriff for discussion of matters relating to the spiritual welfare and morale of the Office.

V. **COMPLAINTS AGAINST/TERMINATION** – Complaints about a chaplain’s performance shall be referred to the Major of Administration, Chief Deputy and the Sheriff. Termination of a Sheriff’s Chaplain may occur due to failure to abide by the established policies and procedures, failure to honor an Officer’s authority or privacy, or failure to practice good professional ethics.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: TEMPORARY LIGHT DUTY

POLICY#: I-XIII

EFFECTIVE DATE: 7/1/2023

PURPOSE:

It is the purpose of this policy to establish the authority for temporary light-duty assignments and procedures for granting temporary light duty to eligible deputies, detention officers, and civilian personnel within the Alamance County Sheriff's Office.

POLICY:

Temporary light-duty assignments, when available, are for eligible personnel in this agency who, because of injury, illness or disability, are temporarily unable to perform their regular assignments but are capable of performing alternative duty assignments which are of use to the Sheriff's Office. Use of temporary light duty can provide employees with an opportunity to remain productive while convalescing, as well as provide a work option for employees who may otherwise risk the health and safety of themselves or others by remaining on duty when they are physically or mentally unfit for their regular assignment. Therefore, it is the policy of the Alamance County Sheriff's Office that eligible personnel be given a reasonable opportunity to work in temporary light-duty assignments where available and consistent with this policy.

DEFINITIONS:

Eligible Personnel: For purposes of this policy, any full-time sworn or civilian member of the Alamance County Sheriff's Office suffering from a illness or injury requiring ongoing treatment by a licensed health-care provider and who, because of such injury or illness, is temporarily unable to perform the employee's regular assignment, but is deemed by a licensed health-care provider to be capable of performing alternative assignments before returning to a full, duty capacity.

Family and Medical Leave Act (FMLA): Federal law providing for up to 12 weeks of annual leave for workers due to illness, injury or certain other family conditions/situations.

PROCEDURE:

I. General Provisions

- A. Temporary light-duty positions are limited in number and varied. Therefore,
 - 1. personnel injured or otherwise disabled in the line of duty shall be given preference in initial assignment to light duty; and

2. assignments may be changed at any time, upon the approval of the treating licensed health-care provider, if deemed in the best interest of the employee or the agency.
-
- B. This policy in no way diminishes the privileges of employees under provisions of the Family and Medical Leave Act, Fair Labor Standards Act, Americans with Disabilities Act, or other applicable federal or state laws.
 - C. Assignment to temporary light duty shall not affect an employee's pay classification, pay increases, eligibility for promotions, retirement benefits or other employee benefits. Bonus pay (such as for shift differential or for special assignments) may be temporarily discontinued if the employee's light duty assignment does not involve work of the type that would otherwise qualify for the bonus pay.
 - D. No specific position within this agency shall be established for use as a temporary light-duty assignment, nor shall any existing position be designated or utilized exclusively for personnel on temporary light duty.
 - E. Light-duty assignments are strictly temporary and normally should not exceed six months in duration. After six months, personnel on temporary light duty who are not capable of returning to their original duty assignment shall:
 1. present a request for extension of temporary light duty, with supporting documentation, to the Sheriff or his designate; or
 2. pursue other options as provided by employment provisions of this agency or federal or state law.
 - F. Deputies on temporary light duty are prohibited from engaging in outside employment in which they may reasonably be expected to perform law enforcement functions for which they have been determined physically or mentally unable to perform on behalf of this agency and that form the basis for their temporary light-duty assignment.
 - G. Deputies or detention officers on temporary light duty are prohibited from wearing the departmental uniform, carrying a service weapon, operating a County-issued vehicle, or employing law enforcement powers.
 - H. Light-duty assignments shall not be made for disciplinary purposes.
 - I. Officers may not refuse temporary light-duty assignments that are supported by and consistent with the recommendations of an attending physician or other certified health-care provider, although officers may protest such assignments through established agency grievance procedures.

 - 2. clerical functions (e.g. filing),
 - 3. desk assignments (e.g. booking officer, bookkeeping, control tower),

 - 5. communications (e.g. complaint taker).
- B. This agency's personnel authority shall maintain an inventory of available job assignments that may be used for temporary light duty.
- C. Decisions on temporary light-duty assignments shall be made based upon the availability of an appropriate assignment given the employee's knowledge, skills and abilities; availability of light-duty assignments; and the medical limitations of the employee.
- D. Every effort shall be made to assign employees to positions consistent with their rank and pay classification. However, where deemed appropriate, personnel may be assigned to positions designated for personnel of lower rank or pay classification. Personnel thus assigned shall:
 - 1. retain the privileges of their rank but shall answer to the supervisory officer of the unit to which they are assigned with regard to work responsibilities and performance; and
 - 2. retain the pay classification and related benefits of the position held prior to their assignment to temporary light duty.

The certificate must include an assessment of the nature and probable duration of the injury or illness, prognosis for recovery, specific nature of work restrictions, and an acknowledgment by the health-care provider of familiarity with the employee's regular job duties and functions.
- B. The request for temporary light duty and the treating physician or other licensed

health-care provider shall be forwarded to this agency's designated personnel authority, who shall make a recommendation regarding the assignment to the Sheriff or his designee.

1. The ACSO may require the employee to submit to an independent medical examination by a licensed health-care provider of the agency's choosing. In the event the opinion of this second health provider differs from that of the employee's licensed health-care provider, the employee may request a third opinion from another licensed health-care provider at the employer's expense.
 2. The employee and representatives of this agency shall cooperate and act in good faith in selecting any such third licensed health-care provider and both parties shall be bound by that provider's medical decision as to the employee's ability to perform his/her job functions.
- C. An employee who has not requested temporary light duty may be recommended for such assignment by submission of a request from the employee's immediate supervisor or unit commander. Such a request must be accompanied by an evaluation of the employee's medical limitations conducted by a licensed health-care provider and expressing the need for temporary light duty or a request from the supervisor for the effected employee to undergo a medical or psychological fitness-for-duty examination. Employees ordered to submit to a fit-for-duty examination by the Sheriff's Office's personnel authority shall promptly comply with that order.
1. Notice shall be provided to the employee of the proposed temporary light-duty assignment along with justification for the recommendation.
 2. The employee may challenge the proposed reassignment using established agency grievance procedures.
 3. Pending results of the grievance procedure, an employee may be reassigned if, in the opinion of the Sheriff, failure to reassign may jeopardize the safety of the employee, other employees, or the public.

- A. Employees are prohibited from intentionally making any materially false statement(s) in connection with the performance of official duties by them or any other person.
- B. Employees are prohibited from intentionally failing to disclose information in connection with the performance of official duties when the purpose of such nondisclosure is to conceal suitability for duty of themselves or another or to gain improper personal advantage.

39. Harassment (Category A)

No employee shall intentionally subject any fellow employee to any verbal or physical harassment of a sexual, ethnic, racial, disability or religious nature.

II. DISCIPLINARY PROCEDURE

1. Each section herein is assigned a severity category from A-D. A category "A" violation is classified as the most serious, "B" is moderately severe, and "C" and "D" are for documented warnings. The range of disciplinary actions which may be imposed are as follows:
 - A. Category A - 3 days suspension without pay up to demotion or termination
 - B. Category B - 1-2 days suspension without pay
 - C. Category C - written reprimand/warning
 - D. Category D - documented performance notation and/or counseling
2. Employees who receive any disciplinary action may also be placed on probation for a period of time up to one year in length in addition to that action, at the discretion of the Sheriff. Any additional substantiated complaints or rules of conduct infractions during this period of probation may result in more

severe disciplinary action than might be called for otherwise. Three substantiated complaints or rules infractions against an employee within a 12-month period will automatically elevate the category of the violation to the next higher level of disciplinary action.

3. Category “A” violations will be forwarded to the Chief Deputy for evaluation and will be assigned for investigation by a supervisor or by the Office of Professional Standards as is appropriate and necessary. Those violations in Category “B”, “C”, or “D”, will be handled by the member’s supervisor in consultation with the Chief Deputy. All completed investigations shall be forwarded to the Chief Deputy for review with the Office of Professional Standards. These procedures will be conducted in accordance with this department’s “Internal Affairs/Citizen Complaint” policy and procedure.
4. Employees who receive any type of disciplinary action(s) have the right to appeal same in accordance with this department’s “Grievance Procedures” policy within 5 standard business days. Employees serving the standard probationary period following initial appointment to the Sheriff’s Office are not entitled to appeal termination. The Sheriff shall be consulted and shall concur with any and all disciplinary actions recommended against an employee, and may modify and/or suspend any disciplinary action(s) in view of mitigating circumstances or at his discretion.

Note: for the purpose of this policy, one work-day will be considered to be equal to eight hours regardless of an employee’s assignment.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: INTERNAL AFFAIRS/CITIZENS COMPLAINTS

POLICY #: II-II

EFFECTIVE DATE 04/01/2005

REVISED DATE: 04/27/2022

PURPOSE: The purpose of this standard is to establish guidelines and procedures for receiving, reporting, investigating, and adjudicating allegations and complaints against Alamance County Sheriff's Office personnel.

POLICY: The internal affairs function is important for the maintenance of professional conduct in a law enforcement agency. The integrity of the agency depends on the personal integrity and discipline of each employee. To a large degree, the public image of the agency is determined by the quality of the internal affairs function in responding to allegations of misconduct by the agency or its employees.

It is the policy of the Alamance County Sheriff's Office to investigate, where feasible, all allegations of employee misconduct, whether received from a citizen or an employee of this agency and whether the complainant is known or anonymous. In addition, the agency conducts administrative investigations into certain incidents due to the sensitivity and/or magnitude of the incident, even when a complaint is not received.

B. Office of Professional Standards Investigations

The Office of Professional Standards shall conduct internal administrative investigations into the following:

- 1) Inmate deaths
- 2) Inmate escapees
- 3) Gross misconduct
- 4) Use of deadly force
- 5) Allegations of the use of excessive force or brutality

- 6) Allegations of domestic violence
- 7) Allegations of sexual harassment
- 8) Allegations of civil rights violations
- 9) Allegations of corruption
- 10) Incidents requiring investigations that are extremely lengthy, time consuming, involve multiple divisions/sections, or when other investigative resources are unavailable.
- 11) Any other investigations assigned by the Sheriff or Chief Deputy.

II. COMPLAINT PROCESSING

- A. Complaints shall be accepted from any source, whether made in person, by mail, or over the telephone. Where feasible, an inquiry will be made of all complaints and where warranted a formal investigation will be conducted, whether the complainant is known or not. All complaints shall be documented on the "Alamance County Sheriff's Office Citizen Complaint" form.
- B. All agency members are charged with the responsibility of courteously receiving all complaints which may be lodged against the agency or any member thereof, whether made in person, by mail, or telephone, regardless of nature.
- C. All persons making complaints shall be interviewed and a complaint form shall be prepared and processed. Anonymous complaints shall be received and processed as any other complaint.
- D. A parent or legal guardian must accompany minors that wish to file a complaint.
- E. Any non-ranking or nonsupervisory member of the agency receiving a complaint about a Sheriff's Office employee from a citizen which may constitute misconduct or violation of agency orders, policy, or procedures, shall immediately notify his or her respective supervisor. In the absence of the employee's supervisor, the next ranking supervisor within the chain of command shall be notified.
- F. The supervisor processing the complaint shall record pertinent information concerning the complaint on the Citizen Complaint form and make a preliminary determination as to responsibility for follow-up on the complaint. When appropriate, the supervisor shall conduct a preliminary investigation, including interviewing the complainant and any witnesses readily available. The Citizen Complaint form will be forwarded to the Chief Deputy within 24 working hours of the receipt of any complaint. When the seriousness or severity of the complaint justifies more immediate action in the judgment of supervisor receiving the complaint, the on-call administrator will be contacted to respond. Further notification of any other personnel will

be made as is deemed appropriate and necessary in each instance, but such additional notification(s) shall not be in written form.

- G. Whenever practical, supervisors shall take corrective action to resolve minor complaints which result from a misunderstanding, or which need little or no investigation to resolve the issue. In this circumstance, the results and the findings will be documented and forwarded to the Chief Deputy using the Citizen Complaint form. If the supervisor does not satisfactorily resolve the complaint, or if the Chief Deputy does not concur with supervisor's findings, the Chief Deputy will direct the supervisor to conduct further investigation, will reassign the investigation to another supervisor, or will direct the investigation to the Office of Professional Standards, as is deemed appropriate.
- H. In any event in which a call for service is received by this agency which involves an employee of this agency who is either a victim, suspect, and/or subject of that call, the on-duty patrol supervisor will be contacted and will respond to that call for service. This supervisor will contact the on-call administrator as to the nature of this call and what action has been taken regarding same, and the on-call administrator will respond as well, unless in their judgment no further action is needed.
- I. In any event in which a call for service and/or a complaint is received by this agency which involves an officer of another agency as either the victim, suspect, and/or subject of that call, the on-duty patrol supervisor will be contacted and will respond to that call for service. This supervisor will contact the on-call administrator as to the nature of this call and what action has been taken regarding same. The on-duty supervisor for the other agency will also be contacted by the on-duty patrol supervisor.

- A. Criminal investigations conducted against employees will not be conducted by the Office of Professional Standards; such investigations will be conducted either by this agency’s Criminal Investigation Division, or by an outside agency such as the NC State Bureau of Investigation, as is appropriate and is determined by the Sheriff and/or District Attorney. Administrative investigations which are conducted into potential or alleged criminal activities of Sheriff’s Office employees will be coordinated and conducted by the Office of Professional Standards in such a manner so as not to interfere with any ongoing criminal investigation into that same matter.
- B. As a general rule, supervisory complaint investigations will be completed within 15 working days. Professional Standards investigations will generally be completed within 45 working days. These investigations will be submitted, in writing, through the chain of command to the Chief Deputy. - D. Completed complaint reports and Professional Standards investigation reports will be submitted to the Chief Deputy. Upon receipt of the completed complaint or Professional Standards investigation report, the Chief Deputy will complete the “Citizen Complaint” and “Notice of Findings of Investigation” forms as needed.

The Alamance County Sheriff's Office is committed to maintaining a work environment that is free of discrimination and harassment based on a person's race, color, religion, sex (including sexual orientation, gender identity, or pregnancy), national origin, age, disability, or genetic information, consistent with applicable laws. Harassment becomes unlawful where enduring the offensive conduct becomes a condition of continued employment or the conduct is severe or pervasive enough to create a work environment that a reasonable person would consider intimidating, hostile, or abusive.

All employees should understand what is accepted and what is not accepted in respect to this policy. Victims should understand how to protect their rights. Supervisors should understand how to enforce this policy. No one, regardless of rank position, seniority or friendship, is exempt from the duty to comply with this policy.

3. An exception to the above is any intimate relationship with a supervisor. A supervisor cannot have a dating or sexual relationship with a subordinate employee, regardless of mutual agreement or consent. The supervisor must obtain a transfer to a new job assignment, thereby terminating supervisory responsibilities over the subordinate, before any such relationship begins.

II. OTHER FORMS OF HARASSMENT

- C. While a violation should be reported promptly, if possible. Anonymous complaints will be accepted. There is no time limit on when a complaint must be made for enforcement of this policy. The Sheriff strongly encourages anyone with notice of a violation to report the violation. Making a complaint may keep others from becoming a victim.

- G. No transfer, demotion, termination, or other disadvantage will be imposed on any employee in retaliation for any of their actions.

IV. EQUAL EMPLOYMENT OPPORTUNITY COMMISSION ACTIONS

1. On Duty

- a.** Deputies shall carry only Alamance County Sheriff's Office issued and approved firearms and ammunition. An approved privately- owned firearm may be carried in compliance with this policy. Deputies are not required to carry non-issued back up or undercover firearms, but may do so at their discretion, provided they have prior authorization from the Chief Deputy for both the firearm and the ammunition.
- b.** The use of lead or cast bullets in firearms practice causes a build-up of lead in the feed ramp, which could result in a malfunction or failure to feed properly. Therefore, deputies shall fire only jacketed ammunition in their issued and personally-owned carried firearms.

c. Patrol Rifles

- 1.** The authorized Alamance County Sheriff's Office issued rifle is the AR – platform caliber .223 or 5.56. Rifles can be carried by deputies of the Alamance County Sheriff's Office who have completed the required Alamance County Sheriff's Office patrol rifle training class, or a North Carolina Justice Academy approved rifle training course. Exceptions to this requirement may be made by the Sheriff or the Lead Firearm Instructor ,based on documented, adequate, substantially-similar training received from another law enforcement agency.
- 2.** Deputies desiring to carry an on-duty authorized but personally-owned rifle must receive approval from the Lead Firearm Instructor, through written application and inspection of the rifle prior to the attempt to qualify with the rifle. Once approval is

received, the rifle may be carried on-duty subject to the following restrictions:

- a. The firearm shall be in good working order.
 - b. The firearm shall be inspected by an Alamance County Sheriff's Office firearms instructor prior to being carried on-duty and shall be subject to inspection whenever deemed necessary.
 - c. Prior to carrying the rifle, the deputy shall qualify under the range supervision of an Alamance County Sheriff's Office firearms instructor in accordance with the North Carolina Sheriffs' Training and Standards Commission's approved rifle qualification course and any Alamance County Sheriff's Office approved rifle training course.
3. When the rifle is supplied by the deputy, the rifle must adhere to the following specifications and restrictions:
- a. Only an AR platform rifle will be considered for approval.
 - b. Caliber shall be .223 or 5.56 only.
 - c. Barrel length shall be no less than 16 inches, but no more than 20 inches.
 - d. The rifle shall have front and rear sights attached.
 - e. Optics are optional; however, the magnification shall not exceed 1.5x.
 - f. The rifle shall have a sling attached.
 - g. Lighting shall be optional.
 - h. The rifle shall not be equipped with a suppressor.

- i. No AR platform pistol-style firearms will be permitted.
 - j. Only ammunition issued by the Alamance County Sheriff's Office will be used.
 - k. Any modification to the rifle, other than that listed herein, shall be subject to prior approval by the Lead Firearm Instructor before qualification with the rifle.
- 4. Deputies shall store the rifle when not deployed by properly securing the rifle in the trunk of the patrol vehicle in a case with a loaded magazine inserted into the magazine well of the rifle. When storing the rifle in the trunk the chamber shall be empty and bolt forward. The rifle should be stored with the safety on.
- d. Shotguns when carried, shall be kept secured in the Sheriff's Office vehicle except when removed in the line of duty. Shotguns shall be carried "cruiser safe" meaning the safety is on, bolt forward on an empty chamber, with the magazine loaded. Deputies shall use only issued duty ammunition in the shotgun: 00 buckshot and/or slugs. Deputies shall remain consistently aware of the type of ammunition loaded into their firearms. Shotguns shall be periodically checked for the type and variety of ammunition with which they are loaded. Deputies shall promptly replace any ammunition suspected to be faulty.

2. Back-Up, Undercover, and/or Off-Duty Firearms

- a. Deputies, in strict conformance with N.C.G.S. § 14-269 and this policy, are authorized to possess and carry a concealed firearm within the State of North Carolina (either their issued service weapon or an authorized personal firearm) while off-duty.
- b. Deputies who desire to carry a personal firearm either on or off-duty must submit a written request to the Chief Deputy. If the Chief Deputy approves the initial request, it will be forwarded to the Firearms Training Coordinator, who may approve or reject the use of the type and caliber of firearm requested. The Firearms Training Coordinator may approve the carrying of the personally-owned firearm only after the

deputy has successfully qualified with the firearm according to Sheriff's Office requirements.

- c. A deputy who elects to carry his/her Office-issued or personally-owned firearm while off-duty will be required to have in his/her possession the official badge and issued identification identifying him/her as a sworn deputy of the Alamance County Sheriff's Office.
- d. A deputy shall not register more than one personally-owned firearm for backup, undercover or off-duty use.
- e. Only those firearms and ammunition of the type and caliber approved by the Firearms Training Coordinator or will be carried as an undercover, back-up or off-duty weapon.
 - i. Firearms carried as backup, undercover, or off-duty shall be not smaller than a .380 caliber and no larger than a .45 caliber. These firearms shall be of good quality, produced by a recognized manufacturer, in good working order, and the mechanisms shall not be altered or tampered with except as provided in the manufacturer's owner's manual.
 - ii. Ammunition used for qualifying or while carrying personally-owned backup, undercover, or off-duty firearms shall be provided by the individual deputy and must be from a commercial manufacturer, approved by the Firearms Training Coordinator.
- f. A deputy shall not consume, have remaining in his/her body any alcohol previously consumed, or be under the influence of alcoholic beverages or other impairing substances (i.e. controlled prescription medications) while possessing any firearm away from his/her own premises.
- g. Deputies shall not make a public display of a firearm or remove it from the holster while off-duty except for lawful purposes.
- h. A deputy who is suspended pending investigation, is on disciplinary suspension, or is otherwise required to surrender his/her issued firearm, is not authorized to carry a concealed personally-owned backup, undercover, or off-duty firearm during the period of such suspension. This does not apply to personal firearms carried via a valid concealed carry permit.

3. Qualification Sworn Deputies

- a.** A deputy must qualify with any issued firearm, and with any approved personally-owned firearm, on at least an annual (once per calendar year) basis with an Alamance County Sheriff's Office firearms instructor on an approved course of fire. Qualification is defined as: 75% or higher with all weapons except Rifles, which is 90% or higher. The course of fire for qualifying will be the same (or as similar in nature as the type of firearm will allow) as required for the issued firearm.
- b.** Any deputy who fails to qualify during the annual handgun qualification session will immediately surrender his/her weapon to the on-site firearms instructor, and will report to the Captain of Personnel/Training for reassignment. The Chief Deputy will be notified in writing. The deputy shall be reassigned to a non-sworn position until he/she completes remedial training and requalifies.
- c.** The deputy's immediate supervisor shall be notified of the failure to qualify. The supervisor shall add a performance evaluation deficiency to be indicated on said deputy's yearly evaluation. Furthermore, the deputy shall be required to attend at least one of the open range days each month for additional remedial training. Waivers may be granted if the range is not available during a specific month, or prior approval is given by the supervisor due to a scheduling conflict.
- d.** The deputy will be provided thereafter with up to 4 hours of remedial training with a firearms instructor, and up to 400 rounds of ammunition for practice purposes, before again attempting to qualify. Day fire and night fire are considered two separate qualification attempts. If a deputy fails day and goes to remedial and passes, but fails night, said deputy is given the same standard for remedial for that portion of fire.
- e.** The next qualification attempt must be completed within 30 days of the unsuccessful attempt to qualify. Once a qualification attempt begins, no further practice will be allowed. Practice scores may not be used for qualification scores. Three consecutive qualification attempts will be allowed during the requalification session.
- f.** Any deputy may purchase ammunition and/or participate in additional training and shooting on his/her own time, and at his/her own expense, with no limitations within the 30-day

remediation period. The Sheriff's Office is not required to provide a range or instructor if said deputy decides to do this.

- g.** Additionally, any deputy failing to qualify during the remedial period may be subject to summary suspension of certification by the Training and Standards Commission, and a reprimand for unsatisfactory performance.
- h.** The Sheriff has the option of sending a deputy who does not qualify to reattend the BLET firearms class. The deputy will be required to successfully complete the minimum scores on both classroom and practical.
- i.** Once a deputy has successfully completed the BLET course, there will be 3 opportunities to successfully qualify to Sheriff's Office standards (day and night fire). If the deputy fails to qualify, he/she will no longer be allowed to hold a sworn position.
- j.** Any exceptions to this order must be approved by the Sheriff.
- k.** The Decision-Making course of fire, or "Combat Course", shall be scored using a 100-point scale. Scoring will be based on accuracy, movement, decision making, and use of cover and/or concealment. The minimum passing score will be 75%. All attempts for the course of fire will be documented on a separate form. The forms will become part of the deputy's training record. The Deputy will have 3 attempts to pass per day.

4. Qualification Armed Detention Officers ("ADO")

- a.** All ADOs must qualify with a standard, issued handgun, on an annual basis with an Alamance County Sheriff's Office firearms instructor utilizing the standard NC BLET course of fire. Qualification is defined as scoring 70% or higher.
- b.** Any ADO who fails to qualify during the annual handgun qualification session will immediately surrender his/her weapon to the on-site firearms instructor and will cease all ADO activities.
- c.** The ADO's immediate supervisor shall be notified of the failure to qualify. Furthermore, the ADO shall be required to attend at least one of the open range days each month for additional remedial training if the officer wants to retain their ADO status.

Waivers may be granted if the range is not available during a specific month, or prior approval is given by the supervisor due to a scheduling conflict.

- d. The ADO will be provided thereafter with up to 4 hours of remedial training with a firearms instructor, and up to 400 rounds of ammunition for practice purposes, before again attempting to qualify. Day fire and night fire are considered two separate qualification attempts. If an ADO fails day and goes to remedial and passes, but fails night, said deputy is given the same standard for remedial for that portion of fire.
- e. The next qualification attempt must be completed within 30 days of the unsuccessful attempt to qualify. Once a qualification attempt begins, no further practice will be allowed. Practice scores may not be used for qualification scores. Three consecutive qualification attempts will be allowed, during the requalification session.
- f. The Decision-Making course of fire, or “Combat Course”, shall be scored using a 100-point scale. Scoring will be based on accuracy, movement, decision making, and use of cover and/or concealment. The minimum passing score will be 70%. All attempts for the course of fire will be documented on a separate form. The forms will become part of the ADO’s training record. The ADO will have 3 attempts to pass per day.

B. Firearms Procedures

1. Warning shots constitute the use of deadly force and are prohibited.
2. Shooting at or from a moving vehicle is prohibited, except where a deputy reasonably believes that there is an imminent threat of serious bodily injury or death to himself or to a third party without such action. Before shooting at or from a moving vehicle, the deputy must reasonably believe the only means of protecting him/herself and/or a third party is the use of deadly force. Before shooting at a moving vehicle, deputies must consider what the consequences might be to the safety of all persons if the driver is shot. Shooting at a moving vehicle in an attempt to disable it is prohibited.
3. A deputy or ADO shall not remove a handgun from its holster except for authorized use in accordance with this policy, for inspection by a supervisor, or for other authorized purposes.
4. A deputy or ADO shall not permit any person, other than another authorized deputy or ADO, to use Alamance County Sheriff’s Office firearms.

5. The shooting of an animal is justified:
 - a. For self-defense
 - b. To prevent harm to the deputy, ADO, or another person
 - c. To dispatch an injured animal

C. Investigation of Firearm Incidents

1. A deputy or ADO shall immediately report to his/her supervisor every use of a firearm in the performance of his/her duty, whether intentional or accidental, and which is not related to training. Anytime a deputy or ADO points his/her firearm at a subject during an enforcement contact, such action shall be deemed "use of a firearm" and will be subject to a use-of-force report. Use of any approved firearm shall be reported, and a use-of-force report shall be completed, whether on-duty or off-duty.
2. A deputy or ADO involved in an intentional shooting incident shall immediately be relieved from normal duty and assigned to administrative duties. The deputy or ADO shall also be ordered to submit to a drug test. The deputy's or ADO's supervisor shall immediately begin to collect pertinent information necessary for the preliminary investigation and shall contact the Chief Deputy, who shall assign the appropriate personnel to conduct an internal administrative investigation into the incident. The District Attorney and the NC State Bureau of Investigation (SBI) will be immediately contacted by the Chief and the SBI will be requested to conduct an independent investigation to submit to the District Attorney to determine whether any criminal charges are warranted against the deputy.
3. If the preliminary internal investigation discloses any irregularities regarding state or federal law or Alamance County Sheriff's Office policy, the deputy or ADO may be suspended pending completion of this investigation.
4. If the preliminary investigation does not disclose any irregularities, the deputy or ADO may be re-assigned to normal duty, or he/she may be re-assigned to other duties, at the discretion of the Sheriff.

D. Maintenance and Care of Firearms and Other Weapons

1. All deputies/ADOs shall keep their issued and approved firearms and other weapons clean and in excellent working order.
2. Deputies/ADOs shall not in any manner alter or tamper with issued or approved firearms.
3. Any defects or malfunctions of any issued or approved firearm

or other weapons shall be reported to the deputy's or ADO's supervisor immediately. Defective weapons shall not be carried.

VI. OLEORESIN CAPSICUM (OC) SPRAY:

A. Application

Detention officers and sworn deputies issued OC spray shall be trained and certified in the use of OC. Depleted, outdated or damaged OC Spray dispensers will be exchanged by the personnel division quarter master. All applications of OC spray shall conform to the principles outlined in the training and certification program and this policy. OC spray should be used in compliance with training provided by approved instructors and not be used for punishment or to gain compliance from non-aggressive or non-violent subjects.

B. Decontamination

1. After spraying a subject, the deputy must monitor the subject's physical condition for up to 45 minutes or until the subject is turned over to detention personnel.
2. After handcuffing and searching the subject, the deputy should instruct the subject to stay still, not to rub his/her eyes, breathe normally, and relax as much as possible.
3. When circumstances permit, a deputy should wait a period of 15 minutes before transporting the subject to allow natural evaporation to reduce the effects of the OC spray in the vehicle.
4. A deputy must decontaminate the subject at the scene of the arrest when the deputy or subject's safety is not jeopardized.
5. Decontamination includes:
 - a. Moving the subject into an uncontaminated area as soon as possible.
 - b. Facing the subject into the wind.
 - c. Spraying the subject's face with an available source of water.
 - d. Patting the subject's face dry with paper towels.
6. The subject should be asked if he/she suffers from any medical problems.
7. While transporting the subject, the deputy shall provide ventilation to the subject by opening the window and/or directing the air conditioning vent toward the subject's face.
8. When transporting the subject, the deputy must ensure that the subject is not lying face-down on his/her stomach in the transport vehicle.
9. Upon arrival at the detention facility, the deputy shall allow the subject

to flush his/her face and eyes with cool water. A non-oil-based soap or detergent can be used and will help remove the resin from the skin.

10. A deputy should not use any commercial eyewash during the decontamination process.
11. Personnel at the jail must be informed that a prisoner has been sprayed with OC spray.

C. Medical Attention to Prisoners

1. A subject who has been sprayed with OC spray will be checked by the detention center medical personnel prior to booking.
2. Prisoners who meet any of the following criteria must be taken for immediate medical attention:
 - a. Loses consciousness, sweats profusely without reason, appears very sick;
 - b. Gagging or breathing difficulties persist beyond 2-4 minutes; or
 - c. Suffers from the effects of OC spray for more than 45 minutes after use.
3. Prisoners who are known to meet the following criteria must be closely monitored for at least 45 minutes or until turned over to jail personnel. “Closely Monitored” means that the prisoner should be on “special watch” as defined in 10A NCAC 14J .0601(c) and the physical, and mental condition of the prisoner should be observed. Examples of such persons include, but are not limited to:
 - a. Elderly, young, or frail persons;
 - b. Diabetics and asthmatics;
 - c. Persons who have a known history of heart or lung problems;
 - d. Persons with seizure disorders;
 - e. Persons who are substantially impaired by drugs and alcohol;
 - f. Persons who have run or fought with the deputy/ADO or violently resisted arrest;
 - g. Persons who are breathing very rapidly, sweating heavily or exhibiting pale skin;
 - h. Persons who are engaging in deranged or irrational conduct or speech;
 - i. Persons who are very obese;
 - j. Persons who complain of dizziness or being light-headed.

VII. DIRECTED ENERGY WEAPONS (X-26 AND X-26P TASERS):

- A. The use of a directed-energy weapon, such as the X-26/X-26P Advanced Taser (“Taser”), is authorized to control violent, and/or combative subjects when a deputy reasonably believes that deadly force does not appear to be necessary or when attempts to subdue the subject by conventional tactics of officer presence,

verbalization, and/or empty hand control techniques have been, or are likely to be ineffective in the situation at hand, or when there is a reasonable expectation that it will be unsafe for a deputy(s) to approach within contact range of the subject.

- B.** Common sense, training, case law, and evaluation of a scenario should dictate whether the use of a Taser is advisable and appropriate.
- C.** The United States Federal 4th Circuit Court of Appeals in *Armstrong v Village of Pinehurst* has declared that “tasers are proportional force only when deployed in response to a situation in which a reasonable officer would perceive some immediate danger that could be mitigated by using the taser.” The 4th Circuit added that physical resistance alone does not equate to immediate danger. “Our precedent leads to the conclusion that a police officer may only use serious injurious force, like a taser, when an objectively reasonable officer would conclude that the circumstances present a risk of immediate danger that could be mitigated by the use of force.” Therefore, deputies should consider the following when deploying a Taser:
 - 1. Minimize drive stuns. Electric shock beyond 15 seconds represents a possible safety risk. Drive stuns should be restricted to situations where they are clearly required for deputy and public safety.
 - 2. Only utilize the Taser in response to a perceived or actual threat, an actively resistant or combative suspect, or a suspect fleeing from a violent crime.
 - 3. Deputies shall give suspects a chance to comply with commands, including enough time to “regain their wits” after a deployment, if the situation allows.
 - 4. Evaluate if the individual can clearly understand, and is capable of complying with, commands (deaf, language barrier, medical status).
 - 5. Deputies must ensure each application/cycle of the device can be independently legally justified.
 - 6. Deputies shall not deploy a Taser solely because an individual fails to comply with a command.
 - 7. Deputies shall not utilize Tasers on resistant, but non-combative, individuals during low-government-interest seizures or involuntary medical commitments.
 - 8. Deputies must articulate and document their observations and the circumstances which required the deployment of a Taser.
 - 9. Deputies should utilize training and experience to create time and distance, when the tactical situation allows, to slow things down. This will allow the deputy to collect more information, get additional help, make better decisions, and formulate effective plans.

D. Application:

- 1. All applications of the Taser shall conform to the principles outlined in the training and certification program, consistent with this policy.

2. The Taser shall be aimed just like a firearm. Whenever possible, the deputy deploying the Taser will aim for center mass of the subject, with the back being the primary target, if possible.
3. Deputies who have been issued a Taser shall wear the device in an approved holster on their person. Deputies shall carry the Taser in a holster on the side opposite the duty weapon or on the outer carrier. The Taser shall not be carried on the same side as the duty weapon UNLESS carried in a cross-draw holster intended to be drawn with the weak hand.
4. At no time will the Taser be intentionally used on a subject's head, face, or groin area, or on women who are pregnant or appear to be pregnant.
5. The Taser should not be used on any subject when there are known to be flammable substances in the immediate area. The Taser will never be used on any subject who is known to have any type of flammable liquid/substance on his/her person or clothing.
6. The Taser shall not be deployed on subject(s) in physical control of a motor vehicle while the engine is running.
7. Whenever possible the deputy deploying the Taser will announce that the Taser is being used in a clear and loud voice so everyone in the immediate area knows less-lethal force is being used.
8. The deputy deploying the Taser should be aware of the surroundings of the suspect to try and prevent any further injuries after the Taser has been deployed.

E. Post-Application Procedures:

1. When the Taser is deployed on an individual, the suspect should be placed in handcuffs to prevent any further injury to him or others and a certified Taser operator should remove the probes from the individual and retain them for evidence. The probes are considered a biohazard and should be treated as such, with all safety precautions taken during removal.
If the probes become lodged or break off and remain in the subject, EMS will be called and the individual will be transported to the nearest emergency room for probe removal.
2. At the earliest practical opportunity, a supervisor shall be notified and respond to the scene to document the use of force.
3. If the subject is brought to the detention center after use the detention center staff shall be notified that the Taser has been used and that the subject should be monitored by medical staff. If the subject is being taken to a hospital or other medical facility for any reason, proper notification should be given that a Taser was used on the subject.

4. If there is a complaint that the Taser was used excessively in subduing a subject, a supervisor will immediately take possession of the Taser that was used and secure it. The Taser should not be fired again and the date and time of the incident will be documented. The supervisor will maintain the Taser in a secure location until it can be turned over to the person assigned to conduct the internal investigation.

VIII. BATONS

- A. When using any type of baton or blunt weapon, the need to immediately control a suspect must be weighed against the risk of causing serious injury. All batons should be used in accordance with training received based on state and agency-mandated standards. The head, neck, throat, spine, heart, kidneys and groin should not be intentionally targeted except when the deputy reasonably believes the suspect poses an imminent threat of serious bodily injury or death to him/herself or others.
- B. Only agency-issued batons should be carried on-duty. When carrying a baton, uniformed personnel shall carry the baton in its authorized holder on the equipment belt. Plainclothes and non-field personnel may carry the baton as authorized and in accordance with the needs of their assignments or at the direction of their supervisors.

IX. PEPPERBALL WEAPON SYSTEMS

A. Definition

PepperBall: PepperBall projectiles are plastic spheres that are filled with powdered or liquid Oleoresin Capsicum (OC) or another form of capsaicin. The projectiles, when delivered by an air-powered launching device, burst on impact and release the active ingredient.

PepperBall Gun: air powered launching device use to deliver the PepperBall projectile. This system can deliver projectiles with enough kinetic energy to produce temporary abrasions, bruises, and/ or welts.

B. Procedure

The Alamance County Sheriff's Office authorizes sworn members who are trained and certified in the use of the PepperBall to use this tool when a subject is violent or combative or to disperse disruptive or violent crowds threatening imminent property damage or physical violence.

C. Medical Aid

Deputies shall render appropriate medical aid consistent with the use of OC (as outlined in Section VI of this policy) as soon as feasible after use.

D. Reporting Procedures

The use of the PepperBall System is considered a reportable use-of-force and should be reported on the use-of-force form.

X. QUALIFICATION AND CERTIFICATION: Tasers and OC Spray Usage

- A. Only sworn deputies who have successfully completed the Alamance County Sheriff's Office authorized training course from a certified OC/Taser instructor shall be authorized to carry or use Oleoresin Capsicum (OC) Spray or an X-26/X-26P Advanced Taser.
- B. The Alamance County Sheriff's Office requires that personnel using either of these less lethal weapons complete an approved training class, along with a written test, before carry. Each student must spray an inert substance, and must fire at least one Taser cartridge to demonstrate an understanding of the proper usage technique. Each student must also complete a practical exercise which requires the student to be exposed (minimally) to actual OC spray and to demonstrate proper decontamination techniques. Students may volunteer to receive a taser deployment or complete a self-stun.
- C. This certification will be valid for the duration of employment, but significant changes to law, tactics, or equipment types will be addressed by certified instructors as deemed appropriate by training staff. All such additional training will be. The original written test, along with any additional training documentation, will be kept in the employee's training file.
- D. Employees may only carry issued OC spray and Tasers, along with approved Taser cartridges.

XI. DOCUMENTATION:

A. Firearms

Any discharge or use of a firearm, including the intentional pointing of a firearm at any person other than during training exercises, shall be reported on an Alamance County Sheriff's Office "Use of Force" report form by the deputy or ADO using the firearm.

B. Other Uses of Force

In any instance in which a deputy or detention officer uses some degree of overwhelming physical force to restrain or compel compliance by a person, uses any weapon described in this policy, or uses force against a person in such a way that the force results in physical injury, an Alamance County Sheriff's Office "Use of Force" report form will be completed.

C. Deputy Responsibility

Any "Use of Force" report form will be submitted by the deputy or detention officer to his/her immediate supervisor before the end of the tour of duty in which the incident occurred. It is the officer's responsibility to ensure that the report is

accurate and complete and includes all relevant details and circumstances leading to the use of force (i.e. whether the subject involved was a mental commitment, an arrestee, etc., the care provided to the involved subject, and any other significant information). The make, model, serial number, and any other descriptive data concerning a firearm, ammunition, Taser, other weapon used must be included in this report.

D. Supervisor Responsibility

Any supervisor receiving a “Use of Force” report is responsible for ensuring that the form is complete and accurate, and shall then forward the report to the Major of Administration. This supervisor is also responsible for ensuring that any deputies / detention officers who were involved in, or witness to, the use of force incident timely complete the appropriate supplemental reports detailing any observations, before the witnessing employee’s tour of duty ends.

E. Major of Administration Responsibility

All “Use of Force” reports will be reviewed by the Captain and Major of the division that originated the report. All “Use of Force” reports will be forwarded to the Major of Administration who will determine whether any further investigation is warranted. This review and determination will be conducted in accordance with any applicable “internal investigation/citizen complaint” policy and procedure of this Office.

XII. ANNUAL STATISTICAL SUMMARIES:

- A.** The Captain of Personnel shall compile annually, by calendar year, statistical information based on use-of-force reports received, which shall be restricted to the following information:
 - 1.** The number of reports received,
 - 2.** The types of weapons/force used,
 - 3.** The number of resulting internal administrative investigations conducted.
- B.** These statistics will be shared with the Sheriff and the Chief Deputy for review and identification of any recurring issues that might exist regarding training needs, equipment needs, and personnel concerns and/or needs.

XIII. GENERAL DISCLAIMER

Nothing in this policy constitutes justification for willful, malicious or criminally negligent conduct by any person that injures or endangers any person or property, nor shall it be construed to excuse or justify the use of unreasonable to excessive force

ALAMANCA COUNTY SHERIFF'S OFFICE

TITLE: BBIAS-FREE POLICING POLICYCY

POLICY#: II-VI

EFFECTIVE DATE 08/17/2016

I. PURPOSE

- A. The purpose of this directive is to set forth the policies and procedures of the ACSO regarding the ACSO's prohibition against any form of discriminatory practices, particularly as it relates to all forms of bias-based policing.

II. POLICY

- A. The ACSO is committed to protecting the constitutional and civil rights of all persons.
- B. It is the policy of the ACSO to prohibit all police practices involving profiling or other biased-based decisions. No ACSO deputy or employee may take an enforcement action based upon any common trait shared by any group of people, which is not in itself indicative of criminal activity. Violations of this policy shall result in disciplinary action up to and including dismissal from the agency.

III. DEFINITIONS OF TERMS

- A. Bias-Based Policing: The intentional selection of individuals for detention, interdiction or other disparate treatment based on a common trait of a group that includes, but is not limited to, race, ethnic background, gender, sexual orientation, religion, age, cultural group, or any other identifiable characteristic that is a prohibited basis for disparate treatment.
- B. Bias-Based Profiling: The practice of detaining or stopping a suspect based on a broad set of criteria, which casts suspicion on an entire class of people without any individualized suspicion of the particular person being stopped.
- C. Suspect Specific Incident: An incident in which an ACSO deputy is lawfully attempting to detain, apprehend, or otherwise be on the lookout for one or more specific suspects who have been identified or described in part by race, ethnic background, gender, sexual orientation, religion, age, cultural group, or any other identifiable characteristic.

IV. GENERAL CONSIDERATIONS AND GUIDELINES

- A. The ACSO does not condone the use of any bias-based profiling in its enforcement programs as it may lead to allegations of violations of the constitutional rights of the citizens we serve, undermine legitimate law enforcement efforts, and may lead to

claims of civil rights violations. Additionally, bias-based profiling alienates citizens, fosters distrust of law enforcement by the community, invites media scrutiny, invites legislative action, and invites judicial intervention.

- B. Bias-based policing creates an increased safety risk to ACSO deputies and citizens and is a misuse of valuable ACSO resources. Such practices may lead to increased exposure to liability.
- C. Bias-based policing undermines the ability of the ACSO to realize its mission of protecting public safety and pursuing justice.
- D. It is imperative that the ACSO clearly demonstrates a process for preventing such practices. Allegations of bias-based profiling or discriminatory practices, real or perceived, critically injure the relationship between the ACSO and the community it is entrusted to protect and serve.
- E. This agency does not endorse, train, teach, support, or condone any type of bias, stereotyping, or racial, cultural/ethnic, and gender profiling by its members. While recognizing that most members of the agency perform their duties in a professional, ethical, and impartial manner, this agency has an obligation and is committed to identifying and eliminating any instances of bias-based policing in all areas.

V. OPERATIONAL PROCEDURES

- A. The ACSO prohibits deputy use of proxies for demographic category, including language ability, geographic location, or manner of dress.
 - 1. When officers are seeking one or more specific persons who have been identified or described by their demographic category, or any proxy thereto, officers may rely on these descriptions only when combined with other appropriate identifying factors, and may not give exclusive attention or undue weight to demographic category.
- B. Preventing Perceptions of Bias-Based Policing
 - 1. As a means of offsetting and preventing inappropriate perceptions of biased law enforcement, each deputy is expected to adhere to following protocols whenever engaging the general public.
 - a. Each stop shall conform to agency policy and procedures and comply with General Statutes.
 - b. Be courteous and act professionally at all times.
 - c. Introduce him or herself to the individual(s); providing the officer's title, name, and agency affiliation; and state the reason for the interaction, as soon

as practical and appropriate to do so, unless providing such information will compromise the officer's safety or public safety. During the course of motor vehicle stops, the deputy should provide this information before asking the driver for his or her license and registration.

- d. Ensure that the detention is no longer than necessary to take appropriate action for the known or suspected offense, and ensure that the individual understands the purpose of any delays that might be encountered.
- e. Answer any questions the individual(s) may have, including explaining options for traffic citation disposition, if relevant.
- f. Provide your name and badge number when requested, in writing or orally.
- g. Explain the reasons why an individual may have been stopped or detained, especially if no other official action is being taken (e.g., the deputy determines that the person being detained is not the party being sought, if there was an investigative detention that did not yield any evidence of criminality or offense, etc.).

C. Identification of Possible Profiling.

- 1. To guard against and protect members of the agency from allegations of bias-based policing, and to demonstrate for those who may make such allegations, supervisory personnel of the ACSO will take the following steps.
 - a. It is the responsibility of supervisory personnel to continually assess and monitor the performance of those members of the agency who are under their direction and supervision to always be alert for any forms of behavior or patterns of behavior that an employee may be engaged in and intercede when appropriate.
 - b. Often times, it is the direct supervisor who first becomes aware of a potential problem either by way of his or her observations of an officer's performance, enforcement actions, or when there appears to be a pattern of complaints that seem to be emerging.
 - c. At times it might even be triggered just in conversation when an employee speaks disparaging of persons of any particular race, ethnic group or cultural background, gender, sexual orientation, religion, economic status, age, or any other identifiable group (in which case, such type of behavior should be corrected).
 - d. Whenever a concern does arise, it is the duty and obligation of that supervisor to, at the very least, discuss such concerns with that employee. Often speaking with an employee in the form of informal counseling may be what is needed to rectify or clarify any concerns.

- e. Any confirmed or suspected acts leading a supervisor to believe that an employee may be engaging in some form of bias-based policing or discriminatory practices must be forwarded to the Internal Affairs Officer (IAO).
- f. All complaints of alleged bias-based policing or discriminatory practices against a member of this office are to be fully investigated (no matter the source) by the Internal Affairs Officer.

D. Response to Incidents Indicating Bias-Based Policing.

- 1. Generally speaking, when bias-based policing does take place, it is the result of one of three causative factors that include the following:
 - a. **Intentional Acts:** In any instance in which a member of this agency is found by the IAO to have engaged in some form of bias-based policing or discriminatory practice, such behavior will result in the appropriate form of disciplinary action by the Sheriff.
 - b. **Unintentional Acts:** In such cases, the employee may receive additional training, guidance, supervisory review, additional monitoring for a specified period of time, as may be directed by a commanding officer in consultation with the Sheriff.
 - c. **Institutional Practices:** In the event that the agency practices are discovered to promote or allow bias-based policing, the Sheriff shall address such practices through policy review and training.

VI. DATA COLLECTION

A. Deputy Reporting Requirements

- 1. Deputies shall complete the traffic stop form immediately following every traffic stop. The traffic stop data will be completed and submitted electronically, if feasible. In the case where the data cannot be submitted electronically, a paper form will be submitted.
- 2. Officers also shall complete an incident report following a traffic stop whenever:
 - a. A person is handcuffed or taken into custody.
 - b. There is a use of force by any deputy.
 - c. There is any property seized.

B. Responsibilities of the Supervisors

1. It is the responsibility of all supervisory personnel to ensure that officers under their direct supervision, regardless of their assignment, are familiar with this directive and are adhering to the requirements of this directive. Supervisory personnel are also responsible for the following:
 - a. Ensure that all citations and summons are completed (particularly as it relates to whether or not a search was performed during the course of the motor vehicle stop).
 - b. Any incomplete citations or traffic stop data forms should be returned to the submitting deputy for completion prior to their submission to the Records Division.
 - c. Ensure that officers complete any missing traffic stop data.

C. Processing by the Records Division

1. The Records Division shall maintain a database for all submitted citations. The Records Division serves as the repository for motor vehicle citations/summons and the traffic stop data. In addition to these functions, the Records Management Unit also shall be responsible for the following:
 - a. Maintain a database of all Traffic Stop Data.
 - b. Record the data obtained on the form in a computerized database.
 - c. Review all submitted motor vehicle citations and traffic stop data for accuracy and completeness.
 - 1) Any forms found to be incomplete, inaccurate, or illegible will first be copied prior to returning the copied form back through appropriate chain of command to the deputy to make the necessary corrections.
 - 2) The original copy of the returned forms will remain in the Records Division.

VII. AGENCY-WIDE REVIEW AND CONTINUOUS IMPROVEMENT

The ACSO will continue to improve its practices in all aspects of preventing bias-based policing as we learn from regular data collection, analysis, and evaluation and by:

1. Monitoring any legislative changes or court rulings that might impact the scope and procedural guidelines within this directive.

2. Identifying any updates on the evolution of interpreting bias-based policing data collection methods and procedures.
3. Identifying any training opportunities that might be useful in further educating officers on the implications of bias-based policing.
4. Coordinating with the Training Officer in determining the appropriate frequency of review of this policy, legal updates, and other associated training opportunities.

- C.** N.C. General Statutes, Chapter 15B: "Victims Compensation."

II. VICTIM QUALIFICATION CRITERIA: CRIME VICTIMS RIGHTS ACT

III. VICTIM NOTIFICATION FORM

- A.** The Alamance County Sheriff's Office utilizes a Victim Notification Form, developed by the Administrative Office of the Court, to enable its members to provide the necessary information to victims, their next of kin, and the District Attorney's Office, as required by law. Points of contact have been established and are noted on this form who can fully inform victims and their families relative

This form should be given to the victim upon initial contact when possible, or mailed to the victim upon initial contact when possible, or mailed to the victim as soon as possible there-after to ensure that it is received with 72 hours of initial contact. - ii. In those instances when an arrest occurs after initial notification of a victim, the arresting deputy is still responsible for notifying the victim, victim's parent or guardian, or next of kin of the arrest. Likewise, when this Office is notified by an outside agency that an arrest has been made on an Alamance County Sheriff's Office case which qualifies under this policy, it is the responsibility of the deputy receiving such notification to determine the deputy whose name appears on the arrest warrant and to notify that deputy of this arrest, before the end of his/her tour of duty. The charging deputy shall then have 72 hours to make victim and District Attorney notifications.
- iv. In situations where central communications (C-Com) or the jail receives notification of an arrest by an outside agency in an Alamance County Sheriff's Office case, it is the responsibility of that person to contact the on- duty patrol supervisor about this arrest, and it is the responsibility of that supervisor to determine whether victim notification criteria applies to

CRIME VICTIMS' RIGHTS ACT OFFENSES

For offenses committed on or after Aug. 31, 2019, the provisions of G.S. 15A, Article 46 (the Crime Victims' Rights Act, or CVRA) apply only to victims of offenses listed in G.S. 15A-830. The list below identifies those offenses.

For offenses committed before Aug. 31, 2019, see forms AOC-CR-180A and AOC-CR-181A.

CVRA Offenses Committed On Or After Aug. 31, 2019

For offenses committed on or after Aug. 31, 2019, the CVRA applies to victims of offenses listed in G.S. 15A-830(a)(3b) (felony property crime) or 15A-830(a)(6a) (offense against the person).

- A **felony property crime** is any felony set out in:
 - Subchapter IV of Chapter 14 of the General Statutes (G.S. 14-51 through 14-69.3); or
 - Subchapter V of Chapter 14 of the General Statutes (G.S. 14-70 through 14-125).
- An **offense against the person** is an offense involving the person of the victim which constitutes a violation of:
 - Subchapter III of Chapter 14 of the General Statutes (G.S. 14-17 through 14-50.43);
 - Subchapter VII of Chapter 14 of the General Statutes (G.S. 14-177 through 14-208.45);
 - Article 39 of Chapter 14 of the General Statutes (G.S. 14-313 through 14-321.2);
 - Chapter 20 of the General Statutes, if an element of the offense involves impairment of the defendant, or injury or death to the victim;
 - A valid protective order under G.S. 50B-4.1, including, but not limited to, G.S. 14-134.3 and G.S. 14-269.8;
 - Article 35 of Chapter 14 of the General Statutes (G.S. 14-269 through 14-277.8), if the elements of the offense involve communicating a threat or stalking; or
 - An offense that triggers the enumerated victims' rights, as required by the North Carolina Constitution.*

** This final category of offenses against the person, set out in G.S. 15A-830(a)(6a)g., appears to apply the CVRA to offenses that fit the constitutional criterion of Article I, § 37(a), a "crime ... against or involving the person of the victim," but are not otherwise enumerated in the list above. Which additional offenses satisfy that criterion would appear to be a case-by-case determination by the officials with assigned duties under the CVRA.*

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: MOBILE COMPUTER TERMINALS (MCT)

POLICY #: III-VI

EFFECTIVE DATE: 07/13/2010

PURPOSE:

The purpose of this policy is to establish a procedure governing the use and security of the Alamance County Sheriff's Office mobile computer terminals.

POLICY:

Mobile computer terminals provide field officers with access to local, state and national criminal justice computer databases. This technology is a vital resource for improving deputy safety, efficiency and productivity. Mobile data also enables officers to communicate directly with each other, the Communications Center, and with other law enforcement agencies using wireless technology. The mobile data system shall be used for official purposes only and in strict accordance with applicable regulations established by the North Carolina State Bureau of Investigations Criminal Information and Identification Section and the Alamance County Internet Policy.

PROCEDURE:

I. SYSTEM ADMINISTRATION

- A. Mobile Computer Terminal Coordinator will have administrative authority over all access and use of the mobile computer terminals by agency employees.
- B. MCT units and air-cards will be issued to individual authorized employees. MCT units may be utilized by authorized personnel both on-duty and off-duty when completing agency business and/or attending agency authorized training.
- C. Authorized employees will utilize a security password to access local databases and the CIIS System. Employees shall not disclose their password to anyone.
- D. Only IT personnel are authorized to install, delete or modify any software or hardware associated with the mobile computer terminals.
 - i. MCT users will not introduce authorized software programs or other files to the mobile computer terminals.
 - ii. MCT users will not manipulate or alter current software on agency-owned mobile, desktop or hand held computers.
- E. Internet access and email usage is provided for conducting official business and may only be used per the Alamance County Internet and Sheriff's Office Policy, unless instructed to do so in conjunction with a special assignment. Information sent or received by MCT units comes under the North Carolina Public Records

Statute and will be considered public record unless it meets specific exceptions spelled out in that statute.

- F. Designated staff may enter, review and monitor information stored on mobile computer terminals at any time without advance notice.
- G. It is the MCT user's responsibility to perform daily basic maintenance to keep the MCT in good working order and to insure the longevity of the MCT.
 - i. Prior to the start of each shift, the deputy will use a clean, **DRY SOFT CLOTH**, such as gauze, to clean any dirt or dust buildup from the docking station tray.
 - ii. If the **DRY SOFT CLOTH** does not clean it satisfactorily, contact the MCT Coordinator for further assistance.
 - iii. The motor vehicle will not be operated without the MCT being properly locked in the docking station.
 - iv. Users will not carry the MCT by gripping the display.
 - v. Users will refrain from careless actions that would damage the MCT.
- H. A general problem that does not affect the officer's ability to complete his/her duties must be reported by **email** to the MCT Coordinator.
- I. Any problem that would prevent the deputy from completing his/her duties must be reported immediately to their supervisor. If the problem occurs after normal working hours, the supervisor will determine if the "on-call" person for IT should be contacted.
 - i. The supervisor will notify Communications to make them aware the office does not have a functioning MCT at this time.
 - ii. If IT has been notified the supervisor will forward an email to the MCT Coordinator advising them of the problem.

II. TRAINING AND CERTIFICATION

- A. In-house training will be provided for MCT access of local databases and the use of field reporting features. Staff members designated by the MCT Coordinator will provide mobile data computer training.
- B. Only employees who hold a valid certification from CIIS may log onto CIIS and/or perform CIIS transactions from a MCT.
- C. New employees will be provided training on the use and functions of the MCT during their orientation period.

III. SECURITY AND CARE OF EQUIPMENT

- A. Upon beginning a tour of duty, all officers must inspect the MCT in their vehicle for any signs of damage or disrepair and immediately report any findings to his/her supervisor and to the MCT Coordinator as soon as practical.
- B. Officers must properly log onto both OSSI/MCT and CIIS upon beginning a tour of duty.
- C. CIIS requires that no information from CIIS be displayed or viewed by the public or anyone other than criminal justice employees. This shall also be applicable for OSSI/MCT's.
 - i. All efforts must be made to shield the displayed information.
 - ii. The computer display is not to be viewable to the public either inside or outside of the vehicle, to include passengers and detainees/prisoners.
 - iii. When a vehicle is left unattended or the MCT is out of sight of the operator, the function "Control B" is to be utilized to insure the security of the system.
- D. When officers can predict that they will be out of sight of their vehicles and/or computer, they must secure their vehicles and/or computers to prevent unauthorized access of the terminal.
- E. When off-duty, or when leaving the vehicle for mechanical or radio system repairs, or leaving the vehicle unattended for an extended period, officers are to log off the CIIS/OSSI/MCT.
- F. Registration information and driving histories are accessible on the MCT and criminal histories may become available in the future. Employees must understand that information of this type is restricted to law enforcement/criminal justice personnel and must be for a specific law enforcement/criminal related purpose. The employee requesting the information is responsible for ensuring compliance. Noncompliance will result in disciplinary action and/or termination.
- G. If an employee disseminates criminal/driver history information for reasons other than specified above, the employee may lose their DCI certification. The Sheriff's Office can be fined and the agencies DCI license may be suspended for a period of time should any violations occur.
- H. Food and liquids must be kept away from the MCT at all times.
- I. Supervisor will inspect each MCT during routine vehicle inspections in addition the MCT Coordinator his/her designee may conduct periodic inspection of all mobile computer equipment and system components. Inspections will cover both the physical condition of the equipment and its operational status.

IV. USE OF MOBILE COMPUTER TERMINAL

- A. Due to the obvious risks associated with attempting to operate a computer terminal while in a patrol environment, deputies must exercise the utmost care while using the MCT.
 - i. When the patrol vehicle is in motion, the use should operate the terminal **ONLY** if such operation can be safely accomplished.
 - ii. Single key action commands are acceptable while the vehicle is in motion (i.e. enroute, on scene, etc.).
 - iii. When users can safely focus their attention on the MCT, users are responsible for performing status changes, ending calls, generating report numbers, adding or updating information to CAD narratives as necessary. *(Note: This section does not apply to operation of the MCT by a secondary deputy riding as a passenger in the patrol vehicle.)*
 - iv. **Under no circumstances will a MCT be operated while running emergency traffic.**
- B. Officers will receive calls-for-service information through radio dispatch as well as their MCT. Communication over the MCT is not intended to completely replace radio communications, but rather to enhance communications. Because not every deputy may have immediate access to a MCT, it is critical that all on-duty officers and supervisors be made aware of emergencies and other situations affecting deputy safety through radio broadcast.
- C. MCT users that have been assigned to a call-for-service are to review CAD notes upon arrival to the scene which may have been added to the call.
- D. Follow-up or sensitive information about a call may be transmitted to the responding deputy(s) or communications center via MCT only if the information does not affect general deputy safety.
- E. Self-initiated activities such as vehicle stops, encounters with suspicious persons, and/or vehicles, or any situations concerning deputy safety shall be transmitted via the police radio system. The deputy will not enter these types of self-initiated activities via their MCT. This function will be done by Communications, enabling the deputy to focus on the situation at hand.
- F. Information obtained from the CIIS computer system interface may not be forwarded, copies, distributed or published via any internet file transfer, email, chat group or any messaging system. CIIS inquiry results may not be copied into the Notes Field of CAD.
- G. MCT users are to limit messaging features to official business.

- i. **All information transmitted should be treated as if it will become public information.**
- ii. **Any personal and inappropriate messaging may result in disciplinary actions up to termination.**
- iii. CIIS/OSSI/MCT switched messages are logged for administrative review.

- f. If an Animal Control Enforcement Officer transports an animal to the shelter after-hours, the following information will be left for the shelter personnel
 - i. Date of the animal pickup
 - ii. Location where the animal was picked up
 - iii. Type of injury (if applicable)
 - iv. Number of the pen that animal was placed in when brought to the shelter

IV. PATROL DEPUTY PROCEDURES RE: ANIMAL CALLS

a. General Regulations

- i. After 5 o'clock p.m. weekdays, weekends, and holidays when Animal Control Enforcement Officers are not on duty, it is the responsibility of the Patrol Deputy to answer animal calls.
- ii. If it is possible for the Patrol Deputy to handle the animal call without the assistance of an Animal Control Enforcement Officer then they should do so.
- iii. Should a follow up call by an Animal Control Enforcement Officer be required during regular business hours, the Patrol Deputy should advise the Animal Control Enforcement Officer by leaving the proper paperwork for the Animal Control Enforcement Officer with all

available information.

- iv. If the Patrol Deputy has a question about how to proceed with a call, they should have Central Communications contact the on-call Animal Control Enforcement Officer. The Animal Control Enforcement Officer will provide the Patrol Deputy with the proper information regarding how to deal with the specific problem, and/or will make the decision on whether or not it is necessary for an Animal Control Enforcement Officer to respond to the after-hours call.
- v. Patrol Deputies are required to fill out animal bite reports and turn in the reports to the Animal Control Enforcement Officers so that they may process the reports and do the required follow up with the involved parties.
- vi. Overtime due to Animal Control Enforcement Officer after-hours call outs shall be kept to a minimum. Emergency calls requiring the after-hours dispatch of an Animal Enforcement Control Officer consist of:
 - 1. Dangerous animals-animals posing a threat to the public
 - 2. Animal bites-animals that have bitten humans
 - 3. Injured domestic animals (non-wildlife)

b. Injured Animals

Should a Patrol Deputy be dispatched to an injured animal call, (example-a dog has been hit by a car and is still alive) they should try to locate the owner if possible. If no owner is located in a short period of time, an Animal Control Enforcement Officer should be contacted to pick up the animal. The Patrol Deputy should not try to move the animal or to administer aid unless trained to do so. If a private citizen takes the animal to the veterinarian, the animal then becomes his/her responsibility. Should an animal bite occur to the Patrol Deputy, or anyone trying to assist the animal, a bite report shall be filled out and turned in to the Animal Control Enforcement Officer. It will be the Animal Control Enforcement Officer's responsibility to assess the injury and decide on the course of treatment.

c. Arrest of Persons with a Pet in their Possession

If a Patrol Deputy makes an arrest of a person with an animal in their possession, the arrested person's family or friends should be contacted to take custody of the animal. If a caretaker cannot be found for the animal, the Animal Control Enforcement Officer on call should be contacted to provide further assistance.

d. Acceptance of Animals

Under no circumstances should any animals brought to the Alamance County Sheriff's Office to be accepted by patrol or jail personnel for any reason.

Persons with such a request should be advised to go to the animal shelter during regular business hours.

e. **Rabies Exposures**

i. Should a Patrol Deputy be dispatched to a call regarding a possibly rabid animal, the following information must be obtained:

1. Has the animal bitten a human or another animal?
2. Is the animal a potential danger to humans or domestic animals?
3. If exposure to pets has been determined, are the pets vaccinated?

ii. If humans and/or pets have been exposed, but are not up to date on vaccinations, the suspect animal will have to be tested. If no exposure is present, the Patrol Deputy may dispatch the suspected animal. If questions about testing, exposure, or other problems arise, the Patrol Deputy should contact the Animal Control Enforcement Officer on call.

iii. If a bat is found inside the living area of a residential dwelling, and the complainant is unsure of how long the bat has been in the dwelling, the bat will need to be tested. Bats found outside of a residential dwelling will not, with the exception of pet exposure, require testing. Further questions should be directed to the Animal Control Enforcement Officer on call.

f. **Important** – If deputies have any questions, or are unsure of how to proceed with any potential rabies exposures, they should contact the Animal Control Enforcement Officer on call

In addition, the sUAS Coordinator may rely upon the testing data and evaluation data provided by other government agencies, the aircraft manufacturer, and independent testing facilities.
2. Mission Specific Airworthiness: The PIC shall be responsible for ensuring that the sUAS is airworthy prior to each mission. The PIC may rely upon the inspection and reports provided by agency personnel appointed with the responsibility for maintaining the sUAS.
3. Radio Frequency: The sUAS shall use the assigned radio frequencies assigned for the mission through Alamance County Central Communications (CCOM).
4. Maintenance: The sUAS Coordinator / designee is responsible for the maintenance of the sUAS, which shall be performed by sUAS Coordinator / designee specifically trained on the maintenance of the sUAS or by manufacturer certified representatives and personnel. The PIC and/or Observer shall perform a pre-flight and post-flight inspection of the sUAS. Any equipment issues (otherwise known as squawks) shall be entered in the aircraft's squawk log and immediately reported to the sUAS Coordinator / Designee. It shall be the responsibility of the sUAS Coordinator / designee to determine whether the reported squawks or issues need to be corrected prior to the next flight,

which will then be documented in the aircraft's squawk log.

5. Software and hardware changes: All changes shall be documented in the unmanned aircraft and ground control station logbooks by persons authorized to conduct sUAS maintenance. All previously proven systems, to include payloads, may be installed or removed as required for missions and documented in the appropriate aircraft squawk log. Test flights must be conducted and documented after major changes in the hardware or software.
6. Storage Transport: The aircraft shall be stored in a secure manner to limit possible damage to the unit while in transit. The sUAS should be secured.
7. Battery Charge: Any components necessitating a charged battery shall be charged in accordance with manufacturer's recommendations. To the extent permissible by manufacturer's recommendations, the sUAS shall be fully charged when not in use. The Lithium-ion Polymer (LiPO) batteries should be charged at the recommended amperage and not exceeded. If the LiPO batteries begin smoking or expanding (puffing) they should immediately be isolated for risk of explosion or fire. Never completely discharge LiPO batteries or they will become unable to hold a charge.

B. sUAS Pilot

Requirements – sUAS Pilots must at a minimum:

1. Have attended an approved Alamance County Sheriff's Office basic sUAS operations program.
2. Have passed the initial aeronautical knowledge test (part 107) at an FAA-approved knowledge testing center.
3. Obtain and maintain a North Carolina sUAS pilot permit.

C. Observer

1. Visual observer means a person who is designated by the remote pilot in command to assist with visual operation of the sUAS.
2. If a visual observer is used during the aircraft operation, all of the following requirements must be met:
 - a) The pilot in command, the person manipulating the flight controls of the small unmanned aircraft system, and the visual observer must maintain effective communication with each other at all times.
 - b) The pilot in command must ensure that the visual observer is able to see the unmanned aircraft in the manner specified in §107.31.

c) The pilot in command, the person manipulating the flight controls of the small unmanned aircraft system, and the visual observer must coordinate to do the following:

- 1) Scan the airspace where the small unmanned aircraft is operating for any potential collision hazard; and
- 2) Maintain awareness of the position of the small unmanned aircraft through direct visual observation.

D. Camera and Remote Sensing Operator

Camera Operator designated with the camera and sensing equipment operations including recording, video downlinks and storing digital data for evidentiary purposes.

III. PILOT TRAINING

A. Basic Flight Operations Training

All pilots who will be flying law enforcement missions shall be properly trained by either manufacturer representatives or Alamance County Sheriff's Office Instructors which at a minimum have FAA part 107 licensing. Prior to FAA testing the pilot candidate will attend an approved Alamance County Sheriff's Office Basic sUAS operator's course and successfully complete this instruction. The sUAS pilots will meet all requirements under Part 107 by the FAA. The pilots will have a current working knowledge of the airspace intended for operations, Air Traffic Control (ATC) communication requirements, specific sUAS aerodynamic factors, and the ability to obtain and interpret weather. All pilots must meet the following flight experience requirements and be current with their flight log entries.

B. Currency Training / Mission Training

All pilots shall attend 20 hours of in-service training each calendar year. These trainings will include but not be limited to the following:

1. In order to accomplish required training the pilots will participate in at least 20 hours of in-service flight training each year. This shall be done within the calendar year at the stated training dates on the specialized training calendar unless prior approval is gained by the sUAS Director or his / her designee.
2. Recurrent training is related to pilots, but includes knowledge of all pertinent sUAS and aviation matters.
3. Pilots which have not met the requirement will be removed from active flight status and the sUAS Director will complete written notification to be forwarded to the Pilot's Supervisor and Training and Personnel.

C. In-service Training

1. Each pilot shall undergo in-service training yearly to include updated industry standards, case law changes and updates in equipment.
2. There shall be four training dates planned each year with four hours of training at each date. Active pilots shall attend two of the four dates. Pilots not meeting this requirement will be subject to discipline as stated above.

IV. FLIGHT CONDITIONS

A. Daylight: All sUAS operations shall be conducted during daylight hours.

B. Night flight is prohibited unless specifically authorized by the FAA waiver or reference to emergency management function / exigent circumstances.

C. Line-of-sight: All sUAS operations shall be conducted within line-of-sight of the PIC or Observer such that the Pilot or Observer may detect and avoid hazards such as aircraft and property.

D. Altitude: All flights shall be conducted at less than 400 feet Above Ground Level (AGL), unless otherwise approved by FAA in a waiver. All flights will be conducted under VFR (Visual Flight Rules).

E. Weather: The PIC shall verify the weather conditions in the immediate area of operations. Local source of weather may be utilized, the internet, phone application, or may be observed on site. This includes calling the closest airport with Automated Weather Observation Systems (AWOS) or Automated Terminal Information System (ATIS) and calling the Flight Service Station (FSS) for a weather report for the area of operations.

1. A standard Meteorological Terminal Aviation Routine report (METAR) and Terminal Aerodrome Forecast (TAF) report shall be obtained regardless of visibility.

2. The sUAS will not be flown outside the weather minimums identified by the manufacturer or the approved waiver or emergency management exception. The PIC shall have final determination of risk due to weather over any mission.

F. Heat: The operational guidelines for heat are less than 110 degrees Fahrenheit (37.77 degrees Celsius) at ground level. Operation in temperatures over this mark should be noted with the air density as obtained from the pre-flight weather report. The battery and length of flight should be adjusted accordingly based upon high humidity and temperature with air density. These local conditions may warrant the PIC opting to not fly based upon these flight conditions

G. Cold: The operational guidelines for cold are greater than 0 degrees Fahrenheit (-17.77 degrees Celsius) at ground level. Operation in temperatures under this mark should be noted with the air density as obtained from the pre-flight weather report. The battery and length of flight should be adjusted accordingly. Also, if the moisture level is high, conditions should be noted for icing on wings and flight surfaces. These conditions may warrant the PIC opting to not fly based upon these flight conditions.

H. Wind: The sUAS will not be operated in sustained winds greater than 15 knots. Wind velocity can be obtained from a hand-held anemometer used at the training location or mission site. General weather information can be obtained from the ATIS and FSS. The PIC may decide that wind conditions at the area of operation are too hazardous and opt to not fly.

I. Rain, Snow and Fog: The operational guidelines for these conditions are based upon visibility and operator safety at the local site. The PIC and Observer must adhere to the line-of-sight and VFR weather minimum requirements. Certain sUAS systems are not weather resistant and should not be flown during situations with precipitation.

V. MISSION

A. Mission Requests: All requests for sUAS to provide support for a mission shall be forwarded to the sUAS Coordinator / designee at least 48 hours prior to the mission unless exigent circumstances exist and verbal authorization can be obtained. Verbal authorization in exigent circumstances may be obtained by telephone contact with the sUAS Coordinator or in his absence the on-call administrator. Considerations for use of sUAS shall include the following:

1. The location of the mission, for purposes of insuring the safety of people and property.
2. The intended area of operation, for purposes of evaluating the ability to mitigate potential air-to-air conflicts. Such evaluation will consider the current landing patterns at airports in the vicinity. Whenever the approach path of an airplane to a nearby airport would involve flying over the intended area of

operation, such operations shall be coordinated with the appropriate air-traffic control facility.

3. The weather and its potential effect on the aircraft, including the potential to carry the aircraft to an area of air-to-air conflict.
4. The currency of certification and training of the PIC.
5. The potential usefulness of the information gathered by the sUAS versus information gathered through other means.
6. Any other relevant risk factors to successfully complete a risk benefit analysis for the use of sUAS in the specific mission. Risk factors may include but are not limited to tree canopy, distance between buildings, smoke, etc.
7. Strength of radio and GPS signal as indicated on the sUAS.

B. Personnel Designation: Once the sUAS Coordinator / designee has approved the mission request, the sUAS Coordinator / designee shall be notified of the PIC, Observer, Camera Operator, and person responsible for controlling access to the take-off and landing site and coordinate with individual(s) requesting the mission. For mission approval there must be at least a PIC and an observer to operate the mission at a minimum. The sUAS shall only be operated by approved pilots of Alamance County.

C. Pre-flight Preparation: Before any mission the PIC must conduct a Pre-Flight Briefing.

D. Scene Review: The PIC and Observer are responsible for identifying any unsafe conditions at the scene. This includes, but is not limited to:

1. Take-off and landing site: This area should be free of obstructions, items on the ground and debris that may interfere with the rotors. This includes creation of a flight line, from which other law enforcement officers and civilians must remain clear.
2. Flight perimeter: The site must utilize law enforcement officers and standard protocols to minimize civilian traffic or interference during the operation.
3. Safety View: The flight team should identify trees, bushes, power lines, and other potential obstructions and coordinate the pre-flight briefing accordingly.
4. Interference: The flight team should identify Cell Towers, TV and Microwave sources, which might create interference with the flight equipment. The

equipment should be tested on the ground to insure proper communications and operation before the flight.

5. Sectional chart: The flight team will maintain a current copy of a VFR Sectional Chart for the area in which flight operations will occur.

6. Urgent sUAS Operations: In case of an active or imminent emergency, operators can contact the Intelligence Sergeant / designee for verbal approval which will be followed with written report of incident as soon as practical upon the completion of the mission.

E. Documentation:

1. A copy of the current flight log, squawk log, and Pilot Certifications must be kept with the sUAS at all times. PIC's and Observers must be in possession of their Certificates at all times. PIC is responsible for making sure that all certificates are in the possession of individuals involved in the mission prior to the beginning of the operation.

2. Certificates – All certificates will be copied by the PIC, Observer or any other certified flight attendant to the sUAS and forwarded to the sUAS Coordinator upon receipt. It is the responsibility of the PIC to ensure that all certifications are valid and up to date prior to operation / mission.

F. Flight Operations:

1. All flight operations shall be conducted in accordance with the manufacturer's recommendations.

2. Prior to flight, an Alamance County Sheriff's Office approved preflight check list form shall be completed by the PIC. (Form attached to policy)

3. All flights will be recorded from beginning of flight of the sUAS until the landing of the sUAS. Each flight will be recorded on a separate appropriate Micro SD card and will be held in evidence under the OCA number generated prior to the mission by the PIC.

4. The sUAS must operate with position/navigation or anti-collision lights at all required times unless authorized by the FAA waiver or emergency management exception.

5. Launch Site Selection: Site selection shall be driven by safety first and foremost. Selection of launch sites will be considered based upon:

a) Ability to maintain adequate buffer zones between aircraft and personnel. The PIC shall maintain a buffer of at least 25 feet for VTOL aircraft between aircraft operations and all non-essential personnel. A designated individual can be identified as a safety officer to ensure the safety of the launch and recovery area.

b) No launches shall occur until all environmental assessments have been considered. The PIC has the final authority to abort any launch based upon hazards to the environment, themselves, or other personnel in the area.

c) The PIC shall select a launch site that ensures sUAS departures are not over populated areas.

6. Primary & Alternate Landing Sites:

a) Primary landing site - Typically the primary landing shall be the same as the launch site. The PIC has final authority for any approaches to the primary site and may wave off any approach deemed unsafe.

b) Alternate landing sites - The PIC shall designate at least one alternate landing site. In the event that the primary landing site is deemed unsafe, procedures to utilize the secondary site will be invoked.

7. RTH Programming: Prior to take off, the UAS will be programmed to allow it to return to home if the signal is lost from the transmitter. A designated safe area of at least 25 feet shall be maintained during lift off between sUAS and personnel. When the sUAS is deployed to meet an approved mission task, it shall be recovered within the same general area if possible.

8. Risk to Public: The PIC shall make every effort to ensure that flight operations will not pose any undue risk to the public not directly involved with the effort. The PIC shall have final determination of risk to the public and authority over any launch of his/her own aircraft. In all cases, the sUAS will only be flown over persons that is in accordance of the FAA approved waiver or emergency management exception.

9. Risk to Property: The PIC shall make every effort to ensure that flight operations will not pose any undue risk to any property in the area involved with the effort. The PIC shall have final determination of risk to the property and authority over launch of his/her own aircraft. In all cases, the sUAS will not be flown over property that is in violation of the FAA or state / federal law.

10. Risk to participating personnel: The PIC shall make every effort to ensure that flight operations will not pose any undue risk to the personnel directly involved

with the effort. The PIC shall have final determination of risk to the public and authority over any launch of his/her aircraft.

G. Emergency Procedures

1. Emergency Exceptions: In case of an in-flight emergency, the PIC is permitted to deviate from the mission to the extent necessary to respond to that emergency. A remote PIC who exercises this emergency power to deviate from the mission, upon FAA request, will send a written report to the FAA explaining the deviation. Emergency action should be taken in such a way as to minimize injury or damage to property. The PIC may optionally designate an “abort site” whereby the aircraft may be “dumped” in an emergency situation. The abort site shall be so far removed as to provide absolute minimal risk to persons or property.
2. Air-to-Air de-confliction: If at any time the PIC and/or Observer believe there is a potential for air-to-air conflict, risk of harm to individuals or property, the PIC shall immediately land the aircraft.
3. Lost Link: In the event of a lost link with the aircraft, lost link procedures shall be executed including RTH operations or the immediate landing of the aircraft. If the aircraft does not immediately execute these orders, the PIC shall notify the appropriate Air Traffic Control (ATC).
4. Lost Communications: The Alamance County Sheriff’s Office has 800 MHz truncated radio systems with backup systems on NC Viper radio link. In addition, the radio systems can be used line of sight for operations. Should all communication fail between the PIC and Observer, the PIC will consider the manner as a lost link and activate the return to home feature on the system and abort the operation until such time as communications can be reconnected between the PIC and Observer.
5. Lost sUAS Sight: In the event that both crew members lose sight of the aircraft the pilot will initiate a Go-Home on the remote control. The Go-Home protocol is identical to the Loss of Link protocol. Once visual contact with the aircraft is re-established the pilot will take-back the aircraft using the remote control.
6. Fire: sUAS will be flown away from people and property until a safe landing location can be found. A fire extinguisher and first aid kit will be located at the mission site.
7. Loss of Engine: During an engine failure sUAS flight cannot be maintained and the sUAS will make an uncontrolled landing. An announcement will be made to all crew members of the loss of the flight of the aircraft and to watch for the landing site. One crew member will bring a fire extinguisher to the landing site in case of fire.

8. Unusual Attitude: Onboard stabilization gyros will be allowed to level aircraft before control is resumed by ground control.

9. Fly Away: In an unlikely event of a “Fly Away” scenario, PIC’s will immediately attempt to regain connection and if such does occur, the flight will be discontinued. The sUAS will be landed as soon as possible with emphasis for the safety of the public and property.

H. Storage of Media

a) All data images obtained during the course of UAS operation—including those acquired during training events—are the property of the Alamance County Sheriff’s Office except when the data is obtained at the request and on behalf of another agency and written request is provided to the Sergeant of Intel or the Sheriff.

b) All recordings of flights will be stored in accordance to Sheriff’s Office media policy with Evidence Control.

VI. PROHIBITED ACTIONS

A. Warrantless Search: The sUAS shall not be operated in violation of the North Carolina and United States constitutions, statutes, or regulations. When a search warrant is required by law and no warrant exception exists, flight is prohibited unless a search warrant signed by an authorized Judicial Official is obtained.

B. Routine Patrol Operations: The sUAS shall not be used for Routine Patrol duties unless authorized by the Sheriff or his designee.

C. Exceeding Aircraft Limitations: The sUAS shall not be flown in conditions that exceed the manufacturer’s recommended limitations, including range, ceiling, wind strength, and battery charge.

D. High Risk Missions: The sUAS shall not be flown for any mission in which the sUAS Coordinator / designee or the PIC determines the risk of flying the sUAS outweighs the benefit to the mission. Risks may include hazards to individuals or property on the ground, possible collision hazard with other aircraft, or loss of control of the sUAS.

E. Spraying: The PIC is prohibited from spraying anything from the aircraft and carrying hazardous materials unless performed under approval of the FAA by waiver.

F. Prohibited Airspace: Operations inside any controlled airspace shall only be performed under approval of the FAA waiver or emergency management exception.

G. Daisy-chaining Observers: Unless authorized by the FAA, daisy-chaining Observers to extend line-of-sight is prohibited.

H. Flying for Compensation: As a “public aircraft,” flying for compensation or hire is prohibited. Cost reimbursement between government units is permitted.

I. PIC / Observers or other members of the flight crew shall not store, transfer, or utilize electronic images and digital imagery for personal use.

VII. DOCUMENTATION AND REPORTING

A. Flight Documentation: The PIC or their designee shall complete all agency flight documentation including pertinent information about the aircraft, flight conditions, type of mission, and mission parameters. Monthly reports containing the above information or indicating no flights occurred during the month shall be submitted to the FAA through the COA online system by the PIC and a copy of the monthly report provided to the sUAS Coordinator / designee. The PIC will be responsible for generating an OCA number through the records management system of the Alamance County Sheriff’s Office and completing a timely and correct report. The PIC will also be responsible for obtaining proper supplements from others involved in the mission. At a minimum the documentation should include the following:

1. Incident Location
2. Copy of Request
3. Narrative of incident
4. Any supplements taken by others involved in the mission
5. Weather conditions
6. Length of mission
7. Results of mission
8. Names of PIC, Observer, and others involved in operation
9. Copies of photographs/video

B. Incident and Crash Documentation: The sUAS Coordinator or his designee, shall be responsible for reporting any incidents or crashes to the FAA through the COA online system and supplying any additional documentation that may be required.

1. The PIC of the sUAS is required to report an accident to the FAA within 10 days if it meets any of the following thresholds:

- a) Serious injury to any person or any loss of consciousness. A serious injury is an injury if a person requires hospitalization, but the injury is fully reversible (including, but not limited to, head trauma, broken bone(s), or laceration(s) to the skin that requires suturing).

- b) Damage to any property, other than the small UA, if the cost is greater than \$500 to repair or replace the property (whichever is lower).

Note: For example, a small UA damages property whose fair market value is \$200, and it would cost \$600 to repair the damage. Because the fair market value is below \$500, this accident is not required to be reported. Similarly, if the aircraft causes \$200 worth of damage to property whose fair market value is \$600, that accident is also not required to be reported because the repair cost is below \$500.

The report may be submitted to the appropriate FAA Regional Operations Center (ROC) electronically or by telephone. Electronic reporting can be completed at www.faa.gov/uas/. FAA Regional Operations Centers Telephone List

http://www.faa.gov/about/office_org/field_offices/fsdo/.

The report should include the following information:

1. sUAS remote PIC's name and contact information;
2. sUAS remote PIC's FAA airman certificate number;
3. sUAS registration number issued to the aircraft, if required (FAA registration number);
4. 4. Location of the accident;
5. Date of the accident;
6. Time of the accident;
7. Person(s) injured and extent of injury, if any or known; 8. Property damaged and extent of damage, if any or known; and 9. Description of what happened.

POLICY#:V-VIII

EFFECTIVE DATE: 7/01/2023

PURPOSE: The following guidelines are established to provide for organized and orderly response to demands that exceed the routine response capabilities of on-duty police personnel, either in expertise or manpower numbers.

POLICY: In order to maintain a consistent approach in the advanced preparation and planning for unusual occurrences, the Alamance County Sheriff's Office has adopted the provisions of the National Incident Management System (NIMS). Consequently, all responses by the agency, regardless of whether they are routine or emergency in nature, will adhere to the NIMS protocols

PROCEDURE:

I. PLANNING AND MOBILIZATION

- D. Training of agency personnel
- E. Completion of after-action reports (AAR)

II. LEVEL I ACTIVATION

- A. Level I Activation is the primary stage of mobilization for unusual occurrences. Level I is implemented whenever an incident generates response demands which exceed response capabilities of on-duty personnel, or a situation exists that inhibits or severely burdens patrol operations. This response is appropriate when specialized expertise is needed rather than additional numbers of

personnel. The on-duty Patrol Supervisor will assume the duties of the Incident Commander until relieved by competent authority. Implementation of Level I Activation may include mobilization of one or more of the following:

1. Emergency Management
2. Mobile Command Post

1. Emergency Management
2. Off-duty personnel from specialized divisions
 - a) CID/SVU
 - b) Spec Ops/Strike Team
 - c) SRO

initiated without having previously implemented a Level I Activation.

- D. The order of unit activation may vary depending on the circumstances of the incident.

IV. LEVEL III ACTIVATION

- A. Level III Activation is an extension of Level II Activation and will most likely be preceded by Level II Activation. Level III Activation occurs when service demands exceed the response capabilities of the Alamance County Sheriff's Office. Level III utilizes the personnel and expertise of outside agencies working in conjunction with Alamance County Sheriff's Office personnel. Level III mobilizations will be authorized by the Chief Deputy or Sheriff.
- B. The Chief Deputy or his designee may request the assistance of other municipal, state or federal agencies, via mutual aid.
- C. Level III Activation will involve coordination with Alamance County Emergency Management.

V. AUTHORITY

- A. The Incident Commander may:
 - 1. Order on-duty personnel to remain on duty past their normal end of shift
 - 2. Mobilize off-duty personnel under his command
 - 3. Request specialized units or individuals to respond

All mobilized personnel will be under the direction and control of the Incident Commander. Any member receiving mobilization instructions will consider the instructions a direct order.
- C. Personnel contacting another member for purposes of mobilization will provide the following information:
 - 1. Nature of the event
 - 2. Staging instructions
 - 3. Name of the Incident Commander in charge of event
 - 4. Any special equipment needed

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: EVIDENCE/PROPERTY COLLECTION, CUSTODY, & CONTROL

POLICY #: VI-I EFFECTIVE DATE: 04/01/2005

REVISED DATE: 07/07/2022

PURPOSE: The purpose of this policy is to provide guidelines and standards for the collection, identification, control, transfer and disposition of evidence and property which will ensure the integrity, security, and accountability of all such items and articles received or taken into custody by members of the Alamance County Sheriff's Office.

To ensure that the physical evidence collected by Alamance County Sheriff's Office personnel will meet the requirements of the courts, it is necessary to establish standard procedures that will permit the proper collection and preservation of evidence. Found and confiscated property, while not as critical from a judicial standpoint, must be handled with equal diligence to ensure its proper disposition.

POLICY: It shall be the policy of the Alamance County Sheriff's Office to establish procedures for the control of property and evidence which is seized, found, recovered, controlled, and/or maintained by this Agency. Evidence will be collected, preserved, disposed of in compliance with legal requirements, and all evidence and property taken into custody will be properly identified, packaged, secured, and stored. Any changes in the status of evidence or property will be fully documented.

DEFINITIONS OF PROPERTY AND EVIDENCE

The Evidence/Property Control Section will be responsible for maintaining control and custody of all evidence in all incidents and investigations of the Sheriff's Office. The Evidence/Property Manager and any other member(s) of this section will be responsible for the storage and protection of all evidence until its disposal by lawful authority.

B. Evidence/Property Rooms/Storage Facilities

The Property/Evidence Section Manager is responsible for the custody, control, and accountability of all evidence, confiscated, and found properties accepted by or stored by the Alamance County Sheriff's Office. All evidence, confiscated and found properties, will be stored in one of the Alamance County's Sheriff's Office storage facilities. These facilities are secured areas and will be entered only when accompanied by a member of the Property/Evidence Section.

Evidence/property rooms/storage facilities will be established and maintained by the Evidence/Property Section:

1. A vault will be used to store all drugs, jewelry, monies, overflow firearms, and any other "valuables" which are confiscated or recovered as evidence, which are surrendered for safe-keeping as a result of 50-B orders or otherwise, which are found by members of this Office, and/or by any other lawful authority. Entry into this vault will require double-keyed entry: one type of key will be maintained by the Evidence/Property manager and by the supervisor of the Crime Scene Investigations Unit, and the other will be maintained by the Captain and Major of Investigations, and the Chief Deputy. Any entry into this vault will require the signature of both parties making entry, the time and date of entry, and the file number, where applicable, on an "Evidence Room Entry Log," which will be maintained by the Evidence/Property Manager.
2. A bulk evidence storage room will be used to store all other evidence. The Evidence/Property Manager and any other member(s) of this section will be responsible for the maintenance and upkeep of this room, and will have independent keyed access to this room. Entry into this room by any persons other than members of this section will require accompaniment by authorized personnel from the Evidence/Property Section, and will require the signature both parties, the time and date of entry, and the case number where applicable, on an "Evidence Room Entry Log," which will be maintained by the Evidence/Property Manager.

The Evidence/Property Control Section, will upload evidence forms and attachments to the RMS database system currently used by the Alamance County Sheriff's Office such as:

1. Evidence Control Forms
2. Evidence transfer of custody receipts
3. Evidence transfer of custody receipts to and from any laboratory personnel
4. Evidence transfer of custody receipts to and from any private, citizens (e.g., return of property)

5. Crime laboratory reports and any other documents relating to the evidence in that case.

D. Prescription Drug Drop Off Box

1. Property/Evidence Section personnel will check the prescription drug drop off box every Monday, Wednesday and Friday to clear out the box.
2. This duty will be performed with no less than two individuals without exception.
3. After clearing out the box, both Property/Evidence Section personnel will then return to the Property/Evidence Section and place the items into the appropriately sized container and weigh and seal the container.
4. The weight should be recorded on the outside of the container and the seals should be signed by the Property/Evidence Section personnel.
5. After this has been completed Property/Evidence Section personnel will enter the containers information into Property/Evidence voucher under the OCA 2015-09-025.
6. Property/Evidence Section personnel will schedule a date to have the collected items destroyed utilizing Stericycle or DEA “drop off”. This date should be schedule without delay, at the earliest convenience of Stericycle or DEA “drop off”
7. If Property/Evidence Section personnel do not have the appropriate amount individuals to perform this duty, the Property/Evidence Section personnel are to contact their supervisor and request assistance with cleaning out the box.

II. EVIDENCE COLLECTION/PACKAGING AND LABELING

A. General

1. All personnel, who take initial custody of any piece of evidence will place the evidence in a container appropriate for that evidence (evidence envelopes, paper bags, plastic bags, paint cans, etc.) or will attach an evidence tag to the evidence if a container is not available or is impractical (e.g., long guns). This deputy will identify same with an Alamance County Sheriff’s Office evidence label, or by other means (tag) if such label is not available or practical. This includes at minimum the officer’s name, the OCA number for the incident/investigation relating to that evidence, the time and date taken into custody, a brief description of the contents of the container, and where or from whom that evidence was recovered. All containers will be sealed to the extent that nothing can be added or removed from the

package without obvious disruption of the seal or package. Acceptable seals include tape and plastic heat seals. The recovering officer's initials, at a minimum, must be placed across the seal in addition to the above information being included elsewhere on the container, label, and/or tag.

2. Alamance County Sheriff's Office personnel involved in the evidence collection process should use discretion in collecting evidence items. Evidence storage space is critical; thereby, only items of sound evidentiary value should be collected. Seizure of items of evidence will be consistent with State law.
3. In compliance with General Statute 15-11.1, property seized as evidence will be safely kept in storage to assure that it will be produced at trial. Property that is seized can only be released upon the order of the Court.
4. In cases where physical collection is deemed appropriate, the personnel recovering the evidence will mark and package the evidence according to the rules of evidence and correct evidence handling techniques.
5. In cases where physical evidence is to be turned in, the Alamance County Sheriff's Office personnel handling the evidence will obtain an OCA number and complete all reports and/or evidence control forms. All submitted evidence must bear an OCA number, being sure the OCA number is correct and legible. An evidence envelope or evidence tag will be filled out and the envelope sealed or the tag attached to the evidence.

B. Weapons/Firearms

1. Submissions

- a. Weapons/Firearms turned in as evidence of a crime, found property, 50B surrendered, or safe keeping will be tagged with the appropriate identifying information.
- b. All firearms will be clear of any ammunition, projectiles, rounds, and/or magazines. All firearms submitted will have their slides locked back, cylinders open, or breaches open, with a plastic tie strap through the barrel or magazine well.
- c. Any ammunition/magazines submitted will be packaged and submitted separately from the firearm(s) they were removed from.
- d. All personnel are required to wear disposable gloves when handling firearms for submissions. The only exception to this should be for 50B surrendered firearms.
- e. All submitted firearms will be witnessed by a second deputy as being "clear" or "safe" on the evidence tag or label attached to that firearm by the second deputy signing their name.

2. Processing

- a. The Alamance County Sheriff's Office Crime Scene Investigation (CSI) will be notified from the Property/Evidence Section personnel by either e-mail or in person, that a criminal

weapons/firearm may need (in-house) processing, if the firearm is not going to be submitted to the North Carolina State Crime Lab or other outside lab for processing.

- b. If it has been determined the weapons/firearm/shell casings is going to be processed “in-house” by (ACSO CSI). (CSI) will submit an ATF Firearms E-Trace for the weapons/firearm as part of their processing.
- c. After a firearm/shell casing has been processed either CSI or property and evidence personnel will e-mail/notify the appropriate Alamance County Sheriff’s Office National Integrated Ballistic Information Network (NIBIN) operator to have the firearms/ shell casings entered into that system. It will be at the discretion of the (NIBIN) operator as to what kind of firearm/shell casings can be entered.
- d. The initial packaging of firearms, upon submission to the Property/Evidence Section, is of critical importance to the performance of subsequent processing actions undertaken by the Crime Scene Investigation (CSI).
- e. If the weapons/firearm is found property, the property and evidence personnel will submit an ATF Firearms E-Trace to help locate a potential owner. Until the circumstances of how the firearm was lost are known, CSI should not process the firearm, unless the firearm’s status from found property was changed during the investigation.

C. Biohazards

1. All contaminated property, biohazard waste, specimens of blood, and potentially infectious body fluids will be handled in accordance with proper care for the safety of all personnel who may come in contact with the items.
2. All evidence of a hazardous nature will be packaged and stored in a safe manner so as not to harm anyone handling same. Such evidence may include hypodermic needles and other sharp objects, firearms, or items which have been exposed to or contaminated with blood or other body fluids, communicable disease, hazardous chemicals, or combustible materials and should be prominently marked with BIOHAZARD STICKERS.
3. Property needing to be air dried will be turned over to a Crime Scene Investigator prior to packaging for proper handling and drying at designated sites. Contaminated property that is dry will be turned in complying with normal procedures with the exception that they will be properly labeled including the "Biohazard" stickers, emblems and/or "Biohazard" tapes.
4. Needles/Sharps/Syringes should not be collected due to the biohazard nature of them. Currently, the NC State Crime Lab will not test any needles/sharps/syringes without a DA’s request letter being submitted and also speaking with personnel in charge of the State Crime Lab that is responsible for testing needles/sharps/syringes. The DA’s letter alone is not adequate for

the State Crime Lab submission.

D. Currency Handling Procedures

All monies collected as evidence by any personnel in this office will be counted at the time taken into custody by that deputy. A second deputy-preferably a supervisor, will verify the amount counted, and this second deputy's name, date, and time of counting this money will be noted on the evidence currency envelope of other evidence container in addition to the original deputy's identifying information. The quantity of each denomination of currency and coinage will be documented on the evidence package.

Monies will be counted and packaged in a white money envelope, with the denominations accurately listed on the front of the envelope. A second witness signature is required before submitting to the Property/Evidence Section or an evidence locker.

All monies submitted to the Property/Evidence Section will be counted and verified by the Evidence Manager, Lieutenant of CSI or their designee, then deposited into a special account with the Alamance County Finance department until a legal determination is made for disbursement.

The evidence container will be appropriately sealed, labeled, and identified before submission to Evidence/Property Section personnel. The evidence custodian will not be required to recount the money again after taking custody of same. In these cases, the exact total amount of monies being submitted will be itemized on the Evidence Control Form by the submitting deputy.

The only exceptions to this procedure are:

1. Monies which require Forensic testing. After testing, these monies would be retained as evidence for that specific case.
2. Monies which are deemed collectable would also be an exception to being deposited into the special account. These monies would be stored in "vault room" in the Property/Evidence Section.
3. On other rare occasions, monies which would not be deposited into the special account are: (Examples include monies from a bank robbery which would be returned to the bank, or monies which are an integral part of the specific case in their current form).
4. The Property/Evidence Section will dispose of all cash items in accordance with law as issued by court orders, case officer, North Carolina Department of Revenue (DOR) or Federal/State authorities.

E. Drugs

All controlled substances should be submitted with appropriate packaging and seals as described previously. The evidence label on each package should denote the quantity of controlled substance in the package by weight or quantity (e.g., # of pills), and same must be verified by a witness deputy in the appropriate space on the evidence label or package. Plants should be dried before packaging, and green plants should not be placed into plastic bags; a representative sample of plants should be removed and packaged separately for laboratory analysis. Root balls should be removed from plants before packaging, and should not be submitted to the Evidence Control Section. Wrappings or packaging that contain suspected controlled substances which need to be processed for latent prints must be separated prior to submission to the Evidence Control Section and listed as individual items. The Evidence Control Section must be made aware of this request, and will coordinate or assist with the separation of these materials with the submitting deputy as needed.

III. SUBMISSION TO EVIDENCE/PROPERTY CONTROL SECTION

A. General Information

1. Mobile field reporting
Evidence which is submitted to the Evidence Control Section by any member of this agency will be submitted using current mobile field reporting software. All mandatory information blocks must be completed.
2. Evidence Description
A description of the evidence being submitted will also be included in the appropriate blocks and note section in the mobile field reporting software by the submitting deputy, which will include a description of the packaging of the evidence as well as the evidence description itself, the location and/or person the evidence was recovered from, and the date of recovery.
3. Supplies
A supply of items to aid in evidence submission will be available in the evidence desk located in the hallway outside the evidence section. Additional supplies can be obtained from the Property/Evidence personnel or CSI.
4. Correction Notice
In situations where submitting officers do not comply with the procedures outlined in this section regarding packaging, labeling, and/or other submission procedures, a member of the Evidence/Property Control Section will forward a "correction notice" to that deputy documenting the area of noncompliance and

directing that deputy to correct same prior to acceptance of that evidence into the Evidence/Property Control Section. Such corrections shall be made by the submitting deputy as quickly as possible. Second notices for uncorrected deficiencies will be forwarded to the deputy's supervisor.

B. Evidence Locker System

1. Evidence Submission

In the event that no member of the Evidence Control Section is available, collected evidence will be placed in an evidence locker, and the deputy will document that the evidence was received by an "evidence locker."

The security locker system operates on the basis of locks. The locks will be unlocked and visible on unoccupied lockers. The locker door will be free to open. After an item of evidence is placed in the locker the door should be closed and the appropriate lock must be locked on the door to secure the items of evidence inside.

Evidence items, which meet the size criteria for deposit in one or more security lockers, will be handled in accordance with the procedures described below:

- a. Select the appropriate size locker to handle the evidence.
 - i. Small items, which are packaged in evidence envelopes or bags, will be placed in the smallest size evidence locker. This size locker is also used for hand sized weapons/firearms.
 - ii. Intermediate sized evidence envelopes or bags will be stored in the medium sized lockers.
 - iii. Large/long items of evidence and large bags will be stored in the larger size lockers.
- b. After the evidence has been packaged and labeled correctly, place the evidence items in the selected locker.
- c. Close the door and lock it with the padlock.
- d. Check to make sure the locker door is securely locked.
- e. A member of the Property/Evidence Section will remove evidence items for logging in to the storage area. The lock will be left unlocked and placed back onto the locker door.

2. Evidence Removal

Evidence submitted to the Evidence/Property Control Section by any personnel via use of the above described evidence locker system will be removed from these lockers by a member of the Evidence Control Section on the next business day, or at the earliest possible date thereafter. In such instances, the evidence will

be properly identified and signed by the Evidence Control Section member taking custody of the evidence as having been received from "Evidence Locker." The evidence lockers will be inspected daily by a member of the Evidence Control Section for any evidence that has been submitted to the section in this manner.

C. Special Submissions

1. Large Items

Extra-large items such as televisions, furniture, bicycles and other items too large to be stored in the provided evidence lockers, will need to be stored at the evidence annex location. Submitting personnel will need to contact the Evidence Manager or their designee during regular business hours to make accommodations for preplanned operations that may result in large evidence submissions. For events outside of regular business hours, the supervisor in charge will need to contact on call CSI personnel to initiate an after-hours submission of large items.

2. Refrigeration

Items needing refrigeration, the submitting personnel will need to contact the Evidence Manager during regular business hours. For after hours submission, a supervisor will need to contact on-call CSI.

3. Wet/Damp Items

These items should be signed over to CSI for drying in the appropriate manner.

4. Seized Vehicles

Any vehicle that is seized by Alamance County Sheriff's Office personnel should be entered as a piece of evidence on the electronic voucher. The storage location for the towing company facilities are located under the locker location on the electronic voucher and should be used in place of a locker. If the vehicle is to be released for any reason, the seized vehicle form should be completely filled out and a copy of it sent to the Major of Administration.

The Major of Administration will then email a copy to property and evidence personnel, so it can be added to the database. After property and evidence personnel received the email the vehicle can be removed from the database.

Bulk Evidence all property which is received or recovered in large quantities or bulk will be handled in the same manner as all other evidence, to wit:

- a. At any site where a large evidence seizure is taking place, an evidence custodian will be assigned by the supervisor on site to

inventory, log, and take custody of all evidence; this evidence custodian may be a member of CID, CSI, or any other division at the discretion of the onsite supervisor, based on circumstances and availability of such personnel.

- b. Other personnel on site may assist the designated evidence custodian, and may collect evidence under his/her direction and supervision, but the evidence custodian will be the only member actually taking custody of these items.
- c. In the event that more than one site is being searched or evidence is being collected from more than one location at the same time, an evidence custodian will be designated at each site to collect and take custody of evidence.
- d. All items will be properly labeled, tagged, and/or marked as is appropriate for the size, type, and nature of the item(s), by the evidence custodian(s).
- e. All items will be inventoried and listed on a standard evidence control form(s), and submitted to evidence control section personnel by the evidence custodian(s).

5. Narcotics/Dangerous Drugs

Narcotics and dangerous drugs should be packaged in the appropriate evidence envelopes or bags and properly labeled. Marijuana should be packaged in the appropriately sized manila envelope. Other drugs such as prescription pills, cocaine, heroin, fentanyl, etc. should be packaged in the clear plastic evidence bags. If the submitting personnel has any reason to believe that any drug, including marijuana, may have fentanyl in it, the appropriate personal protection equipment (PPE) should be utilized by the submitting personnel, the drug should be placed in a clear plastic evidence bag and properly sealed, and secured in a locker. An email should then be sent to the current evidence manager and evidence personnel, as well as the CSI Lieutenant about the submitted fentanyl. For safety purposes, Narcan will be kept at the evidence submission desk, located in the hallway outside of the main evidence holding area. It will also be kept inside of the main evidence holding area for evidence personnel. Quantities of drugs too large for the regular evidence envelopes or bags should be packaged using the oversized envelopes, bags, or boxes.

6. Pursuant to General Statute 90-95, Subsection G, the laboratory report of drug analysis by the State Bureau of Investigation is admissible in District Court, and it is not necessary to open the evidence. The evidence will not be opened unless specifically directed by the court. The chemist or lab technician performing the analysis will be available for court testimony and will open the evidence in court.
7. When an employee attempts to return evidence that has previously been checked out and the Evidence Room is closed, the employee will place the evidence in an appropriate security locker or other storage area. The employee will record (for possible later use in court and chain of custody) the locker number or person receiving the item, the date, and time the item is returned to storage.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: VEHICLE PURSUITS

POLICY #: VII-I

EFFECTIVE DATE: 04/01/2005

REVISED DATE: 11/15/2021

PURPOSE: The purpose of this policy is to establish guidelines concerning vehicle pursuits.

POLICY: Vehicular pursuits of fleeing suspects can present a danger to the lives of the public, officers, and suspects involved in the pursuit. It is the responsibility of law enforcement agencies to assist their officers in the safe performance of their duties. To fulfill these obligations, it shall be the policy of the Alamance County Sheriff's Office to regulate the manner in which vehicular pursuits are undertaken and performed.

DEFINITIONS:

- *Authorized Emergency Vehicle:* A vehicle of this agency equipped with operable emergency equipment.
- *Marked Units:* A line enforcement equipped vehicle with uniform Alamance County Sheriff's Office exterior markings, equipped with siren and emergency lighting.
- *Unmarked Units:* A line enforcement equipped vehicle or any administrative vehicle, any color, with or without uniform Alamance County Sheriff's Office exterior markings, equipped with siren and emergency lighting.
- *Primary Unit:* The Sheriff's Office vehicle which initiates a pursuit or any unit which assumes control of the pursuit.
- *Secondary Unit:* Any Sheriff's Office vehicle which becomes involved as a backup to the primary it and follows the primary unit at a safe distance.
- *Vehicular Pursuit:* An authorized emergency vehicle used in an active attempt by a deputy to apprehend any driver of a motor vehicle who refuses to stop his/her vehicle or who flees from the deputy after being directed to stop with both blue light and siren.
- *Termination of Pursuit:* When deputies stop emergency operation of their vehicles and bring their vehicles into compliance with all traffic regulations.

GENERAL STATUTES:

- **N.C.G.S. 20-145: When Speed Limit Is Not Applicable**

The speed limitations set forth in Chapter 20 of the N.C. General Statutes shall not apply to vehicles when operated with due regard for safety under the direction of a law enforcement officer in a chase for the apprehension of persons charged with or suspected of any violations of the law. This exemption shall not, however, protect the driver of any such vehicle from the consequences of a reckless disregard of the safety of others.

- **N.C.G.S. 20-156: Exemptions to the Right of Way Rule**

The driver of a vehicle upon the highway shall yield the right of way to law enforcement vehicles when the operators of said vehicles are giving a warning signal by the appropriate light and by bell, siren or exhaust whistle audible under normal conditions from a distance not less than 1,000 feet. When blue light and siren are activated, as provided in this subsection, an emergency vehicle may proceed through an intersection or other place when the emergency vehicle is facing a stop sign, a yield sign, or a traffic light which is emitting a steady or flashing red light. This provision shall not operate to relieve the driver of the law enforcement vehicle from the duty to drive with due regard for the safety of all persons using the highway, nor shall it protect the driver of any such vehicle from the consequences of any arbitrary exercise of such right-of-way.

PROCEDURE:

I. PURSUIT OPERATIONS

A. Initiation of Pursuit:

1. The decision to initiate pursuit must be based on the pursuing officer's conclusion that the immediate danger to the deputy and the public created by the pursuit is less than the immediate or potential danger to the public should the suspect remain at large.
2. Any law enforcement officer in an authorized emergency vehicle may initiate a vehicular pursuit when the suspect exhibits the intention to avoid apprehension by refusing to stop when properly direct to do so. Pursuit may also be justified if the deputy reasonably believes that the suspect, if allowed to flee, would present a danger to human life or cause serious injury.

B. Pursuit Standards:

1. All emergency vehicle operations shall be conducted in strict conformity with applicable traffic laws and regulations.

2. Upon engaging in a pursuit, the pursuing vehicle shall activate appropriate warning equipment.
3. Upon engaging in a pursuit, the deputy shall notify central communications of the location, direction, and speed of the pursuit, the description of the pursued vehicle and the initial purpose of the attempted stop. The deputy shall keep communications updated on the pursuit. Communications personnel shall notify any available supervisor of the pursuit, clear the radio channel of non-emergency traffic, and relay necessary information to other officers and jurisdictions.
4. When engaged in a pursuit, officers shall not drive with reckless disregard for the safety of other members of the motoring public.
5. Unless circumstances dictate otherwise, a pursuit shall consist of no more than two police vehicles – a primary and secondary unit. All other personnel shall stay clear of the pursuit unless instructed to participate by a supervisor.
6. The primary pursuit unit shall become secondary when the fleeing vehicle comes under air surveillance or when another unit has been assigned primary responsibility.
7. Unmarked units involved in pursuits will be replaced by marked units whenever possible based on the availability of marked units. When two marked units have become involved in the pursuit, unmarked units will terminate their involvement, unless otherwise directed by a supervisor.

C. Pursuit Tactics:

1. Officers shall not normally follow the pursuit on parallel street unless authorized by a supervisor or when it is possible to conduct such an operation without unreasonable hazard to other vehicular or pedestrian traffic.
2. When feasible, available patrol units having the most prominent markings and emergency lights shall be used to pursue, particularly as the primary unit. When a pursuit is initiated by other than a marked patrol unit, such unit shall disengage when a marked unit becomes available, unless otherwise directed by a supervisor.

D. Forcible Stopping of Suspect or Violator Vehicle

1. In certain cases where normal pursuit efforts to stop the fleeing vehicle have failed, immediate action may be required to stop the vehicle. Attempts to forcibly stop the suspect or the violator must be made at a site that allows for due regard for the safety of the suspect or violator, the member executing the stop, and the general public, and only when the deputy(s) doing so have received appropriate training in such intervention techniques. Sufficient precautions must be provided to allow uninvolved motorists to safely avoid involvement in the police action.
2. Forcible stopping may occur by one (1) of four (4) methods:
 - a. Deployment of Tire Deflation Devices (Stop Sticks)
 - b. Mobile Roadblock
 - c. Precision Immobilization Technique (PIT)
 - d. Stationary Roadblock
3. *Deployment of Tire Deflation Devices (Stop Sticks)*
 - a. Stop Sticks may be deployed when practical to deflate the tires of the pursued vehicle in a controlled manner.
 - b. Only members who have completed training on the use of the device shall deploy Stop Sticks.
 - c. Stop Sticks shall not be deployed to stop any vehicle with fewer than four (4) wheels or all-terrain vehicles designed for off road use only.
 - d. When possible, officers deploying Stop Sticks will advise communications verbally of the location of the deployment and any other information pursuing officers need to know for safety purposes. Deployment shall not occur on curves, bridges, or locations where reasonable judgment under the circumstances would dictate avoidance for safety reasons.
 - e. Officers deploying Stop Sticks will position their vehicles off of the roadway with the blue lights activated, so as not to create or give the perception to motorists of an impassable thoroughfare. Officers should use fixed objects as protection during the deployment of Stop Sticks. If a fixed object is not available, the use of the police vehicle is acceptable.
4. *Mobile Roadblocks:*
 - a. When deemed practical or necessary, the pursuing deputy may determine that a mobile roadblock is appropriate. The pursuing deputy or secondary unit in the immediate

proximity with the vehicle may, based upon their judgment of the circumstances, request from a supervisor permission to conduct a mobile roadblock. With the approval of a supervisor or any command level deputy, units may position patrol vehicles in front, to the side(s), and o the rear of the violator in an attempt to slow and bring the vehicle to a stop. This action will require a minimum of three (3) patrol vehicles for maximum effectiveness; however resources available may dictate an alternate configuration.

- b. No passing attempts shall be attempted by a pursuing deputy if he/she can be assisted by another deputy who is already in position in front of the pursued vehicle. If passing is necessary for this technique to take place, a safe location must be chosen in an area of roadway which allows the deputy to do so quickly. If information is known or has been reported that the suspect is armed or has committed assaults resulting in death or serious injury to other, passing maneuvers shall not be attempted.
- c. The mobile roadblock should be executed so that the suspect of violator vehicle is given the opportunity to bring that vehicle to a controlled, safe stop.
- d. Mobile roadblocks shall not be attempted in which officers with other agencies are participating unless that officer is able to communicate directly with all other vehicles participating in this maneuver.

5. *Precision Immobilization Technique (PIT):*

- a. **Definition:** The Precision Immobilization Technique (hereafter referred to as PIT), is a maneuver that when performed properly allows a controlled striking of the violator vehicle in such a way that the violator vehicle comes to a safe stop in the roadway or general area of the initiated action, while the patrol vehicle remains under the control of the operator and available for further enforcement action.
- b. When tire deflation devices are not available, and conditions or resources prohibit a mobile roadblock, the PIT may be considered to safeguard life and preserve public safety. If condition allow, the PIT may be performed by any deputy who has received and successfully completed training provided by the Alamance County Sheriff's Office. The decision to initiate the PIT may be made by the pursuing deputy, but may also be

made by the on-call patrol supervisor or any command level deputy.

- c. Once the pursuing deputy has made the decision to initiate the PIT, central communications should be notified of this intention. The decision to initiate the PIT may be denied by a field supervisor or any command level deputy. If the decision to initiate the PIT is made by the patrol supervisor or any command level deputy, the pursuing deputy may use his/her own discretion and choose not to initiate the PIT. If the pursuing deputy chooses not to initiate the PIT at the direction of the patrol supervisor or any command level deputy, central communications shall be notified of that intention. The pursuing deputy should explain the reasons for not initiating the PIT in such circumstances in the narrative section of the Alamance County Sheriff's Office "Vehicle Pursuit Report".
- d. The use of the PIT shall be governed by the same external physical factors as govern other forced vehicle stops, such as traffic density, width of roadway, time of day, and location. Pursuit vehicles must be aware of and consider any pedestrians, parked vehicles, and oncoming traffic before utilizing this technique.
- e. The PIT should not take place on bridges, curbed roadways, at railroad crossing, in highway construction zones, or in area involving roadway embankments and/or drastic elevation changes. If one or more tires of the suspect vehicle have been flattened due to use of deployment of Tire Deflation Devices (Stop Sticks) or by any other means, use of the PIT shall not be attempted.
- f. The PIT shall not be used in pursuits involving motorcycles, large commercial vehicles, or recreational ATV's nor shall it be used or attempted if the suspect vehicle contains any children.
- g. The PIT is generally considered to be a non-deadly use of force when used as prescribed by the training guidelines of the Alamance County Sheriff's Office. The use of the PIT within the prescribed training guidelines of the Alamance County Sheriff's Office is not likely to cause serious bodily injury or death.
- h. However, exigent circumstances which can be articulated by the officers and supervisors involved in a vehicle pursuit could possibly require a deputy to perform the PIT outside the established guidelines for this procedure.
- i. *Depending on conditions and other factors at the time of execution, the PIT could be considered to be a Deadly Force action, and therefore should only be attempted with*

due regard for the safety of others, and after the involved deputy(s) or supervisor have determined that the benefit of apprehension of the suspect outweighs a decision to discontinue the pursuit and/or to employ other techniques.

6. *Stationary Roadblock:*

- a. The use of a stationary roadblock shall only be permitted in extreme cases when the violator poses an imminent risk of death or serious injury. The on-duty patrol supervisor or any command level deputy or their designee must authorize the use of a stationary roadblock. The site for the execution of the stationary roadblock must be chosen based on the site's ability to provide the suspect or violator sufficient time and warning to see that the thoroughfare is impassable, and time to bring their vehicle to a safe stop considering the speed of the pursuit at the time of the execution.
- b. All practical measures must be taken to eliminate the involvement of other motorists or pedestrians in this enforcement action.

II. PRIMARY UNIT RESPONSIBILITIES

- A. Vehicle pursuits are emergency operations. When initiating the pursuit of a motor vehicle, deputies must evaluate existing circumstances and conditions, including:
 1. Visibility and weather conditions.
 2. Traffic volume and road conditions.
 3. Seriousness of the suspected violation.
 4. Danger presented to the public if the suspect is not immediately apprehended.
 5. Danger to the public caused by the pursuit.
- B. A pursuing deputy must activate his/her blue light and siren, and notify the telecommunicator of the pursuit, including location and direction of travel and the nature of the violation. The telecommunicator will also be given a description of the fleeing vehicle including the license number, color, make, and model, as well as a description of the occupants, if possible. The blue light and siren will be in continuous operation throughout the pursuit.
- C. A pursuing deputy must give updated location and direction of travel to the telecommunicator as often as possible while still maintaining control

of the vehicle.

- D. A pursuing deputy must terminate the pursuit if at any time it appears that the danger to the public because of the pursuit outweighs the danger to the public by allowing the violator to escape.

III. SECONDARY UNIT RESPONSIBILITIES

- A. The first deputy to join the initiating deputy becomes the secondary unit. The secondary unit assumes the responsibility of updating the telecommunicator on the pursuit and coordinating radio traffic concerning the progress of the pursuit.
- B. The secondary unit must maintain a safe following distance and use emergency lights and siren for the duration of the pursuit.

IV. SUPERVISORS RESPONSIBILITIES

- A. A patrol supervisor shall always be the primary supervisor monitoring a pursuit, regardless if the pursuing deputy is an investigator, civil officer, transportation officer, or deputy assigned to any other division. For the purpose of this policy, the Special Operations and Traffic Enforcement divisions are considered to be patrol units.
- B. Supervisors will monitor all radio traffic.
- C. In allowing a pursuit to continue, the supervisor shall first consider all elements in Section II A of this general order.
- D. Supervisors are required to regulate the number of vehicles in a pursuit in accordance with section I B-5 of this policy, and the conditions under which the pursuit is occurring.
- E. Since supervisors are ultimately accountable, they shall evaluate the nature of the pursuit and make the decision to terminate whenever necessary.
- F. When the pursuing deputy has not voluntarily terminated the pursuit, the supervisor assuming command of the pursuit incident is immediately responsible for the incident.

V. OTHER PERSONNEL RESPONSIBILITIES

Other officers operating in the field at the time of pursuit shall:

- A. Monitor all radio traffic;
- B. Not engage unless directed to do so by the supervisor in charge;

- C. Stay out of the radio traffic of the pursuit unless urgent circumstances dictate otherwise;
- D. Use another radio channel for normal traffic during the pursuit;
- E. Stay in assigned area unless directed otherwise;
- F. Do not give their location for “FYI” purposes unless directed by the supervisor in charge, or a request comes from the active pursuit vehicles for area assistance.

VI. COMMUNICATIONS RESPONSIBILITIES

- A. Upon confirmation that a vehicle pursuit or emergency call is in progress, communications will notify a patrol supervisor and provide the supervisor with the essential information of the incident.
- B. Communications will carry out the following activities during a vehicle pursuit:
 - 1. Receive and record all incoming information;
 - 2. Control all radio traffic;
 - 3. Transfer all other radio traffic to another channel;
 - 4. Coordinate and dispatch back-up assistance at the direction of an appropriate supervisor.
- C. When a pursuit appears to be headed into another jurisdiction, the communicator shall immediately request assistance from the primary law enforcement agency of the other jurisdiction, and shall keep the other agency advised of the status and location of the pursuit.

VII. TERMINATION OF PURSUIT

- A. The primary unit must end the pursuit if at any time it appears that the danger to the public because of the pursuit outweighs the danger of allowing the suspect to escape.
- B. The pursuit should also be terminated if, at any time, the deputy feels that his ability to maintain control of his/her vehicle is jeopardized.
- C. In many pursuit situations it is possible for deputies to positively identify the suspect through their personal knowledge, the vehicle registration, description of the driver, or some combination of these factors. When a deputy feels that he can positively identify the fleeing suspect, the pursuit should be ended for safety reasons unless there is greater danger to the public if the suspect is not immediately apprehended.
- D. Supervisors and/or ranking on-duty deputies are responsible for ordering that a pursuit be terminated if, at any time, the danger of continuing the

pursuit is greater than the danger to the public, if the suspect is not apprehended immediately. Furthermore, a deputy's decision to terminate a pursuit based on safety or other reasons set out in this policy may not be overridden by a supervisor.

VIII. PURSUITS CONTINUING OUTSIDE JURISDICTION

- A. With supervisory permission, primary and secondary pursuit vehicles may pursue into another jurisdiction as long as communications is notified.
- B. If communications between the pursuit vehicle and this agency is lost but the pursuit must continue, as in the case of a life threatening felony, the deputy must re-establish contact with communications as soon as possible by radio, phone or through another agency.

IX. PURSUITS INITIATED BY OTHER AGENCIES

- A. A deputy of this agency may assist in a vehicle pursuit involving another agency as long as that agency requests assistance and the deputy has obtained permission from a supervisor.
- B. Only marked agency vehicles equipped with blue lights and siren may assist in pursuits initiated by other agencies, unless directed to do so by a supervisor.
- C. Deputies will not become involved, or will terminate their involvement in, pursuits with other law enforcement agencies when the total number of units in the pursuit, or other conditions, violate the requirements of this policy.

X. PURSUITS OFF-ROAD

- A. Officers shall not pursue any vehicle off-road unless the suspect has committed a serious felony or presents an imminent danger to the public.
- B. The supervisor shall make the decision allowing off-road pursuits to continue or to terminate.

XI. DOCUMENTATION

- A. Deputy Responsibility
Whenever any deputy engages in a vehicle pursuit as is described in this policy, that deputy shall file an appropriate incident report. Additionally, an Alamance County Sheriff's Office "Vehicle Pursuit Report" form will be completed by the primary pursuit unit, which shall be submitted to

his/her immediate supervisor before the end of his/her tour of duty. It is this officer's responsibility to ensure that this report is accurate and complete and includes all relevant details and circumstances leading to and otherwise regarding the pursuit.

B. Supervisor Responsibility

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: EMERGENCY VEHICLE OPERATION

POLICY #: VII-II

EFFECTIVE DATE: 04/01/2005

PURPOSE: The purpose of this policy is to establish employee guidelines for the operation of Alamance County Sheriff's Office vehicles.

POLICY: The purpose of this policy and procedure is to provide general guidelines to the employees of the Alamance County Sheriff's Office for situations in which emergency operations of vehicles is warranted and to state the obligations to public safety of individual deputies responding to emergency situations. All employees are expected at all time to drive with due regard for safety and to avoid negligent damage to vehicles of the Alamance County Sheriff's Office.

Some law enforcement situations present such a high potential of death or serious injury to innocent citizens that immediate and rapid response is needed. However, this need is balanced by the obligation to protect the general public from any unnecessary risks caused by the vehicle responding to such a situation.

N.C.G.S. 20-156- provides that drivers of vehicles upon highways shall yield right-of-way to police vehicles on official business and which are giving a warning signal by appropriate light and audible siren. This provision shall not relieve the driver of a policy vehicle from the duty to drive with due regard for the safety of all persons using the highway, nor shall it protect the driver of any such vehicle from the consequences of any arbitrary exercise of such right-of-way.

Definitions:

Emergency: Any situation needing immediate law enforcement attention due to a present danger to public safety, a need for the immediate apprehension of a violator, or a serious crime in progress.

Emergency Vehicle: An authorized law enforcement vehicle equipped with emergency lights and siren that is used to respond to emergencies. The deputy will, however, operate this vehicle with due regard for the safety of others.

Emergency Operations: Any operation of an emergency vehicle in which the operator, in the performance of a law enforcement duty, may exceed the normal speed limit or deviate from the outer traffic laws normally applicable to non-emergency vehicles.

PROCEDURE:

I. SUPERVISORY RESPONSIBILITIES AND DUTIES:

- A. The Supervisor on duty on a call-by-call basis will evaluate requests from outside agencies for emergency assistance, i.e.; EMS other law enforcement

agencies and fire department.

- B. It shall be the responsibility of any supervisor to direct the responding deputy, through the telecommunicator, to cease emergency operations if it appears that emergency operations are unwarranted or that the risk to the public by emergency operations outweighs the risk of terminating the emergency operations.

II. DEPUTY RESPONSIBILITIES AND DUTIES:

- A. Deputies will not intentionally exceed the speed limit or deviate from the traffic laws normally applicable to non-emergency vehicles unless they are responding to an emergency or attempting to apprehend a suspect violator of the law pursuant to the Vehicle Pursuit Policy.
- B. It shall be the responsibility of any deputy responding to a call or other situation requiring law enforcement action to make the initial determination as to whether or not the situation calls for the emergency operation of a vehicle. Generally emergency responses are limited to those situations involving crimes in progress of an emergency nature or where there is an imminent threat of violence or danger of personal injury.
- C. Generally, incidents involving non-violent misdemeanors and property damage and incidents of that nature would be excluded from those actually requiring or deserving an emergency response on the part of the deputy.
- D. Any deputy initiating emergency operations of a Sheriff's Office vehicle will immediately notify the telecommunicator and provide current location and destination or direction of travel as appropriate.
- E. Vehicles engaged in emergency operation are required to use both blue light and siren unless responding to an incident in which a siren could alert a perpetrator(s), in which case extreme caution must be exercised. Any time the blue light and siren have been discontinued, emergency operation will be terminated and all speed and traffic laws must be observed.
- F. This section does not apply to deputies "pacing" a vehicle to establish a speeding violation, or to deputies conducting surveillance on a suspect vehicle, or when a deputy believes a vehicle is being operated and/or occupied by a suspected dangerous person(s) and such use would present an imminent danger to the deputy or aid in the escape of a dangerous or wanted person(s).
- G. Due to the possibility of collision from an operator of a responding vehicle not hearing another deputy's siren over his own siren, no more than two responding units shall be permitted to respond to one location while engaged

in emergency operations, unless otherwise authorized by supervisory authority.

- H. Any time a vehicle operator attempts to elude a deputy, the departmental vehicle pursuit policy will be followed.
- I. Deputies engaged in emergency operations of a vehicle shall cease exceeding the speed limit and/or deviating from traffic laws normally applicable to nonemergency vehicles when:
 - 1. A supervisor directs a deputy to terminate the emergency operations.
 - 2. The deputy learns that the emergency situation warranting emergency operations no longer exists or that other units have arrived on the scene in sufficient numbers to handle the situation.
 - 3. Traffic, weather, visibility, or other conditions increase the risk of danger to the public using the highways to such a degree that the emergency operations are not longer authorized under the provision of this policy.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: VEHICLE LOCK-OUTS

POLICY #: VII-III

EFFECTIVE DATE: 04/01/2005

PURPOSE: To establish guidelines for the Alamance County Sheriff's Office for providing assistance unlocking vehicles.

POLICY: The Alamance County Sheriff's Office will assist civilians with locked vehicles in emergency situations only.

PROCEDURE:

- I. An emergency situation shall be defined in this situation as a child locked inside a vehicle. In some instances, an adult or animal locked in a vehicle may constitute an emergency, based on the circumstances and judgment of the deputy.
 - A. Deputies may assist civilians by using a "Slim-Jim" or other devices designed to unlock vehicles in emergency situations. Deputies should not attempt to open vehicles with side impact air bags.
 - B. Prior to unlocking a vehicle, the deputy should, when feasible:
 1. Determine that the person making the request is the owner of the car, or a person that has permission to use the vehicle.
 2. Have the person sign an "Entry Device" form.
 - C. In situations where the deputy believes that serious injury or death of an individual may occur without immediate action, the deputy may take whatever action he/she believes to be necessary to prevent same, without first obtaining any authorization from the owner, wither verbal or written. In such instances, central communications will be alerted to contact appropriate emergency personnel to respond as needed.
 - D. Deputies shall not assist citizens with locked vehicles under routine, nonemergency circumstances.

TITLE: TOWING, STORAGE, AND DISPOSITION OF VEHICLES

POLICY #: VII-IV

EFFECTIVE DATE: 04/01/2005

REVISED: 05/01/2020 3/10/2021

PURPOSE: The purpose of this policy is to establish guidelines and responsibilities for the towing, storage, and disposition of vehicles by the Alamance County Sheriff's Office.

POLICY: It shall be the policy of the Alamance County Sheriff's Office to tow vehicles to be searched and/or seized for evidence in a criminal proceeding, that present a road hazard, that are abandoned on a public roadway, subsequent to certain traffic offenses, and/or pursuant to statutory provisions for the forfeiture of a vehicle. It shall also be the policy of this Office that all vehicles which are towed by order by one of its officers will be inventoried, and that the owner, and lienholder if applicable, will be provided with the towing notification information required by North Carolina state law.

I. GENERAL AUTHORITY AND RESPONSIBILITY

Any member of the Alamance County Sheriff's Office who orders that a vehicle be towed for any reason other than a mechanical breakdown where the deputy is assisting a motorist will follow the procedures set out in this policy.

A. Deputies

1. In any situation where a vehicle is towed as a result of a deputy's action, relevant information concerning the towing-i.e., the time, date, vehicle information, and a towing company identification, should be called in to Central Communications (C-Com) by the deputy for documentation purposes.
2. It is the responsibility of all deputies to ensure that both the owner and lien holder of any vehicle towed as a result of their actions be notified and that all activities associated with towing be properly documented and authorized.

B. Supervisors

A supervisor must authorize, in advance, the towing of any vehicle under any of the circumstances outlined in this policy, and must subsequently document that authorization.

II. TOWING SERVICES AND STORAGE FACILITY

A. Contract

1. The Sheriff's Office may contract with a private individual or company to tow vehicles under certain conditions set out in this policy and in said contract (see "Towing Provisions" section). This

contract will be written, and will contain specific conditions and requirements of the contract. The contract will be reviewed near the end of each fiscal year by the Major of Administration, and may be renewed by the Sheriff after this review and negotiation with the contractor and/or others as needed.

2. The contractor of any such contract will provide a storage lot for the storage of these towed vehicles, and will be responsible for the security of the vehicles and their keys, contents, and/or other belongings therein.

B. Tow Rotation

The Sheriff's Office will use a general tow rotation for towing vehicles under certain conditions set out in this policy (see "Towing Rotation" section). These facilities must comply with Sheriff's Office policies, which include insurance, storage, equipment, employee requirements, and standardized fees. These regulations, and any inspections needed to insure compliance, will be maintained by the Major of Administration.

C. State Contract

The Sheriff's Office will utilize the tow service contracted by the State of North Carolina for vehicles stopped by a deputy which result in being towed and forfeited for impaired driving as is described under North Carolina General Statute 20-28-2. The Sheriff's Office will utilize the tow service contracted by the State of North Carolina for vehicles stopped by a deputy which result in being towed and forfeited for "Run and Done" as is described under North Carolina General Statute 20-141.5.

III. TOWING PROVISIONS

A. Traffic Offenses

1. If a vehicle is stopped as a result of a traffic offense whereby the driver is taken into custody and no other driver is present, the deputy will use the "consent to tow, remove, or store vehicle or leave vehicle at the scene" portion on the back of the N. C. Uniform Citation form to determine how to remove that vehicle from the location where the traffic stop occurred.
2. If the towing of a vehicle is necessary under this provision whether as a result of the consent of a driver who was taken into custody or under circumstances whereby the deputy is refused permission to move the vehicle to a safe location, the deputy will contact Central Communications (C-Com) to contact the tow service that is next on the general tow rotation list. The deputy will inform the driver that the fee for this towing service, and whatever charges apply for daily

storage, will be his/her responsibility, the deputy will provide the driver with the name, and preferably with a card or some form of written identification, of the towing service contacted. In the event that the driver's license of the individual who has been stopped has been revoked due to a previous impaired driving offense and the deputy's vehicle stop is for impaired driving, the vehicle is subject to impoundment and forfeiture under North Carolina General Statute 20-28-2. In this circumstance, the deputy should contact Central Communications (C-Com) to contact the tow service under state contract for this service. If the vehicle in question is subject to North Carolina General Statute 20-141.5 "Run and Done," the deputy should contact Central Communications to contact the tow service under state contract for this service.

B. Parked or Abandoned Vehicles

1. In the event that a vehicle is found parked or abandoned on a public roadway which is not an immediate safety hazard, or in which a vehicle has been safely moved to a roadway by a deputy, under the above noted conditions, the deputy will tag the vehicle with a green fluorescent label designed for this purpose, and will contact Central Communications (C-Com) to log the time and date of the tagging of this vehicle along with the vehicle's identification information.
2. This vehicle may be towed pursuant to North Carolina General Statute 20-161(e) if not removed from this location within twenty-four (24) hours, after which time contact with the owner and lien holder will be made, and a copy of the towed vehicle report form will be maintained following the procedures noted later in this section. Towing under these conditions will be performed by the tow service on general rotation.

C. Searches

1. In the event that a vehicle is seized and is to be searched, the vehicle will be towed to the storage lot contracted by the Sheriff's Office. If the investigator chooses to select another site for the search to take place, Central Communications will contact the next rotation tow service.
2. In all cases where a towed vehicle is searched, a thorough and complete inventory will be conducted and same will be documented. Also, an inventory of any seized property will be completed and maintained by the deputy conducting the search.
3. Arrangements will be made by the deputy with a Crime Scene Investigator, Detective, and/or Vice/Narcotics Officer to conduct this search if needed.

D. Forfeiture

In the event that a vehicle is seized with the intent to proceed with forfeiture actions against it, the vehicle will be towed by the tow company contracted by the Sheriff's Office and held pending the outcome of these proceedings.

IV. TOWING ROTATION

In order to perform its traffic safety functions, the Alamance County Sheriff's Office is routinely required to use wrecker services to tow disabled, seized, wrecked and abandoned motor vehicles. The purpose of this policy is to regulate on-call wrecker service providers who have been approved for inclusion on the "Rotation Wrecker List" so that the public, and qualified wrecker services, are treated in a uniform, fair and reasonable manner.

A. **Definitions:**

1. **Applicant.** A person or business entity owning a wrecker service and applying for inclusion on the Rotation Wrecker List.
2. **Wrecker Service.** A person or entity engaged in the business of, or offering the services of, or owning a wrecker service or towing service whereby motor vehicles are or may be towed or otherwise removed from one place to another by the use of a motor vehicle manufactured and designed for the primary purpose of removing and towing motor vehicles. A "rotation wrecker service" is one on the Rotation Wrecker List.
3. **Car carrier or "Rollback."** A car carrier or rollback is a vehicle designed to tow or carry vehicles damage-free. The truck chassis shall have a minimum gross vehicle weight rating (GVWR) of 14,500 pounds. The truck shall include: two lift cylinders with a minimum two and one-half-inch bore; individual power winch pulling capacity of not less than 8,000 pounds; a length of wire rope (cable) on a winch drum with a working load limit (WLL) that meets or exceeds the pulling capacity of the power winch utilized; and four tie-down hook safety chains. The carrier bed shall be a minimum of 16 feet in length and a minimum of 84 inches in width inside side rails. A cab protector, constructed of aluminum or steel, must extend a minimum of ten inches above the height of the bed. A "rollback" is not considered a small or large wrecker.
4. **Debris.** Includes any parts of a vehicle or material that may be strewn upon the surface of the roadway or highway right of way as a result of an incident/collision, and which may reasonably be cleared or removed. For this

definition, “debris” shall also include any mud, soil, antifreeze, transmission, brake or other liquids/fluids that have been deposited onto the surface of the roadway as a result of a vehicle collision. Debris does not include cargo from property hauling vehicles or hazardous materials that are required to be handled by hazardous materials teams.

5. **ACSO.** The Alamance County Sheriff’s Office
6. **Rotation Wrecker List (Sometimes also Rotation List).** A list of wrecker services which have applied and been approved by the Major of Administration to be placed on the rotation list for the purpose of towing vehicles at the direction of law enforcement or other emergency organizations. The ACSO shall utilize rotation wrecker list services in those instances in which the owner or person in control of a vehicle is unable or not permitted to determine the disposition or custody of the vehicle, or otherwise has no preference as to what wrecker service tows the vehicle.
7. **Deputy.** All sworn personnel of the Alamance County Sheriff’s Office who are charged with law enforcement duties.
8. **Storage Facility.** A storage facility, located in the County of Alamance, secured by a minimum six (6) foot-high chain-link fence (or a fence of similar strength), a wall or building, or other barrier or fence of sufficient height or design to reasonably secure towed vehicles from unauthorized access or removal and to deter trespassing or vandalism, and where all entrances and exits are secure from public access. It is recommended, but not required, that storage facilities be properly lighted. Such facility shall include a parking area that shall be of sufficient size to accommodate all vehicles towed by the wrecker service for the ACSO.
9. **Wrecker or Tow Truck.** A wrecker means a truck chassis having: a) a minimum gross vehicle weight rating (minimum gross vehicle weight rating, or GVWR, consists of the unloaded/curb weight of the vehicle plus the maximum carrying capacity recommended by the vehicle’s manufacturer) of 10,000 pounds, and a maximum GVWR that does not exceed 26,000 pounds; (b) a boom assembly having a minimum lifting power of 8,000 pounds as rated by the manufacturer; (c) an 8,000 pound-rated winch with a length of cable on a winch drum with a working load limit that meets or exceeds the pulling capacity of the power winch utilized; d) a belt-type tow plate or tow sling assembly; e) a wheel life with a retracted lifting capacity of no less than 3,500 pounds; f) dual rear wheels; and g) any additional safety equipment specified by this policy.

B. ACSO Rotation Wrecker Policy

1. The Major of Administration shall include on the Rotation Wrecker List only those wrecker services which complete a written application, meet the minimum standards set forth herein, and agree in writing to adhere to the provisions in this policy.
 - a. Within five (5) business days after receipt of each application, the Major of Administration (or his designee) shall initiate an investigation of the applicant's operation and storage yard. Such investigation shall be completed for the purpose of verifying the information in the application, and to determine whether the applicant is compliant with the provisions of this Policy. If the Major of Administration (or his designee) determines that a wrecker service fails to satisfy one or more of the requirements set forth in this Policy, the Major of Administration (or his designee) shall notify the wrecker service owner of the reason(s) for refusing inclusion on Rotation Wrecker List. Any wrecker service that fails to maintain compliance with the requirements of this policy may be removed by the Major of Administration from the Rotation Wrecker List.
 - b. In order to promote continuing compliance, the Major of Administration (or his designee) may conduct unannounced inspections of operations and storage facilities during normal business hours. Any wrecker service operator who himself or by his employee, agent, servant or representative interferes with the above-described inspections, including withholding records and/or denying access to facilities, shall be removed from the Rotation Wrecker List.
 - c. All applicants must complete a Small Wrecker/Rollback Rotation Price List. The ACSO shall set the price for non-collision wrecker rotations. That price will be indicated on the price list.
2. A wrecker service must have a full-time business office that is staffed and open during normal business hours of 8:00 A.M. to 5:00 P.M., Monday through Friday, excluding holidays, and a storage facility. A representative from the wrecker service must be available on call on a 7-day, 24-hour basis to accept telephone calls from officers and to allow access to towed vehicles. Also, the wrecker service must have someone available, at a minimum from 8:00 A.M. to 5:00 P.M. Monday through Saturday, excluding holidays, to allow vehicles to be retrieved by registered owners, operators, and persons

legally entitled to possession. In order to ensure that the person(s) is entitled to possession, the wrecker service shall require sufficient identification, vehicle registration and any other pertinent information from such person(s) seeking to claim a towed vehicle, and immediately upon release of a towed vehicle, the wrecker service shall contact the ACSO to inform it that the vehicle has been released and to whom the vehicle was released. An individual (registered owner, legal possessor, or operator) shall not be charged a storage fee for days that he/she could not retrieve his/her vehicle as a result of an action or omission on the part of the wrecker service (such as where the wrecker service was not open, did not answer the telephone or a representative was not available to release the vehicle). A wrecker service is responsible for the collection of fees and costs for providing towing and storage services. When a vehicle that has been towed is evidence of or involved in a crime or criminal investigation or has otherwise been impounded or is subject to forfeiture, the ACSO shall so notify the wrecker service when the vehicle is towed of any available, unclassified information it has about such crime, impoundment or forfeiture, and the wrecker service shall not thereafter release the vehicle without the ACSO written authorization. Nothing herein shall mean that the ACSO will release information concerning a criminal investigation.

3. Vehicles towed at the request of the ACSO must be placed in a storage facility as defined in Section A.8 above.
4. Each wrecker must be equipped with legally required lighting and other safety equipment to protect the public, and such equipment must be in good working order.
5. Each wrecker service vehicle must be equipped with a dolly, amber or yellow revolving light (which must be operating during any tow), and other equipment (as required by the laws of the State of North Carolina) to clean debris from the roadway and to maintain safety at the scene of an incident. Such other equipment must include a heavy-duty push broom, dust pan (or shovel), flares, fire extinguisher, scotch blocks, and recovery lights or spot lights on the rear of the truck.
6. The wrecker service operator must remove all debris (see the definition of “debris” at Section A.4 above), other than hazardous materials, from the highway and the right of way prior to leaving the incident/collision scene. This debris removal must be completed as a part of the required service and shall not be charged as an extra service. Hazardous materials consist of those materials and amounts that are required by law to be handled by Hazardous Materials Teams.

7. The wrecker service must be available to the ACSO for rotation service on a 24-hour per day and seven (7) days a week basis. Calls for service must not go unanswered for any reason.
8. Under normal conditions, the wrecker service shall respond in a timely manner and in any event within 30 minutes of receiving the call for service. Failure to respond in a timely manner may result in a second rotation wrecker service being requested. If because of a failure to respond in a timely manner a second wrecker service is requested before the arrival of the first rotation wrecker service, then the initially requested wrecker shall forfeit the call, shall immediately leave the collision/incident scene, and shall not receive compensation. A wrecker service shall not proceed to the scene of an incident without being called by the ACSO or by the Alamance County Communication Center. "Running wrecks" or solicitation of business at an incident scene is prohibited.
9. Each wrecker service driver shall have a valid driver's license for the type of vehicle driven to an incident. A limited driving privilege shall not be sufficient.
10. The wrecker service shall adhere to all Federal and State laws and local ordinances and regulations related to registration and operation of wrecker service vehicles, and all wrecker drivers must observe all traffic laws while responding to an incident.
11. The wrecker service shall employ only wrecker operators who demonstrate an ability to perform required services in a safe, timely efficient and courteous manner and who satisfy all of the requirements for wrecker drivers established or referenced herein. Wrecker owners, operators and employees shall not be abusive or disrespectful and shall not use vulgar or profane language when dealing with the public or any member of the ACSO and shall cooperate at all times with employees of the ACSO. All wrecker drivers must be experienced and knowledgeable as to the proper and safe operation of wreckers and of the towing of vehicles such that dependable service is delivered without damage caused to the vehicle in tow.
12. Each wrecker driver employed by a wrecker service on the rotation list shall:
 - a. be at least eighteen (18) years of age, and eligible to work in the United States.
 - b. have possessed a driver license for the past

twelve (12) months issued by any state of the United States.

- c. have not committed an offense of driving while subject to an impairing substance or with an alcohol concentration of 0.08, or more, within five (5) years.
 - d. not have committed a felony unless his/her citizenship has been restored.
 - e. not have committed an offense relating to controlled substances within five (5) years and not be a habitual motor vehicle law offender.
 - f. not have been convicted of more than two (2) motor vehicle moving violations in any twelve (12) month-period during the past five calendar years.
 - g. A wrecker driver must not be physically or mentally incapable of operating a wrecker. Upon request by the Major of Administration or his designee, the wrecker driver employed by a wrecker service on the rotation list must submit a written opinion from a physician stating that the applicant is physically capable and/or mentally competent to operate a wrecker.
13. Every wrecker service on the Rotation Wrecker List shall have insurance as required by N.C.G.S.20- 309(a), and shall maintain the following with one or more insurance companies licensed to do business in North Carolina:

Garage Keepers Policy: A garage keeper's legal liability policy covering fire, theft, windstorm, vandalism, and explosion in the minimum amount of \$100,000 with each vehicle suffering damage being deemed a separate claim.

Garage Liability Policy: A garage liability policy covering the operation of the owner's business and vehicles or other equipment for any bodily injury or property damage for which the operator may be held responsible. This policy shall have minimum limits of \$300,000 for injuries or death and a minimum of \$50,000 for property damage arising out of a single incident.

Hook or Cargo Policy: Each wrecker service on the Rotation Wrecker List shall have in effect a valid hook or cargo insurance policy, in the amount of \$50,000.

Notice Endorsement: All insurance policies must contain an endorsement by carriers providing ten days' notice to the ACSO and insured in the event of any change in coverage. Each wrecker service must immediately notify the Major of Administration of any insurance lapse or change. Each wrecker

service shall ensure that the ACSO is listed as “Certificate Holder” or named insured on the Certificate of Liability Insurance.

14. A wrecker service shall notify the ACSO without delay whenever the wrecker service is unable to respond to calls.
15. Notification of rotation wrecker calls shall be made by the ACSO or Alamance County Communication Center to the owner/operator or employee of the wrecker service. Notification shall not be made to any answering service, pager or answering machine.
16. Wrecker service vehicles shall be marked on each side by printing the wrecker service name, city, and state in at least two and one-half- inch letters. No magnetic or stick-on signs shall be used. Decals are permissible. Before leaving the incident scene, the wrecker service shall provide a business card to the investigating Deputy and owner or person in apparent control of the vehicle.
17. Each wrecker service vehicle must be registered with the Division of Motor Vehicles in the name of the wrecker service, and each vehicle must be insured by the wrecker service. Dealer tags shall not be displayed on wreckers that respond to rotation calls.
18. Wrecker service operators to the extent practicable shall retrieve, secure and preserve, all personal property falling from or in a vehicle involved in an incident which vehicle is one to be towed.
19. Upon request or demand, unless impounded or subject to an order not to do so, the wrecker service shall return personal property stored in, with or from a vehicle, whether or not the towing, repair, or storage fee on the vehicle has been or will be paid. Personal property, for purposes of this provision, includes any goods, purses, wallets, cash, identification, credit and debit cards, licenses, photographs, checks, deposit slips, bank records, and any other property having any value whatsoever other than items directly related to the functioning of the vehicle itself.
20. After financial obligations have been agreed upon between the wrecker service and the owner(s), or appropriate party, of the disabled vehicle(s), the wrecker service shall tow such vehicle(s) to any destination requested by the vehicle owner, or other person with apparent authority.
21. Unless the vehicle is being preserved by the ACSO as evidence, the wrecker service shall allow insurance adjusters access to and allow inspection of the vehicle at any time during normal business hours.

22. The placement of a wrecker service on the rotation list does not guarantee a particular number or quantity of calls, or an equivalent number of calls to every wrecker service on the Rotation Wrecker List. If a wrecker service responds to a call, said wrecker service shall be placed at the bottom of the rotation list unless the wrecker service, through no fault of its own, is not used or is not entitled to receive compensation for the call. In that event, such wrecker service shall be placed back at the top of the rotation list. Each wrecker service agrees to charge reasonable towing fees and storage fees commensurate with fees charged to other customers, and on or before July 1 of each year, each service will furnish the Major of Administration with a schedule of all fees. The Major of Administration has the right to disapprove any fees that in his or her judgment are excessive based upon the prevailing fees in the community. The placement of a wrecker service on the rotation list does not entitle any wrecker service to compensation as a consequence of a failure to call the wrecker service in accordance with the list or as a consequence of the removal of the wrecker service from the rotation list.
23. A rotation wrecker service, upon accepting a call for service from the ACSO, must use its own wrecker. Wrecker companies shall not refer a call to another wrecker company or substitute for each other.
24. If a rotation wrecker service moves its business location or has a change of address, the owner of the wrecker service must notify the Major of Administration of the new address or location. Notification shall be made in writing no later than ten days prior to the projected move. The wrecker service shall not be entitled to receive rotation calls prior to inspection of the new facility.
25. A wrecker service may dispatch either a wrecker or a car carrier "rollback" in response to a rotation wrecker call, except where the wrecker service is advised that a particular type of recovery vehicle is needed due to existing circumstances.
26. A rotation wrecker service driver or employee shall not respond to an ACSO-initiated call for wrecker service with the odor of alcohol on his/her breath, or while under the influence of alcohol, drugs, or any impairing substance.
27. Storage fees shall not begin to accrue until the next calendar day following the towing of a vehicle.
28. The operator of a vehicle, if present and not incapacitated, shall have the right

to select a wrecker service of his choice, provided, however, that the requested wrecker service is located within a reasonable distance of the incident site. ACSO personnel at the scene shall determine the reasonableness of the distance from the incident site, and their decision shall be final. If the operator of a vehicle to be towed is not present, is incapacitated, or has no preference for a specific wrecker service, ACSO personnel shall determine the wrecker service per the Wrecker Rotation List. When emergency circumstances prevail, the ACSO deputy may request wrecker services from the entity service closest to the scene. An ACSO deputy may also request wrecker services from an entity operating large cranes or other heavy recovery equipment when the same is necessary to remove traffic obstacles such as large trucks or heavy equipment. The determination regarding whether an emergency exists, or whether a specialized recovery service is required, shall be in the sole discretion of the ACSO on-duty supervisor.

29. In no event shall any deputy, in the performance of his duties, recommend any wrecker service, motor club, or automobile membership service to the owner or driver of a wrecked or disabled vehicle, nor shall any deputy, in the performance of his duties, recommend the services of a particular wrecker service, motor club, or automobile membership service. Deputies shall, whenever possible and practicable, dispatch the wrecker service requested by the motorist requiring such services.
30. A Deputy who notices a violation of the provisions of this Policy shall notify the Major of Administration in writing as soon as practicable. The Major of Administration shall notify, in writing, said wrecker service about the violation(s) and of any planned corrective actions. A wrecker service that is dissatisfied with the rotation system, or with the requirements of this policy, shall file a written statement to the Major of Administration. If the Major of Administration cannot satisfy such complaint, a statement shall be filed with the Sheriff whose decisions will be final.
31. By submitting an application and accepting placement on the Rotation Wrecker List, each wrecker service agrees to forever hold harmless and to fully indemnify the ACSO and its personnel, agents, officials, in both their official and individual capacities, from any and all judgments, liens, claims, assessments, demands, attorney fees, actions, and causes of action of any sort arising out of any damage or injury sustained by any person, property or entity by reason of any negligent or willful act or omission of the wrecker service or its officers, employees, agents, or contractors in connection with rendering services.
32. Wrecker services on the Rotation Wrecker List shall not employ any person

who is also employed by the ACSO. The ACSO will not approve an application for the rotation wrecker list for any wrecker service that employees a full or part-time employee of the ACSO.

33. Upon ten days' notice, the Major of Administration may remove any wrecker service from the Rotation Wrecker List for any reason. However, such termination shall not affect the responsibilities of the parties relating to vehicles that have been towed as of the termination date.

V. POST-TOW RESPONSIBILITIES

The deputy shall mail the registered owner the towed vehicle report letter to the last known address of the registered owner and to the lien holder of that vehicle, if applicable as determined by DMV records.

C. Research of Vehicle Status and Condition

Upon seizure of a vehicle for which forfeiture is intended, it will be the responsibility of the case investigator to contact the North Carolina Department of Revenue or any other agency(s), as may be warranted by the circumstances of the investigation, to precede with possible forfeiture proceedings against the vehicle regarding taxes and/or other such issues.

D. Disposition

1. When the search of vehicle information concerning a vehicle that was towed for forfeiture purposes has been completed, and it is determined that forfeiture proceedings against the vehicle will be abandoned, it is the responsibility of the case investigator to contact the contractor holding that vehicle and to authorize the contractor to release the vehicle to the owner and/or lien holder as is appropriate. The contractor is then authorized to begin charging storage fees, but only after contacting the owner and/or lien holder that said vehicle is authorized to be released and notifying same that storage fees will begin thereafter.
2. When vehicles being held for forfeiture purposes are awarded to the Alamance County Sheriff's Office by court order or other lawful authority, it is the responsibility of the case investigator to perform and coordinate documentation with the N.C. Department of Motor Vehicles and any other agency(s) necessary to affect that transfer, and to notify the Major of Administration or his designee of same in order to add said vehicle to the inventory.
3. When vehicles being held for forfeiture purposes are ordered by the court to be disposed of or handled in some other fashion, such as to be returned to the owner, or to be sold, it is the responsibility of the case investigator to comply with said order as quickly as practical, and to document any and all actions taken to do so.

Brief Description			

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: IN CAR CAMERAS

POLICY#: VII-VI

EFFECTIVE DATE: 01/09/2019

PURPOSE: To provide policy for the use, management, access, retention, handling, dissemination, storage, and retrieval of audio-visual media evidence recorded by in-car video systems.

DEFINITIONS:

In-Car Camera (ICC) System - Audio/video recording equipment designed for fixed installation in patrol vehicles. This operating procedure does not apply to the use of hand held camcorders or audio/video surveillance devices.

ICC Operator – A deputy who has received instruction in the operation and use of the specific mobile video recording devices installed in agency vehicles, and who is authorized to use such equipment.

Wireless Microphone Transceiver (WMT) – An external audio recording device worn by the ICC Operator designed to capture audio recordings taking place outside of the patrol car and when properly synced with the ICC. This device is commonly referred to as a “mic pack”.

POLICY: The ACSO uses in-car camera systems for the purpose of recording audio and video accounts of events. Events can include, but are not limited to, traffic stops, routine patrol activities, domestics, and other types of disturbances and arrests. Use of the cameras is intended to provide an accurate record of an incident for criminal, investigative and administrative purposes.

I. AUTHORIZED USE:

ICC systems will be used to accomplish legitimate police objectives, including, but not limited to:

- Accurately document events, actions, conditions and statements made during investigative stops, field interviews, arrests and critical incidents.
- To enhance deputy reports, collection of evidence and courtroom testimony.
- Reviewing probable cause for arrest, custody procedures, deputy and suspect interaction and evidence for investigative purposes.
- Evaluation of deputy tactics and field performance and training.

II. PROCEDURES

A. DEPUTY RESPONSIBILITIES

1. The care and security of the ICC equipment is the responsibility of the deputy assigned to that vehicle. ICC systems will be maintained and operated according to the manufacturer's instructions and recommendations.
2. Each deputy assigned a digitally equipped vehicle will complete the wireless download of digital data to the secured network at least once a week.
3. All videos will be classified by the deputy and stored as directed by this policy
4. Prior to beginning a tour of duty, the deputy will turn the power on to the system and determine if the ICC system installed is working properly and will immediately notify their supervisor of any malfunction, damage or problem. This includes the front facing camera, the interior microphone, the passenger compartment camera, the camera software installed on the MCT, and the WMT (mic pack).
5. The WMT (mic pack) will be placed on the duty belt at the beginning of the shift.
6. The mic pack has a chargeable battery and it is the responsibility of the assigned deputy to ensure that the body mic is charged prior to each shift.
7. Deputies are **required** to have their mic pack "synced" as outlined by the manufacturer's instructions. Failure to properly sync the body microphone will result in the system failing to record a deputy's conversation(s), or any other audio which may have evidentiary value, while the deputy is outside of the patrol vehicle.
8. Deputies should avoid placing the mic pack inside a shirt or jacket pocket. Carrying of the mic pack in this fashion can result in undo interference with the audio recording.
9. Any damage or issues with the mic pack or its operation should be brought to the attention of the deputy's immediate supervisor.
10. Deputies must make sure that the video camera is properly positioned and adjusted at the correct viewing angle to visibly record the events.
11. Deputies will inform their supervisor of any documented sequences that may be of value for training purposes.
12. Deputies will officially note in all reports when video/audio recordings have been made with ICC equipment.

13. While engaged in Vehicle Pursuits, Emergency Vehicle Operations, or any activity where recording is mandatory, deputies will turn off their factory vehicle radios or any other audio media to prevent distortion while recording the events.

B. ACTIVATION AND DEACTIVATION

1. The ICC equipment used by the ACSO is installed and designed to activate automatically when the patrol car's emergency lights and/or siren are in operation. The video system may be activated in one of five ways:

- a) By activating the overhead lights and/or siren.
- b) By manually pushing the record button on the camera system or on the officers laptop computer.
- c) By activating the unit remotely using the WMT (mic pack).
- d) By front, back or side impact if the deputy is involved in a collision.
- e) By a predetermined GPS speed of 80 MPH.
- f) By opening the rear passenger door(s)
 - Right side for single security partitions
 - Both sides for full security partitions

2. The ICC must not be deactivated until the vehicle stop or other enforcement action is completed. The WMT must always be turned on while on duty in order to provide audio recordings as well as video recording during ICC activation.

3. Officers will activate the rear seat interior camera and recording devices when transporting prisoners or suspects. This includes persons in custody for mental commitments.

4. ICC equipment may be manually deactivated during non-enforcement activities such as protecting collision scenes, directing traffic, etc.

C. RESTRICTIONS

1. Deputies will not use ICC equipment to make audio/video recordings of other deputies or staff without notice.

2. Any deputy who intentionally disables or damages any part of the video recording or transmitting equipment or fails to activate the system as required by this policy will be held accountable and subject to criminal and/or internal disciplinary action

III. ACTIONS REQUIRING MANDATORY RECORDING

A. MANDATORY RECORDING

Officers will remain vigilant in identifying situations which could result in complaints against the deputy, or the Alamance County Sheriff's Office. To avoid liability and to allow for quick resolution during allegations and/or complaints, deputies engaged in the following situations will automatically activate their in-car cameras (audio and video) and record the encounters. Recording in the following situations is required; however, deputies are encouraged to record any encounter between themselves and a citizen where they believe, or have reason to believe video documentation would add an additional layer of protection against false complaints and/or liability.

B. INCIDENTS

The following incidents require mandatory recording by the ICC:

1. Emergency Traffic - Any time a deputy is engaged in running emergency traffic
2. Vehicle Pursuits –Any time a deputy is engaged in a vehicle pursuit

4. In Custody – any time a person is seated, transported, or in custody in the secure area of a patrol vehicle.

To the extent practical without compromising deputy safety, the ICC system must be activated in preparation for, when initiating, or under the following circumstances and conditions:

5. Searches of persons– particularly but not limited to members of the opposite sex will be conducted in front of the patrol vehicle in view of the camera with the mic pack activated.
6. Vehicle Searches
7. Arrests

IV. DATA SECURITY/ACCESS CONTROL AND STORAGE/RETENTION SCHEDULE

A. Data Security and Access Control

1. Alamance County MIS will be responsible for ensuring security of the data on the network.
2. Digital recordings required by a deputy for a criminal prosecution can be downloaded by the deputy who made the recording, by the deputy's supervisor, or by administrative technical support. This access is "view only" and the data cannot be edited, copied, or destroyed.
3. Supervisors will have access to review all in-car video data in the "view only" format.

PURPOSE

To establish a procedure for responses to calls for service involving hostage or barricaded person(s) situations in order to enhance the overall effectiveness of the Sheriff's Office operations in such matters.

POLICY

It shall be the policy of the Alamance County Sheriff's Office that when a hostage and/or barricaded person situation occurs, the immediate response of specialized personnel is required. The primary goal of a hostage and/or barricaded person situation is the safe release of all hostages and a successful operation without loss of life.

PROCEDURE

These procedures shall be set forth when the Alamance County Sheriff's Office is the primary agency in charge of a hostage or barricaded person incident. These procedures are necessary for the Sheriff's Office to efficiently deploy and direct its resources and coordinate its efforts with other public safety and public service organizations. The following plan is presented as a broad outline and general guide for the response of this Office to facilitate tactical decision-making and contribute to the resolution of the hostage or barricaded person(s) situation.

I. OPERATIONAL PROCEDURES

The response of the first deputy and the first supervisor at such a scene may include but is not limited to the responsibilities discussed in this plan.

A. Responsibilities of the First Deputy on the Scene

B. Responsibilities of the First Supervisor on the Scene

1. Assume command of all law enforcement activities at the scene.
2. Verify the initial deputy's assessment of the situation and make the request for any support or specialized units needed.
3. Establish a field command post and staging area. Inform communications of this location. (A patrol vehicle can serve as the temporary command post.)
4. Establish a route for all additional support units to arrive so as not to interfere with ongoing operations or get in harms way.
5. Complete the containment of the affected (inner and outer perimeter area as much as possible to ensure the security of person and property in the area.
6. Re-assign all units not responding to the incident area to existing calls or districts for service throughout the county.
7. Notify the Major of Operations and Patrol Captain of the incident as soon as possible.
8. Start a diagram of the area and placement of all units involved in the situation. Begin gathering intelligence about the suspect, if know, and identifying all witnesses.

C. Responsibilities of the Communications Center

1. Dispatch support units as requested by the supervisor at the scene.
2. Designate a separate radio channel (that can be recorded) for operations during the incident.
3. When requested to do so by the supervisor in charge of the scene, contact any other agencies and advise them of the situation and request their assistance if it is needed.

D. Responsibilities of the Special Response Team (SRT)

1. SRT has the responsibility for the containment and/or removal of any suspects upon deployment; SRT shall be responsible for securing the inner perimeter of a hostile crime scene, deploying chemical agents, suppressing direct gunfire and other imminent threats, entering building, searching for and securing suspects, and otherwise making buildings and crime scenes safe as necessary.
2. Once on the scene, SRT will assemble at their designated area. The SRT Coordinator and Team Leaders will meet with the on-scene supervisor and gather all information about the incident.

3. The SRT Coordinator and Team Leaders will also meet with the Crisis Negotiators Team Leaders and discuss all available information.
4. The SRT Coordinator will go to the command center and take over tactical operations.
5. SRT Team Leaders will brief operators on all information available, and then deploy them to take over security of the inner perimeter. At that time the inner perimeter becomes an SRT responsibility.
6. Patrol officers who are relieved from the inner perimeter will report to the command center for debriefing and/or reassignment.
7. The SRT Team Leaders shall immediately begin to gather intelligence from members at the scene. With all information received they will develop an operational plan.
8. Once the Sheriff, Major of Operations and/or SRT Coordinator has approved the operational plan the Team Leaders will brief the other SRT members.
9. If all negotiations are terminated and all other means are exhausted to resolve the situation peacefully, with the approval of the Sheriff or his designee, SRT will then execute the operational plan.

E. Responsibilities of the Crisis Negotiation Team

1. The Crisis Negotiation Team has the responsibility of starting negotiations with hostage takers or barricaded person(s) as soon as possible in order to slow down the situation, reduce anxiety levels, reduce the threat level, and lead to more rational behavior of suspects. The Crisis Negotiation Team goal is to seek the release of hostages and to have the offender to surrender without the use of force.
2. Once on the scene, the SRT Coordinator will assemble the Crisis Negotiators Team Leaders and the SRT Team Leaders to have both parties discuss all available information. The SRT Coordinator will be the go between for these two groups.
3. Crisis Negotiators will not be in direct communication or contact with SRT Team members. Command Personnel will communicate with the Crisis Negotiators Team leader(s) to determine whether the suspect(s) are trying to comply with the negotiators' requests or trying to deceive them.
4. Crisis Negotiator Team Leader(s) will provide all available information to the Crisis Negotiators.
5. As a rule all demands from the suspects are negotiable except any demands for weapons, for drugs, or for additional hostages or hostage exchanges.
6. Demands for transportation should be avoided. There may be exceptions, such as when there is danger to a large group of persons at the present site, or where movement presents a tactical advantage

to law enforcement. A modified/disabled vehicle should be readied to handle this possibility.

7. No demands shall be made on hostage-taker, other, other than to agree to trade the release of the hostages for the perpetrator's safety.
8. The mechanism by which food and water can be provided to the subjects shall be established by the Crisis Negotiators in coordination with SRT Coordinator.
9. If all negotiations are terminated and all other means are exhausted to resolve the situation peacefully, the Crisis Negotiator Team Leader will notify the command center. With the approval of the Sheriff or his designee, the SRT Team will then execute the operational plan.

F. Responsibilities of the Public Information Officer (PIO)

1. Coordinate the department's contact with the news media
2. Schedule press conferences
3. Release statements to the media as is appropriate, such as casualty information, rumor control, and traffic re-route plans
4. The Sheriff or his designee must approve all press releases

II. DE-ESCALATION PLAN

- A. The de-escalation period will be that in which the situation is deemed to be under control and conditions are returning to normal. During the de-escalation period, officers will be systematically relieved from their duty assignments in regard to the incident.
- B. The following actions will be taken to de-escalate adverse conditions that may have resulted from the disaster itself or the ensuing response and control by public safety agencies.
 1. Identify areas still affected by the incident.
 2. Establish priorities for restoration of services
 3. Coordinate restoration activities with mutual aid agencies
 4. Provide continued security to designated areas if needed
 5. On duty officers will return to normal duties
 6. Officers called back or held over for duty will be relieved
 7. The command post will be discontinued

III. POST-INCIDENT DUTIES AND REPORTS

 1. Continuation of security
 2. Additional patrol in affected areas

3. Maintain traffic checkpoints
 4. Periodic news media briefings
- B. The SRT Coordinator will complete a post-incident report. This report will include all actions taken by the SRT and Crisis Negotiators from the time of arrival until the command post was deactivated.
- C. A post incident de-briefing will be required for any response to a hostage or barricaded person(s) incident. This debriefing shall include the following:
1. A meeting will be convened within two weeks of the incident.
 2. All directly involved personnel will attend the de-briefing
 3. Selected personnel from other involved agencies will be requested to attend if deemed necessary.
 4. The identification of training needs and problem areas, as well as any positive areas that were encountered, will be discussed and evaluated.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: HANDLING, SEARCHING, AND TRANSPORTING OF PERSONS

POLICY #: VIII-II EFFECTIVE DATE: 04/01/2005 REVISED: 03/11/2022

PURPOSE: The purpose of this policy is to establish procedures for the safe and legal handling, searching, and transporting of suspects, prisoners, arrestees, mentally ill persons, and citizens in varying circumstances.

POLICY: It shall be the policy of the Sheriff's Office to provide adequate safety and security for all persons in being transported, as well as for the transportation deputy, and the public.

PROCEDURE:

I. TRANSPORTATION DEPUTY RESPONSIBILITIES

A. Equipment Inspection

1. At the beginning of each tour of duty, every deputy who may become responsible for the transport of any suspect, prisoner, arrestee, citizen or other must inspect all approved equipment and vehicles for safety and function. Each deputy will be responsible for having on his/her person all normally issued equipment and having that equipment in good operational order. This equipment will include but not be limited to issued firearm and restraint devices. Officers shall leave vehicles for subsequent drivers which have been properly searched and checked, maintaining, and in a safe condition.
2. In the event any assigned equipment is found to be in poor condition or is not available for use, the deficiency will be reported to the officer's supervisor and the deficiency corrected prior to assignment, or equipment is replaced. It is the officer's responsibility to properly search and fuel the vehicle prior to use. The operator will also replace any expended supplies and check the oil level of the vehicle prior to use. If the vehicle is not operating properly, the operator will be responsible for having the vehicle turned in for maintenance. Vehicles used for primarily for transporting prisoners (80 percent of their use) must have the driver separated from the prisoner by a safety barrier.

B. Safety

In order to maximize deputy safety, every deputy shall:

1. Prior to transport, transporting personnel shall search suspects, prisoners and arrestees.

2. Transporting personnel shall search transport vehicles prior to and after transporting suspects, prisoners, and arrestees. Searches shall be conducted prior to and after each transport.
3. Care shall be given to searching under seats, behind seats, or any place weapons, evidence, or property may be dropped or hidden.
4. Personnel assigned vehicles which could be used for suspect, prisoner or arrestee transportation shall be searched at the beginning and at the end of each shift.

C. Transporting and Seating Arrangements

1. For safety reasons, people being transported must be under observation at all times. Opportunities for escape or attack on the transporting deputy must be reduced as much as possible. The suspects, prisoners or arrestees should be made as comfortable as possible, given the length of the trip being made, and yet secured to the maximum degree.
2. Transporting officers shall be seated in a specific location within the vehicle depending upon the number of prisoners to be transported and the number of escort officers used. If only one prisoner is being transported in the rear seat he/she will not be placed directly behind the driver and the hands will be secured behind the back, providing that his/her physical condition will allow it. If two (2) officers are riding in the front seat it shall be the responsibility of the passenger deputy to maintain surveillance of the prisoner.
3. When handling a combative or dangerous prisoner, two (2) officers will transport, with one (1) deputy in the rear, positioned opposite the prisoner, so that his weapon is always away from the reach of the subject being transported. The interior of the transport vehicle will be lighted to facilitate viewing of the prisoner unless safety concerns dictate otherwise. The transporting officers shall not lose sight of the prisoner at any time.
4. Adults and juveniles will not be transported together. Female and male prisoners, suspects and arrestees shall be transported separately. If a female and male are arrested at the same time, for the same incident, they should not be transported to booking or questioning together.
5. When walking a suspect, prisoner or arrestee from one location to another, the deputy will walk so the officer's weapon is away from the prisoner. The deputy will be close enough to the prisoner to maintain control and prevent attack or escape.

6. The transporting deputy will notify communications at the beginning of every and all vehicle transports of citizens, prisoners, suspects, arrestees or others as to the number, gender and destination. If the transport deputy feels the transport is a security risk, this information may be relayed by phone.
7. This does not include administrative rides to business meetings when transporting others such as county employees. The deputy will take the safest, most direct route to the final destination. (Alternative routing is advisable for security risk transports). The deputy will be especially watchful of the passengers at all stops that traffic signal or conditions require. No side trips or unauthorized stops will be permitted.
8. No person other than a deputy and prisoner will be permitted in a vehicle without prior approval of a supervisor. This does not exclude any person from assisting during an emergency.
9. Any extra weapons or tools that could be used as a weapon by a passenger will be properly secured in the trunk or as far from the passenger as possible.
10. All doors of the transport vehicle will be locked at all times when the vehicle is in transit. The prisoner will be seated in the rear of the vehicle on the passenger side of the vehicle.
11. The second transporting deputy will be seated either behind the driver or in the passenger side front seat to face the prisoner as circumstances demand. The second transporting deputy shall closely observe the prisoner at all times.
12. When more than one prisoner is transported, the prisoners will be restrained together such as waist to waist chains or “right hand to left hand” transportation.

D. Meals

1. During transport of someone in custody, if a meal will be required, the selection of the place where the meal is to be taken is done randomly.
2. Due to the length or timing of the transport, if a meal will be required, the jail shall supply a “bag lunch” for each inmate transported.

E. In-custody Communications

1. Suspects, prisoners and arrestees are not to speak to anyone during transport. Attorney consultations and meetings are to be conducted at a prearranged site, before or after a transport, not during one.
2. All other communications such as family shall be conducted through detention facility procedures.
3. Due to security and safety considerations, prior to transports, no in-custody passenger will be allowed to use the phone or have another communicate for them. This includes transports for medical reasons, dentist, or other short or long term transports.
4. Inmates, suspects and arrestees found to be in communication with another just prior to any transport, shall have his/her transport delayed by at least four (4) hours; and route of transport changed.
5. This responsibility falls with detention personnel as well as transporting officers.

F. Prisoner Escape

It is the responsibility of each deputy who takes custody of any prisoner to take all prudent and reasonable action to prevent the escape of anyone in custody.

1. In the event of an escape, officers should consider these factors before taking action:
 - a. The presence of a crowd (the chase of an escapee through a hostile crowd may present a great potential for violence by agitating the crowd than allowing the prisoner to continue to flight).
 - b. The identity of the escapee (if the escapee has been satisfactorily identified and his home address is known, for example, it may be more prudent to await assistance and capture the escapee at a later time than to pursue the escapee into a hazardous situation without backup).
 - c. The seriousness of the charges pending on the escapee.
 - d. Past history of the escapee.
 - e. The safety of the prisoner, public, and to the law enforcement personnel.
2. Following an escape of a prisoner, unless extraordinary conditions exist, the following procedure will be followed.
 - a. Immediately advise communications an escape has occurred.
 - b. Give location of escape, mode and direction of travel.

- c. Give complete description of escapee and whether or not he was wearing restraints.
 - d. Time lapse since escape to report.
 - e. Probably destination (if known).
 - f. The crime the escapee was last charged.
 - g. A request for needed equipment, manpower, and the location at which the items would be most effective.
- 3. The deputy shall try to immediately apprehend the escapee, unless there are other prisoners being transported. If the deputy is unable to apprehend an escapee, they shall direct other deputies to establish an outer perimeter to contain the escapee.
- 4. Communications shall notify:
 - a. All available units.
 - b. The on-duty supervisor.
 - c. Other appropriate agencies, depending upon the location of the escape, and
 - d. The Sheriff.
- 5. A canine team shall be utilized in any instance where the escapee eludes capture by running.
- 6. If agency communication is out of radio range, the transporting deputy shall immediately call the local law enforcement agency and request assistance; the transporting deputy shall then immediately contact this agency's communications who will contact appropriate personnel in the agency; communications shall also advise the transporting deputy of further instructions.
- 7. The transporting deputy shall prepare and complete an incident report, with a detailed narrative; attach the custody or transport order or any pertinent documentation to the incident report and submit to the Chief Deputy as soon as possible.
- 8. If the escapee is not apprehended in a reasonable amount of time, warrants should be obtained for escape and entered into NCIC as well as a regional broadcast giving all pertinent information.
The Chief Deputy will review all escape attempts.
- 9. If an escape occurs outside Alamance County, the actions of the transporting deputy will be governed by the procedures and pertinent laws in that jurisdiction.

G. Destination Process

1. Upon arrival at the final destination, the transporting deputy shall:
 - a. Notify communication of arrival;
 - b. Turn off the transport vehicle;
 - c. Remove the prisoner and lock the transport;
 - d. If the destination normally requires prisoners be placed in a holding cell, this will be completed.
2. Actions at the destination of officers transporting prisoners from one facility to another will include at a minimum:
 - a. Securing firearms for safekeeping in accordance with the receiving facility's policy; (prior to entering areas where prisoners are present, the transporting deputy will secure his/her weapon or surrender his/her weapon under the procedure used at the destination).
 - b. Restraining devices shall be removed just prior to placing the prisoner in the cell.
 - c. Deliver documentation to the receiving officer.
 - d. Obtain signature of receiving officer (if applicable).
 - e. Advise receiving agency of potential medical or security hazards.

H. Medical Care Facilities

1. Prisoners transported to medical facilities will be transported in accordance with procedure applicable to the prisoner's physical injury, illness, and mental or physical impairment as described in this section.
2. Unless otherwise directed by the health care provider, the prisoner will be appropriately restrained and in the view of the transporting deputy at all times. If it is deemed necessary to admit a prisoner to a care facility, the Major or Captain(s) of the Detention Center must be notified prior to any such action being taken.
 - a. The Detention Supervisor may want to consider getting an inmate's bond unsecured through the court system rather than arraignments for a lengthy stay at the hospital. This can be done prior to transport or at any time by the jail supervisor.
 - b. In the case of a call to a misdemeanor incident, the deputy may consider the following actions depending on the seriousness of the situation in which the suspect was involved,

the availability of manpower, the situation surrounding the injuries to the suspect, the seriousness of the injuries and the anticipated length of stay in the detention facility:

- i. The deputy may release the suspect at the scene on a citation to appear in court. (If transportation is assigned to the Transportation Division, the deputy must contact his/her supervisor to recommend a citation and not to elect to do this without prior approval).
 - ii. After transporting to a health facility, the deputy may be advised to wait for further information (the length of wait not to exceed sufficient time for the deputy to return to his/her work place and/or relieved before the end of the shift).
 - iii. The deputy may be informed to remain with the prisoner if the need is great.
 - iv. It will be the responsibility of the supervisor to allow for relief of the transportation deputy (if possible) before the end of the shift, to notify the supervisor of the following shift of the situation. The transporting deputy will notify his/her supervisor when a relief deputy has not arrived in sufficient time.
A report will be completed detailing the reasons why the arrestee was transported to the medical facility and the circumstances surrounding any illness or injury. The report will also contain all officers involved with the arrestee, the name and location of the medical facility used, and all other pertinent information surrounding the incident.
- c. If a prisoner is charged with a felony is admitted to a health care facility, the supervisor may authorize, depending on the situation:
- i. Release of the prisoner at the health care facility without prosecution at this time; this only with the permission of the Sheriff or one of the Major(s).
 - ii. Assign a deputy to remain with the prisoner for an expected short term or extremely serious situations.
 - iii. Processing of the prisoner at the detention or jail facility with proper health facilities.

I. Seatbelts

1. All personnel in County vehicles shall wear seatbelts in accordance with state law and county policy.
2. Officers will not transport more prisoners than a vehicle is designed and equipped to transport.

J. Passenger Capacity/Deputy Ratio

Deputies shall transport no more citizens, suspects, prisoners or arrestees than safety allows considering number of officers, size of vehicle and attitude or risk factors of the person(s) being transported.

1. Under normal circumstances:
 - a. One (1) deputy shall not transport more than three (3) non-violent prisoners, suspects or arrestees. (Patrol Vehicle)
 - b. Two (2) officers shall not transport more than thirteen (13) suspects or arrestees in a transport vehicle.
 - c. For over thirteen (13) prisoners, the ratio shall not be less than one deputy (1) to seven (7) prisoners.
2. Those classified as dangerous, violent, or high risk shall be on a ratio of not less than one (1) deputy to one (1) passenger, or two (2) officers to one (1) passenger, depending on the risk. The transport deputy shall determine the risk factor, and shall be supplied with information from the detention facility and/or law enforcement personnel on all risk factors.
3. This section includes those transports, short and long term, where officers may be picking up and dropping off prisoners or others at one or several locations.
4. Transports occurring after dusk and before dawn should be considered high risk. See supervisor for advice before taking action that would halt the transport.

K. Stopping During Transports

During transportation citizens, arrestees, suspects or prisoners, shall not stop or interrupt their transports.

1. Should an emergency occur while in transport, the deputy shall contact his/her supervisor. No provision of this order will prevent an deputy from taking appropriate action in a life threatening emergency occurring during transport. It is emphasized that due care shall be taken to safeguard the well being of anyone being transported as well as to prevent escape of those in custody before leaving the transport vehicleunattended. The precautions to be considered are but not limited to:

- a. Summon assistance immediately
 - b. Park the transport vehicle in a safe location, preferably off the roadway; remove the keys from the transport vehicle once it is safely parked out of traffic;
 - c. Illuminate the interior of the transport vehicle to facilitate viewing of the prisoner(s);
 - d. Lock the transport vehicle;
 - e. Use appropriate emergency lighting to avoid exposing the transport vehicle to traffic hazards and to facilitate location by other emergency vehicles;
 - f. Return to the transport vehicle as soon as assistance arrives and resume the transport as soon as possible;
 - g. If the deputy will be away from the transport vehicle for more than two (2) minutes, and the outside temperature is more than 60 degrees F, the deputy must return to the vehicle every two (2) minutes to ventilate the vehicle with fresh air, or as often as necessary to keep the inside vehicle temperature under 85 degrees F.
2. If an incident occurs that is not life threatening that a transport deputy sees while he is transporting a suspect, prisoners, or arrestee or if the deputy receives a request for assistance, he/she shall notify radio communications of the situation or incident to request another deputy respond and the transporting deputy shall precede with his/her transport.
 3. If an deputy is transporting a citizen, and the deputy sees an incident occur or receives a request for assistance, if feasible, the deputy may terminate the transport by leaving the citizen in a safe location. If leaving the citizen is not feasible, the deputy shall proceed with the transport and notify communications to dispatch another deputy to the incident.
 4. If an deputy leaves a citizen in other than the original destination, the deputy shall as soon as possible go back to the location where the citizen was left, and finish the transport. If this is not possible, the deputy shall notify communications to dispatch another deputy to check on the citizen and/or finish the transport.

L. Conveying To the Detention Center

1. Officers arrests shall convey the prisoner or cause him to be conveyed directly from the place of arrest to the Magistrate's Office without delay and shall at no time accompany the arrestee to his/her

abode, or elsewhere except with the consent of a superior deputy.

2. Prior to being transported to the Magistrate's Office, suspects, prisoners or arrestees may be transported to a facility for questioning as per the directions of a detective or supervising deputy, or to identification, medical assistance, blood alcohol testing or other official "process" location.

M. Security Risks

1. When a suspect, prisoner, or arrestee is considered a security risk, the transporting deputy shall notify his supervisor who will make arrangements for additional officers and/or vehicles to accompany the transport.
2. When a suspect, prisoner, or arrestee is going to court, any personnel knowing or believing the suspect, prisoner, or arrestee a security risk shall notify the court security supervisor. The court security supervisor shall notify the presiding judge prior to court opening, so the judge will have the opportunity to allow or direct the use of restraining devices or add officers for security measures.
3. The detention services court security supervisor shall check prisoner records prior to sending prisoners to court. The detention court security supervisor shall notify the law enforcement court security supervisor of the security risk prisoners being brought to court, on a daily basis prior to court.

MI. In-Custody Passenger's Property

Once a prisoner has had property taken from him for booking purposes, the prisoner shall not receive his property back at any time until his release from incarceration.

1. When a prisoner is transported from one facility to another, the detention staff as per their policy shall have each prisoner check his own property to ensure the inventory is correct. Then, the detention staff shall turn the property in the bags directly over to the transport deputy, who will turn it over to the destination facility. At no time shall prisoners have access to or possession of their property.
2. For all in-custody transports, including mental patients, passengers shall be properly searched, and not allowed access to any property. All property shall be placed in either the trunk of the car or if in a van, in the front area on the opposite side of the safety cage.

3. Detention Officers shall not take custody of inmates from any arresting deputy until that deputy has properly searched the prisoner and completed the Alamance County Sheriff's Office "Prisoner Property and Custody Control Report" form.
4. For any property kept by this agency from an individual in custody as personal property, evidence, or for any other valid reason, the person the property is kept from shall receive a receipt for that property.

O. Assistance to Transport Duty

As with other duties and functions of this agency, all components of the agency are expected to assist with transportation duties when necessary. Patrol, Civil, Investigations, and/or detention personnel may assist the Transportation Division or handle their own transport assignments when transportation officers are busy with other transport duties which may cause the waiting party to wait more than what is reasonable, usually two hours; or any delay involving transport of an ill or injured person needing immediate medical attention; or where the Transportation Division request assistance due to shortage of transport officers, the transport is dangerous, or due to multiple number of passengers.

P. Special Transport Situations

1. Transporting Opposite Gender
 - a. The agency does not encourage opposite sex transports, but recognizes there are exceptions. If female officers are available to transport, they will be utilized.
 - b. Personnel transporting citizens or arrestees of the opposite sex shall notify the communicator of the time the person is placed into the vehicle, the odometer reading, destination and estimated time of arrival to destination. The information shall be recorded on an OCA card.
 - c. Upon arrival at the destination, the deputy shall immediately notify communications of the time and odometer reading.
2. Transporting Handicapped or Mentally Ill
 - a. When handling handicapped or physically impaired individuals who are in custody, extra care shall be exercised by the transporting deputy. Therefore, exceptions to standard policy may be made.
 - b. Physically impaired prisoners are those prisoners who have obvious physical disabilities or impairments. It is the duty of

the transporting deputy to treat these individuals with appropriate restraint of action while providing for security and safe transport.

- c. The transporting deputy will determine if a physically impaired prisoner who uses supporting devices (crutches, canes, walkers, etc.) is of such a disposition so as to use the device as a weapon. Normally, the physically impaired prisoner will not be restrained and will be allowed to use supporting devices to move to and from the transporting vehicle. During transport, supporting devices will normally be removed from the prisoner security area. Although the safety of the deputy and the transportee is the primary consideration, the dignity of the transportee is a valid concern, as well.
- d. In the event a physically impaired person is transported, a car rather than a van should be used, because it is easier to get in and out of than a van. Patrol may be used for assistance.
- e. If a physically impaired prisoner is violent, supporting devices will be removed from his access. If the prisoner is not ambulatory without the devices, that individual will be assisted to and from the transport vehicle by the transporting deputy who will take care to ensure that the prisoner will not escape. It may become necessary to restrain a violent, non- ambulatory prisoner and transport that individual to an ambulance and then to a holding facility. In such a case, the deputy should follow the policy for ambulance transports of mentally impaired prisoners.
- f. Prior to taking custody of mentally impaired individuals, the transporting deputy must make certain he is informed in detail of the following:
 - i. the type of mental disorder and exact type of abnormal behavior displayed by the individual;
 - ii. detailed knowledge of any words, statements or actions that might trigger any abnormal behavior;
 - iii. the disposition toward violence that may suddenly be displayed toward the deputy or toward the individual himself;
 - iv. the name, relationship, and location of any person perceived as a threat by the individual; and why that other person is perceived as a threat;

- v. the name and location of previously visited mental health care facilities;
 - vi. the type, location, and last time known to have taken any medications (take a sample or the prescription bottle if available).
 - vii. the relative ability of the individual to communicate coherently and follow instructions;
 - viii. any real or imagined physical injuries;
 - ix. the circumstances causing the individual to be taken into law enforcement custody;
 - x. anything that might have in the past soothed the individual;
 - xi. the name of any deputy who may have had contact with the individual in the past and any information that may have been gained from that encounter
- g. Information of the type outlined can govern the transporting deputy in the treatment of mentally impaired individuals and preclude the changes for violence. Proper documentation must be present and examined in detail for compliance with existing law prior to any transport. In the absence of proper documentation, the transporting deputy must make absolutely certain the situation complies with the requirements of the Health and Human Services of North Carolina.
- h. The transporting deputy must take care of the time to make certain the method of restraint chosen is appropriate for any potential conditions presented by the individual. Many forms of mental impairment can cause behavior varying widely and instantaneously. The transporting deputy must know the extent to which the abnormal behavior may become violent, produce loss of muscle control, cause a desire for the individual to injure himself/herself or cause convulsive restraint to minimize the chance for injury to the individual, employees and the public.
- i. When deciding what type of restraint is appropriate, the deputy should consider what type of transport vehicle would be most appropriate. In most cases, the transport vehicle will be a marked patrol car, a prisoner van, or an ambulance.
- j. In-custody mentally ill passengers may be restrained if they are violent or pose a threat to themselves or others.
- k. If a mentally impaired individual requires medical attention, appears frozen, staring or gazing into space, or needs to be

totally immobilized for any reason, the individual should be restrained to a stretcher and transported by ambulance.

- l. The individual should be restrained in such a manner that breathing is not impaired and only to the minimum extent preventing the danger of injury to himself or others. When a mentally impaired individual is transported in this manner, a deputy should ride in the ambulance with the individual and a deputy follow the ambulance in a marked vehicle.
- m. All transports of mentally impaired individuals will be made in compliance with the communication notification rules for the transport of female and juvenile prisoners.
- n. Upon arrival at a mental health facility, the transporting deputy will not enter any secure area in possession of a firearm and should use standard procedures for delivering a prisoner to a holding facility.

3. **Mental Commitments**

- a. If the patient is a resident of a municipality, that police department shall make the initial pickup with the custody order and transport the patient for an evaluation, as per the North Carolina General Statutes.
 - i. If the evaluation determines the patient is not committable, the police will return the patient to place of pickup, or other legal or designated location.
 - ii. If the patient must be transported to another facility, the Transportation Division shall handle the transport.
- b. If the patient is an Alamance County resident, patrol will make the initial pickup with the custody order and transport the patient to Mental Health or Alamance Regional Medical Center for evaluation. Patrol will handle this as a call for service.
 - i. If Mental Health or Alamance Regional Medical Center determines the patient is not committable; the patrol deputy shall transport the patient back to the place of pickup; or other local or designated location.

- ii. If the patient must be transported to another facility, the Transportation Division shall handle the transport.
- c. When transporting patients, the transporting deputy shall notify communications of the following:
 - i. all arrivals at destinations;
 - ii. all departures;
 - iii. gender of patient;
 - iv. if the patient is violent or not.
- ci. If the patient is violent, upon notification by the deputy, communications shall call the facility of destination and notify them this agency has a transport en-route who is violent, and request appropriate personnel and restraints be on hand upon arrival.
- cii. Officers who transport mental patients must stay with the patient at the facility while the patient is being processed. Occasionally, a facility may release a deputy from waiting for the patient to be processed. If this occurs, this agency is responsible to pick up the patient and transport the patient back to his/her home if the patient is not accepted by the facility.
- ciii. If a facility calls this agency to pick up a patient for release after treatment, a deputy from the Transportation Division should receive the assignment.

4. **Transports to Special Events**

- a. Transports to special events are only undertaken with a court order.
- b. When a prisoner needs to attend a special event such as; visiting critically ill persons; attending funerals; or attending the reading of a will; the transport will be handled in such a manner to provide sufficient and an appropriate amount of security to the prisoner, and others while the prisoner is present, balanced by drawing as little attention to the prisoner

and security as possible.

- c. If possible, the transport deputy should be in plain clothes and in an unmarked vehicle. **No less than two (2) officers shall accompany the prisoner under these circumstances.**
- d. The transport shall be directly from the detention facility to the special event and back to the facility.
- e. Restraining devices shall be as inconspicuous as possible, keeping the prisoner as secure as possible.

5. **Ambulances**

If a mentally impaired individual requires medical attention, is catatonic, or needs to be totally immobilized for any reason, the individual should be restrained on a stretcher and transported in an ambulance.

II. **RESTRAINING DEVICES**

- A. The purpose of restraint devices in prisoner transport situations is to reduce the chance of attack by the prisoner and to reduce the chance for escape. Restraint devices shall not be used as weapons and shall not be applied in such a manner as to cause unnecessary injury to any prisoner. Only those restraint devices approved by this agency will be used by any deputy.
- B. The restraint devices approved for use are issued by this agency:
 - 1. handcuffs;
 - 2. leg shackles;
 - 3. prisoner restraint belts/waist chains
 - 4. flex-cuffs
 - 5. locking leg weights.
- C. Normally, restraining devices issued by this agency have the capacity of being double locked. This feature prevents the restraint from pinching or becoming tighter. To prevent unnecessary injury, restraint devices so equipped shall be double locked.
- D. Any restraint device in the possession of any deputy not issued by the agency will be submitted for inspection to the squad supervisor and approved prior to

use.

- E. All prisoners are to be restrained during transport, with exceptions noted for physically or mentally ill persons, as described in this policy. After applying restraints, but before the transport begins, the transport deputy should check the restraints to ensure they are not too tight. Any complaint of pain should be taken seriously. However, restraints shall not be removed after a transport begins unless there is a second deputy present to assist, and then only in extreme cases.
- F. Devices such as rope, cord, plastic tubing, tape or other items not normally issued for use as approved restraints shall not be carried or used for restraint purposes.
- G. Passengers shall not be restrained to automobiles during transports; or at any time in such a manner or condition that the passenger's safety is placed at unnecessary risk.
- H. No passenger shall be restrained in such a manner as to restrict breathing or cause choking, for any reason, for any length of time.
- I. When transporting, the person in custody shall be restrained with issued handcuffs in such a manner that the individual is able to sit up in the rear of the vehicle. Should leg restraints be required, only leg shackles, flex-cuffs or other approved leg restrains will be used.
(Handcuffs with waist chains require cuffing in front.)
- J. **NOTE:** Removing any flex-cuff type product presents a hazard of cutting the wearer; therefore, flex-cuff restraints will be removed only with approved cutting tools, such as bolt cutter, heavy metal cutters or scissors not having an extremely sharp point. Due to the potential of losing control of the cutting device and injuring the wearer, a knife may not be used to remove flex-cuff products. Detention services shall be responsible for maintaining and having this equipment available.
- K. Except in extreme circumstances no individual will be restrained so that his/her legs and hands will be pulled up behind his back or in such a manner that it will be necessary for the individual to be transported in the prone position. Supervisory approval will be necessary before such transport will be allowed.
- L. Should further restraint be necessary in the patrol vehicle, an additional deputy shall be placed in the front seat and should not take his eyes off of the prisoner until the transport has been completed.

III. VEHICLES USED FOR TRANSPORT

- A. Only marked vehicles shall be used for routine transports, equipped with a security screen or other barrier designed to separate the deputy from the passenger, which has had the door handles and window cranks removed or made inoperative.
- B. Vehicles used primarily for transporting prisoners shall be modified to minimize opportunities for the prisoner to exit from a rear compartment of the vehicle without the aid of the transporting deputy.
- C. Prisoners may be transported in vehicles not equipped with protective barriers. These transports will be in accordance with standard procedures with the following exceptions and additions:
 - 1. only when such transportation is made necessary by investigative or mental health need; otherwise, a patrol vehicle equipped with a protective barrier will be requested;
 - 2. the prisoner will be restrained either by handcuffs or by use of an approved prisoner restraint belt with wrist restraints;
 - 3. if the prisoner is an escape risk, the prisoner will additionally be restrained by the use of leg shackles;
 - 4. no more than one prisoner will be transported in a non-screened vehicle at any time.
- D. In addition to normal patrol vehicle equipment, all vehicles assigned to the transportation division or assigned normally for custody transport shall be equipped with the following:
 - 1. one complete set of restraints, handcuffs, ankle cuffs, and waist chains.

IV. DOCUMENTATION

- A. Transport orders could be one of the following:
 - 1. *Judicial Commitment* – used to transfer a prisoner from one jail type facility to another, must be signed by a judge of district or superior court;

2. *Writ of Habeas Corpus* – used to obtain jurisdiction over a prisoner in another facility so he/she can be brought back to this jurisdiction for process, must be signed by a judge
 3. *Safe Keeping Orders* – used to transfer prisoners to other facilities for medical reasons (if the prisoner is HIV or TB positive, unstable mental condition, infectious diseases), or security reasons such as escape or suicide risk; must signed by a judge in district or superior court;
 4. *Medical Referral* – used to transport prisoner to medical facilities or doctor's office for medical appointments, dental appointment, attending to injuries, must be signed by a Sheriff's Office Detention Physicians;
 5. *Petition for Involuntary Commitment and Custody Order* – used for picking up persons suspected of mental illness who are in danger to themselves and/or others, signed by a magistrate.
- B. Information relating to the prisoner's escape or suicide potential or other personal traits of a security nature shall be included in the documentation accompanying the prisoner during transport. The detention staff will ensure this type information is written on the transport order.
- C. The transporting deputy is to ensure:
1. all names are correct on the papers;
 2. all papers are properly filled out and signed; and
 3. each prisoner has a transport order.

V. EXTRADITIONS AND LONG TERM PRISONER TRANSPORTATION

- A. In the event it becomes necessary for this agency to transport prisoners over long distances, standard transportation procedures will be as follows:
1. Long term transports with one prisoner require no less than two officers.
 2. For long term transportation, the prisoner will be restrained by prisoner restraint belt, waist restraints and leg shackles.
 3. If meals and rest stops are to be permitted en-route, these stops will be of a minimum duration and at irregular intervals and places.
 4. If meals are permitted, precautions similar to those described for rest room stops will be followed.
 5. During any stops, the prisoner will be accompanied at all times by at least one deputy.
 6. No longer term transports will be conducted without at least two officers as transporting officers; (or a second vehicle to follow)

7. If the prisoner is allowed to use the rest room during any stop, a deputy will examine the facility for security and potential escape routes prior to the entry of the prisoner.
 8. If necessary, one hand will be released from the restraint while the other hand remains restrained.
 9. The leg shackles will also remain in place.
 10. At least one deputy of the same sex as the prisoner shall remain with the prisoner and keep the prisoner **in view at all times**.
 11. The second deputy will provide security against escape from a location which will be determined by the condition.
 12. If aircraft transportation becomes necessary, federal regulations will be followed.
 13. The prisoner will be further restrained by being handcuffed to one of the transporting officers prior to arriving at the airport, through security, and after leaving the destination airport.
 14. The prisoner will not be seated next to an emergency exit of the aircraft.
 15. The deputy should make arrangements to be seated with the prisoner prior to general boarding of other passengers, and select a seating location as remote as possible from other passengers.
 16. Officers are reminded that long term transportations are extremely dangerous and present great opportunity for escape since these situations usually involve the most wanted and dangerous prisoners. All precautions should be taken and the deputy must remain alert at all times.
- B. Officers making long term transports not to include overnight trips shall be given enough money in cash for a meal for him/her and passengers or for other emergencies that may arise.
 - C. Officers transporting overnight shall be given an appropriate amount of money to accommodate their needs prior to the transport.
 - D. Detention officers are to ensure prisoners scheduled for a long term transport shall be fed a full meal within an hour of leaving prior to the transport.

VI. IDENTIFICATION

- A. When a prisoner is transported from one facility to another, it is imperative the transport deputies have positive identification on the prisoner. The transport deputy is to visually check each prisoner's ID card picture with the prisoner's face, and the name on the ID card to the accompanying transport

documentation.

- B. Prior to transporting any prisoner, mental patient or citizen, the transporting deputy shall ascertain positive identification of the person being transported. The deputy shall ensure all necessary documents and commitment papers accompany the prisoner or mental patient.
- C. If positive identification is questionable, on-duty detention supervisor shall assist the transport deputy in identifying the prisoner through jail records or other resources.

VII. GUIDELINES FOR PRISONER SEARCHES

- A. The purpose of prisoner search is to provide for the detention of weapons, contraband, evidence, and items which might be used to aid an escape or used to endanger anyone. Each deputy taking custody of a passenger is required to complete a search which is as thorough as circumstances permit.
- B. It is required that all items in the possession of in-custody passenger be thoroughly examined. Any item described in this paragraph, shall be removed from the passenger and disposition of the property will be made in accordance with applicable agency or detention facility policy. Any handbag, luggage, pack, duffle bag or other container in the possession of an in-custody passenger will be removed, thoroughly searched and retained by the deputy during transport.
- C. It is the policy of this agency that all searches and restraining will be accomplished as humanely as possible with the safety of the person in custody, the public and the deputy under consideration at all times. Any use of force beyond the absolute minimum required in searching and restraining is strictly prohibited.
- D. **In Custody Searches**
 - 1. When a person comes into custody of a deputy, that person will be as thoroughly searched as conditions permit. As in all situations, certain factors must be considered by the deputy taking the person into custody when deciding the extent to which a search will be conducted. These factors include but are not limited to:
 - a. the gender and age of the person in custody.
 - b. the gender of the deputy making the search.
 - c. the crime with which the person is charged or the reason for custody.
 - d. the disposition toward violence displayed by the person in custody.

- e. the urgency of the situation or the presence of a crowd or other safety factors.
 - f. the conditions present in the area in which the person is being taken into custody, and.
 - g. the physical condition of the person in custody.
2. Factors that will not be considered are:
- a. the statement of another deputy that the person in custody has already been searched.
 - b. the fact that the person in custody has been in custody of another law enforcement officer or has been incarcerated in a holding facility, and
 - c. the fact that the deputy taking the person into custody has watched the person being searched by another.

E. Types of Searches

Since people are taken into custody under varied conditions, the type of search selected by the deputy must be appropriate for the existing situation.

- 1. *Wall Searches:* In a wall search, the person is placed in a position in which the body is extended at an angle between a vertical object such as a wall or tree, with his feet on the ground, with the hands placed palms open on the vertical object.
- 2. *Kneeling Search:* In the kneeling search, the person is to kneel with arms extended to the sides with palms open and the legs crossed over ankles. Once it appears that no weapons are in the prisoner's hands, the prisoner will place the hands behind the back and cross them at the wrist. The kneeling search is generally used when a suitable object is not available for a wall search.
- 3. *Prone Search:* A prone search should be used when the situation calls for maximum security while searching. The person should lay face down with his head turned away from the deputy. The person should spread his/her legs as far apart as possible. The person should place his/her hands behind his/her back, crossed at the wrist with the palms open and facing up.
- 4. *Multi-Suspect Searched:* There are two types of multi-searches; those with a guard deputy and those without. Anytime there are more persons to be searched than officers, a multi-suspect search is recommended. The multi-suspect search without a guard deputy is not actually a search. When there is a situation in which the number of subjects is far greater than the number of officers before searching, the subjects may either be laid side by side as in a prone search or

placed in a cross body stack. A cross body stack is **not** recommended unless the situation is volatile or attempted escape is probable.

The multi-suspect search with a guard deputy is used when the number of deputies present creates sufficient safety for a search of the subjects to be performed. In this type search, a guard deputy will be stationed at a location at least ten feet away from the closest suspect. The searching officers should approach from the subject's side away from the guard deputy. Care will be taken at all times by the search officers not to move between the suspect and the guard deputy. The subjects will be laid side by side at a safe distance apart during these searches.

5. *Cursory Searches "Pat downs"*: Pursuant to interviews or as circumstances warrant, officers may conduct pat down searches of suspects. This is only done for deputy safety.

This is done by the deputy patting the outside of the suspect's clothing.

This also includes a "lunge area" around the suspect, as described by current law.

F. **General Search Procedure**

1. The person should normally be turned with his/her back to the deputy.
2. The deputy should remain a safe distance from the person while the prisoner assumes the proper position.
3. The deputy should remember to be in a position to prevent escape at all times.
4. The officer should closely observe the subject before approaching to see that the hands are open and clear and to look for any unusual bulges in the subject's clothing that might be a weapon or contraband.
5. If the subject is holding anything, the subject should be instructed to place or drop the item while facing away from the deputy and to step back from the item. *After the subject assumes the proper position, the deputy should approach cautiously from the rear if possible.
6. The deputy should place appropriate restraint devices on the subject before the search commences to ensure the safety of the subject, the deputy and the public.
7. While searching the subject, the deputy should gain a hold to control the person's movement.
8. The deputy should attempt, at all times, to keep his head and body behind the body of the subject to lessen the chance of attack.
9. The subject will have appropriate restraint devices applied prior to being placed in the transport vehicle unless specified otherwise in this

section.

VIII. STRIP SEARCHES

Deputies of the Alamance County Sheriff's Office shall perform all searches in a professional and courteous manner, without compromising their own safety or the safety of others, and without harassment or undue embarrassment to the public.

Searches can be perceived by some as unnecessary or discriminatory law enforcement harassment even when conducted with respect and in strict compliance with reasonable policies and procedures, and the law. In order to maintain the effectiveness and legitimacy of this practice and to protect the safety of deputies who must approach and deal with suspicious individuals, deputies must conduct searches in conformance with the procedures set forth in this policy.

This policy is applicable to deputies in the field environment. Refer to the Alamance County Detention Center policies regarding the search of inmates and pretrial detainees in the detention facility environment.

A. Definitions

- a. **Strip Search** - A visual inspection of an individual's private areas, regardless of whether the individual is unclothed, partially clothed or fully clothed, for weapons, contraband, wounds, abuse, suicide attempts, or concealed evidence.
- b. **Body Cavity Search** - A strip search that involves probing the mouth, anus, and genitals of the individual for weapons, contraband, or concealed evidence.

B. Procedures

1. Strip Searches:

- a. In the field environment, strip searches of detainees are only conducted when officers have consent from the person to be searched or a search warrant. However, if deputies have, in the rarest of occasions, *probable cause* that the detainee may be in possession of criminal evidence or contraband that would be an immediate danger to the detainee or the deputy, then a strip search could be conducted under exigent circumstances.
- b. Strip searches of detainees shall only be conducted with the explicit approval of a supervisor.
- c. Strip searches of detainees shall be conducted with the least number of personnel necessary to maintain safety and privacy.
- d. The deputy actually conducting the strip search shall be of the same sex as the suspect, unless exigent circumstances exist.
- e. Strip searches should never be conducted at roadside where embarrassment to the individual may occur or the individual is exposed to the public eye.

- f. Before strip-searching a detainee, the deputy must document the consent of the person to be searched. Following the search, the deputy must document the basis for the strip search in the incident report.
- g. In the rare event that a strip search is conducted in the field without consent or a search warrant, the deputy must articulate in detail in the incident report the probable cause for the search and the imminent cause of the danger to the detainee or deputy that created the exigent circumstance.

2. Body Cavity Searches:

- a. Search of an individual's blood stream, body cavities, and subcutaneous tissues are only to be conducted by a physician, licensed nurse, or medical staff specifically trained for this task. Any such search, conducted incident to arrest, must be made with consent or a search warrant.
- b. Procedures for Performing a Body Cavity Search:
Should a deputy believe that a suspect is concealing a weapon, evidence, or contraband within a body cavity; the following procedures are normally followed:
 - i. Deputy consults with his immediate supervisor to determine whether *probable cause* exists to seek a search warrant for a body cavity search. The decision to seek a search warrant is reasonable only *where the suspected offense is of a serious nature and/or poses a threat to the safety of the deputy or others, and/or the security of the agency's detention operations may be compromised*. If *probable cause* exists for a body cavity search, an affidavit for search warrant will be prepared that clearly defines the nature of the alleged offense and the basis for probable cause.
 - ii. A body cavity search can only be performed by an authorized physician, licensed nurse, or medical personnel specifically trained to perform these tasks.
 - iii. For safety and security reasons, the search is conducted in a room designated for this purpose at the detention facility, or at a medical clinic or hospital.
 - iv. Body cavity searches are performed with due recognition of privacy and hygienic concerns. Officers present for security and safety purposes are to be female officers observing female examinations, and male officers observing male suspect examinations.
 - v. The authorized individual conducting the search must complete a report, and witnesses must co sign the document.

IX. TREATMENT OF SUSPECTS, PRISONERS, ARRESTEES

- A. Suspects, prisoners and arrestees, and mentally ill citizens shall be treated in a fair humane manner. Personnel shall not strike or use any other form of physical force on another except when reasonably necessary to prevent an escape, or in self-defense, or in the prevention of violence to a third party.
- B. Personnel may use force to prevent the malicious destruction of county property, prevent the commission of a crime; prevent inmates from making incendiary devices; prevent inmates from hurting themselves such as cutting wrists or hangings; to enforce court orders; or produce inmates for the court.
- C. Safeguarding Persons: Personnel shall be cautious in the arrest and/or detention of suspects, prisoners, and arrestees and others. Officers shall take all necessary precautions for the safety and protection of such persons in order to prevent an escape, or the carrying of weapons on the person after arrest/detention, or injury to themselves or any other persons, or damage to property.
- D. Safeguarding Property: Members shall take reasonable steps in protection personal property a person may have in his/her possession or under his/her control at the time of arrest/detention or facility transfers.
- E. When to Search: Pursuant to arrest, officers shall search the subject carefully and shall immediately take possession of all weapons, evidence or contraband.
- F. Confiscated property shall be properly stored in accordance with agency policy and procedure.
- G. Officers shall search a suspect, prisoner or arrestee or others in custody **every time** a person is placed in their custody.
- H. Officers at their discretion make cursory searched of suspects or interviewees looking for weapons for the purpose of deputy safety, as circumstances warrant.
- I. Search of Female by Male Officers
 - 1. Females should not be searched by male officers unless an immediate search under one of the following conditions appears to be necessary:
 - a. when there is reason to believe the person has in her possession a weapon, a poison, drugs or other like means of

causing imminent death or injury to herself or to another, or

- b. when there is explainable suspicion to believe stolen property is hidden about the person and there is exigent circumstances that it may be disposed of or destroyed.
 - 2. Searches in such emergencies should be made with all possible regard for decency and with a female witness.
 - 3. **Note:** Searches conducted by female officers of males shall be made with all possible regard for decency and with a male witness if possible.
- J. Security of Weapons: Officers shall not place weapons or objects adaptable for use as weapons and capable of inflicting bodily injury or permit such weapons or objects to remain unattended in any location of place normally accessible to someone in custody of the general public.

X. INTERROGATION

- A. Except where specifically warranted or directed to do so, transporting officers shall not interrogate or question arrestees, suspects or prisoners while being transported.
- B. A male deputy shall not interrogate a female subject or be alone in an interrogation room or place unless he is being observed directly or there is visibility into the room through a glass, or open door or surveillance equipment is operating.
- C. In compliance with NCGS 15A-211 all officers of the Alamance County Sheriff's Office when conducting a custodial interrogation in a homicide investigation shall make an electronic recording (audio/video) of the interrogation in its entirety. This uninterrupted record should always include the Officer's advisal to the person in custody of that person's Constitutional Rights (Miranda). During a visual recording, the camera recording the custodial interrogation must be placed so that the camera films both the interrogator and the suspects. In the event an deputy with the Alamance County Sheriff's Office must interview or interrogate a suspect or person of interest outside their respective jurisdiction, a request should be made to the host jurisdiction to utilize audio/video equipment, if such equipment is available. Upon conclusion of the interview/interrogation, the interviewing deputy shall immediately take control of the recording and mark and submit same in accordance with the evidence policy of the Alamance County Sheriff's Office.

- B. The deputy shall decontaminate all exposed restraining devices, equipment and him/herself prior to going back in service. This includes handcuffs, vehicle seats/passenger compartments, clothing, etc., and all cleanup equipment and items must be properly disposed of.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: MISSING CHILD INVESTIGATIONS

POLICY #: VIII-III EFFECTIVE DATE: 10/01/2005

PURPOSE

The purpose of this policy is to establish procedures and guidelines for locating, returning, or determining the well-being of missing children. This shall include children who are considered runaway, abandoned, abducted or any other missing status.

POLICY

The Alamance County Sheriff's Office recognizes that missing children are of great concern to the community. This agency holds that every child reported as missing will be considered at risk until significant information to the contrary is confirmed. The agency's prompt and professional response to a missing child report can have a positive effect on the case and the community; therefore, it is the policy of this Office to thoroughly investigate all reports of missing or unidentified children.

DEFINITIONS

- *Missing Child:* A person who is younger than eighteen (18) years of age, **and** whose whereabouts are unknown to his or her parent, guardian, or responsible party.
- *Unusual Circumstances:* Missing child who is thirteen (13) years of age or younger, **or** whose disappearance involves circumstances that would cause a reasonable person to conclude that the child should be considered at risk, **or** who is believed to be one of the following:
 - Out of "zone of safety" for his or her age, developmental stage, and/or physical condition. The zone of safety will vary depending upon the age of the child. For example, for an infant the zone of safety would include the presence of an adult or custodian, or the crib or stroller in which they were placed. For a school age child, the zone of safety might be the immediate neighborhood or the route taken to school.
 - Mentally diminished.
 - Drug dependent, including both prescription and illicit substances.
 - A potential victim of foul play or sexual exploitation.
 - In a life threatening situation.

- Absent from home for more than twenty-four (24) hours before being reported to the police as missing.
- Believed to be with adults who could endanger his or her welfare.
- Is absent under circumstances inconsistent with established patterns of behavior.
- *Non-family Abduction:* A child who is taken by an unknown individual, through force or persuasion, usually in furtherance of additional victimization.
- *Family Abduction:* A non-custodial family member flees with a child, usually in direct violation of a court-ordered custody arrangement.
- *Runaway:* A child, often a teenager, who leaves home voluntarily for a variety of reasons.
- *Lost or otherwise missing:* A child who becomes separated from parents or caretakers under circumstances not indicating the likelihood of an abduction or voluntary absence.
- *Thrown-away:* A child whose caretaker makes no effort to recover a child who has run away, or who has been abandoned or deserted.

PROCEDURE

I. OVERVIEW

- A. For the purpose of this procedure, a missing child is defined as any person under the age of eighteen (18) whose location is not know, including any child who may have run away from home, who may have been taken away by their non-custodial parent, or whose whereabouts is otherwise uncertain.
- B. If it is determined that unusual circumstances are involved in the report of a missing child, a thorough investigation, including the use of all appropriate resources, will commence immediately. If appropriate, existing interagency response protocols should be activated including the use of Amber Alert, the National Center for Missing and Exploited Children (NCMEC), and the National Crime Information Center (NCIC) and N.C. Division of Criminal Information (DCI) computer systems.

II. CENTRAL COMMUNICATIONS RESPONSIBILITIES

Upon receiving a report that a child cannot be located, the telecommunicator who receives the report shall be responsible to:

- A. Obtain as much information about the situation as possible.
- B. Immediately dispatch a deputy to the scene of the report.
- C. Notify the on-duty supervisor.
- D. Transmit the appropriate lookouts to surrounding areas.

III. INITIAL OFFICERS' RESPONSIBILITIES

The initial responding officers must take certain specific actions immediately. These actions include:

- A. Respond promptly to the scene of the report. Even if the assigned deputy has already been provided with such information, it would still be inappropriate to delay response to the scene to circle through parks or playgrounds. Unless in immediate response to the child's safety or directed by a supervisor, these activities can be handled by other patrol units.
- B. Interview parent(s) or person making the initial report.
- C. Obtain description of the missing child and a recent photograph.
- D. Verify that the child is in fact missing. First responders should never assume that searches conducted by distraught parents and others have been performed in a thorough manner. A search of the home should be conducted even if the child was last seen elsewhere. Officers should be advised that small children may and refuse to answer people calling their name. The physical search should start with the home of the missing person, and spiral outward. Special attention should be paid to enclosures like refrigerators and parked vehicles where limited breathing air may place the child at even greater risk. In the case of older children, the deputy should ask if parents have checked with the child's friends or perhaps overlooked or forgotten something the child may have said that would explain the absence.
- E. Notify supervisor and surrounding units of the status and description.
- F. Confirm the child's custody status. Questions regarding whether the reporting party has full legal custody, or if the non-custodial parent has been contesting custody, or if the missing child expressed a wish to live with the other parent, may help an deputy gain important insight into the case.
- G. Identify circumstances of the disappearance. The initial deputy should ascertain whether the circumstances surrounding the child's disappearance are such that a heightened level of response is warranted. If "unusual circumstances" exist, as previously defined in this policy, then the decision to employ additional response methods is clear. In other situations where the circumstances are not clear, officers should keep the missing child's safety in mind and act accordingly.
- H. Determine when, where, and by whom the child was last seen. This information will be used to determine factors such as abduction time, windows of opportunity and information verification. Comparison of information gathered from the reporting party, witnesses, and other sources may prove vital to case direction.

- I. Interview the individual(s) who last had contact with the child, or advise an additional deputy to conduct the interview. While seeking information about the child's appearance, demeanor and actions, officers should be alert to contradiction or evasiveness by the witness, especially if these statements cannot be readily substantiated.
- J. Identify the child's zone of safety for his or her age and developmental stage. This zone may define the first search zone. Responding officers should attempt to determine how far the child could travel from the location where last seen before he or she would most likely be at risk of injury or exploitation.
- K. Make an initial determination of the type of incident. Officers must be cautious in "labeling" or classifying a missing child case, since the classification process will affect the way in which initial information or evidence is gathered. Even if first indications suggest a "less urgent" incident, officers should consider all possibilities until the case category is clearly determined.
- L. Obtain a description of the suspected abductor(s) and other pertinent information. Officers should record witness information immediately, not only for general investigative use, but also before witnesses forget, or speak to others who may confuse or make suggestions about what was actually observed. If the abduction scene involves a business or other public place, officers may be able to supplement witness information with video from security cameras that might provide crucial information about suspects, vehicles, and circumstances. In the case of a suspected family abduction, the reporting party may have photographs of the abductor or other information.
- M. Provide detailed descriptive information to communications for broadcast updates.
- N. Identify and interview everyone at the scene.
- O. Secure and safeguard the area as a potential crime scene. Establish control over the immediate area where the incident occurred and establish an appropriate perimeter to avoid destruction of vital evidence. In addition, external crime scenes, the child's home, and particularly his or her bedroom, should be secured and protected until evidence and identification material are collected.
- P. Prepare necessary reports. Information gathered by the first responding deputy may be instrumental in the eventual case solution. To record this important information, officers should prepare a chronological account to their involvement and actions in the case from time of assignment to the point of dismissal. Reports should include everything, not just those events that seem to have a direct bearing on the case.

IV. ON-DUTY SUPERVISOR'S RESPONSIBILITIES

- A. Contact on-call Administrator and Captain of Crime Investigation Division (CID).
- B. Contact Crime Scene Investigation (CSI) and Detective on-call personnel.

- C. Contact the SBI regional office.
- D. Obtain a briefing from the first responding deputy and other personnel at the scene. The briefing should allow the supervisor to determine the scope and complexity of case and develop an appropriate response. The briefing should be conducted away from the family, friends, or any other non-police personnel. Private briefings will allow officers to speak freely about the events and to pass along initial impressions and opinions that might be misconstrued by others.
- E. **Determine the correct NCIC Missing Person File category and ensure that a notification is promptly transmitted.** *Note: The National Child Search Assistance Act of 1990 mandates law enforcement's immediate response to reports of missing children and the prompt entry of descriptive information into the Federal Bureau of Investigation's (FBI) National Crime Information Center (NCIC) Missing Person File.*
 - 1. There are 5 categories within the Missing Person File that apply to children. They are disability, endangered, involuntary, juvenile, and catastrophe. Simply because the child is younger than 18 does not require that the juvenile category be used.
 - 2. The circumstances of the disappearance should govern category selection. (Note: NCIC suggests that family and non-family abductions be entered in the involuntary category. Runaways are most commonly entered in the juvenile category unless unusual circumstances exist.)
- F. **Determine if the case meets alert criteria for Amber Alert.** A request for activation of an Amber Alert must be made as soon as possible after the abduction is reported (within four hours of abduction is ideal).
 - 1. There is a confirmed child abduction, **and**
 - 2. The circumstances surrounding the abduction indicate that the child is in imminent danger of harm or death, **and**
 - 3. The child is 17 years of age or younger, **and**
 - 4. There is enough descriptive information to believe that an immediate broadcast alert will help recover the child.
- G. **Contact the National Center for Missing and Exploited Children (NCMEC) 24 hour Hotline at 1-800-THE-LOST.** This organization will assist local law enforcement agencies with missing child cases requiring an emergency response in many ways and at no cost, such as case management and analysis, imaging and identification services and other technical assistance, photo/poster preparation and distribution, television public service announcements, family advocacy and reunification services, and prosecutorial assistance. "Project Alert" provides retired law enforcement officers who volunteer their skills and time to assist investigators when needed, and "Team Adam" provides specially trained volunteer consultants

to assist and advise law enforcement agencies and service as a daily liaison with NCMEC concerning the progress of investigations.

- H. Determine if additional personnel and resources are needed to assist in the investigation. Mobilize all resources available that could be of help in locating the subject. Resources to consider include:
 - 1. Coordinating with the Department's PIO for contacting the news media and asking for a camera crew and/or reporter;
 - 2. Requesting assistance from the fire department, public works department and other resources to aid in a search.
 - 3. Requesting assistance from other law enforcement agencies.
 - 4. Requesting a law enforcement canine unit, when appropriate.
 - 5. Requesting law enforcement air support to assist in a search.
 - 6. Requesting search assistance from volunteer groups.
- I. Establish a command post. As a general rule, the command post should be close enough to the center of activity to facilitate control and coordination, but sufficiently part to allow a free exchange of ideas among responders. Using the victim's home as a command post is not recommended.
- J. Organize and coordinate search efforts. Determine the child's safety zone and begin a perimeter search in that area. Expand the perimeter if the initial search is unproductive. A supervisor may appoint a search operation coordinator who can oversee the search effort so that the supervisor can remain available to manage the entire operation.
- K. Establish a liaison with the missing child's family. This task may be passed on to the juvenile detective upon their arrival.
- L. Ensure that all departmental policies and procedures are observed.
- M. Verify child's missing status by assigning personnel to make immediate checks of the child's school, local commercial establishments frequented by the child, and friends' homes.

V. INVESTIGATOR'S RESPONSIBILITIES

- A. Obtain a briefing from agency personnel at the scene. This briefing should be conducted prior to interviews with family members of the missing child or witnesses who may have been identified during the initial stage of the case. Its objective is to assist the detective in formulating an effective interview strategy.
- B. Verify the accuracy of all descriptive information. The verification process should include all details developed during the preliminary investigation.

During the interview process the detective should be alert to the facts or statements that conflict with those gathered by the first responder.

- C. Conduct neighborhood investigation. A thorough canvass of the neighborhood should be conducted without delay. The objective is to identify and interview all persons within the abduction zone who may provide information related to the incident. Investigators should use a standardized set of questions to insure completeness and uniformity of information and facilitate establishment of a database to track leads. Records should also be made of all vehicles parked within the neighborhood and any other conditions that may have future investigative value. The juvenile detective or designee shall be responsible for providing officers with uniform checklist and neighborhood canvas question forms.
- D. Obtain a brief history of recent family dynamics. Information about the family from family members, neighbors, teachers, classmates and witnesses can offer valuable insight. Background checks on family members should also be obtained and evaluated.
- E. Explore the basis for conflicting information. After preliminary investigations have been completed, officers should “compare notes” with detectives and the first responder to identify and work through conflicting information. This collaborative evaluation will provide the investigative staff with a solid foundation upon which to structure the direction of the case.
- F. Implement effective case management.
- G. Evaluate the need for additional resources and specialized services.
- H. Update descriptive information. If it appears that the case will not be resolved promptly, investigators should ensure that the descriptive records, especially that entered into the DCI/NCIC Missing Person File, is updated to include scars, marks, tattoos, fingerprints, entail characteristics, along with additional articles of clothing, jewelry, or unique possessions.
- I. Determine past runaway behavior, presence of behavioral problems, indicators of abusive relationships at home.
- J. Provide the parent(s) or legal guardian with the 24-hour State of North Carolina Clearinghouse for Missing and Exploited Children.
- K. Notify the Department of Social Services (DSS). The investigator should request access to any relevant information on the missing child, including: whether or not there is an active case; the name of any case worker; any previous missing incidents; any previous

VI. FOLLOW-UP INVESTIGATION

- A. If a missing child is not immediately located, the Lieutenant of the Criminal Investigation Division (CID) will be responsible to assign appropriate personnel to conduct a follow-up investigation.
- B. The investigating deputy will request that all parents/guardians complete a CVSA or polygraph examination. A similar request may also be made to other relatives or persons who last saw the missing child.
- C. The investigating deputy will continue to make reasonable efforts to acquire additional and ongoing information about the missing child following transmittal of the initial information available, and promptly integrate any additional information acquired into the DCI/National Crime Information (NCIC) computer systems.
- D. When a missing child has not been located within seven (7) days after the date on which the missing child report was filed, the investigating deputy shall request the dental records of the missing child from the missing child's parents or guardian. The dental records shall then be entered into the CDI/NCIC computer system.
- E. Continue to utilize the resources of the National Center for Missing and Exploited Children (NCMEC); this organization has the ability and expertise to review and evaluate long-term cases and offer suggestions and strategies as to new or different approaches that might be implemented in the ongoing investigation.

VII. LOCATION OF MISSING CHILD

- A. When a missing child has been located, the investigating deputy will verify that the located child is, in fact, the reported missing child.
- B. The investigator will immediately set up an interview with the child. The interview will be conducted in person (not by phone) to ensure the well being of the child, to gain intelligence about possible predators, and to prevent future episodes. The interview will be documented in the case file. "Crossroads" will be utilized if possible.
- C. The investigator should arrange for intervention services if needed. During the verification interview, the deputy should be alert for indications that additional services may be needed before the child can safely remain with the family. These services may include mental and/or physical health examinations and arrangements for family counseling.

- D. All outstanding notifications shall be cancelled, including DCI/NCIC Missing Person file entry.
- E. All supplemental reports will be completed, including a supplemental report that describes the child's activities while missing and the circumstances of the recovery/return.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: CHECKPOINTS

POLICY#: VIII-IV EFFECTIVE DATE: 11/15/2005

REVISED DATE: 12/01/2006

PURPOSE: The purpose of this policy is to establish guidelines and procedures for members of the Alamance County Sheriff's Office to conduct suspicion less seizures of vehicles at vehicle checking stations (checkpoints).

POLICY: It shall be the policy of the Alamance County Sheriff's Office that all stations will be conducted in accordance with state and federal law and that the site for every checkpoint will be selected with due regard for the safety of all motorists and officers operating the checking station.

PROCEDURE:

I. REQUIREMENTS FOR ALL CHECKING STATIONS

- A. The site for every checking station shall be selected with due regard for the safety of motorists and the members operating the checking station. Sufficient distance must be provided to allow a motorist traveling at the speed limit to stop his/her vehicle in a normal manner under the existing conditions. No checking station shall be conducted without at least two uniformed members present and at least one marked Sheriff's Office vehicle.
- B. All checking stations shall be marked by signs and/or activated emergency lights, marked Sheriff's Office vehicles parked in conspicuous locations, or other ways to ensure motorists are aware that an authorized checking station is being conducted. Blue lights, on at least one Sheriff's Office vehicle, shall be operated at all times.
- C. With the exception of Special Operations checking stations, all checking stations shall provide for the stopping of every vehicle. Individual members shall not vary from this policy, except that the member in charge of the checking station may allow variance from this requirement if traffic congestion or other factors are creating a hazard. The member in charge may then authorize all vehicles to pass through the checking station until there is no longer a hazard. The member in charge is authorized to terminate a checking station at any time a determination is made that this operation is creating a hazard.
- D. Checking stations shall be operated so as to avoid unnecessary traffic congestion and delay to motorists.

- E. Adequate area must be available off the traveled portion of the highway to allow for the safety of motorists when enforcement action is taken.
- F. Sheriff's Office vehicles must be parked to allow access to the highway for pursuit in any direction.

II. STANDARD CHECKING STATION

- A. Members may conduct checking stations to determine compliance with motor vehicle laws. Examples for which this type of checking station may be used include verification of drivers' licenses, vehicle registration checks, insurance checks, seat belt compliance checks and driving while impaired checks.
- B. All standard checking stations, day or night, shall be approved, in writing, by a Sheriff's Office supervisor or their designee. A supervisor or designee shall designate the purpose, location and approximate time of operation of the checking station. The placement of check points should be random or statistically indicated, and, unless statistically indicated, supervisors or their designees shall avoid placing checking stations repeatedly in the same location or proximity. Supervisors or their designees shall use a **Checking Station Authorization Form**, a copy of which is attached to this policy for reference, to document authorization of such checkpoints.
- C. A supervisor or designee who authorizes establishment of a checking station shall specify on the Checking Station Authorization Form whether drivers shall be asked to produce a driver's license, proof of registration, insurance information, or any combination thereof. The driver of every vehicle stopped shall be asked to produce the document(s) specified and members of this agency working the checking station shall have no discretion to deviate from this pattern unless the member has some reasonable suspicion to investigate further.
- D. If a member determines there is a reasonable suspicion to believe that a driver of other vehicle occupant has violated a provision of N.C.G.S. Chapter 20 or any other provision of law, the member may detain the driver or occupant for a reasonable period of time in order to investigate further.
- E. Regardless of the designated purpose of the checking station, the operator of any vehicle stopped at the checking station may be requested to submit to an alcohol screening test under N.C.G.S. 20-16.3 if, during the stop, the member determines the driver has previously consumed alcohol or has an open container of alcoholic beverage in the vehicle. Members may consider the results of any alcohol screening test or the driver's refusal to take an alcohol screening test in determining if there is reasonable suspicion to investigate

further.

- F. Specific written directions may be provided for a particular checking station. When issued by a supervisor or their designee, these written directions shall be considered additional policy for that particular checking station.
- G. Standard checking stations shall comply with the United States and North Carolina Constitutions and shall be conducted in accordance with the provisions of N.C.G.S. 20-16.3 A.

III. INFORMATIONAL CHECKING STATION

- A. Members may conduct informational checking stations for the purpose of seeking motorists' assistance in solving a crime. This type of checking station may be appropriate in case involving death or serious injury and where motorists may be able to provide pertinent information to help identify the offender or otherwise provide pertinent information related to the death or injury.
- B. A supervisor or designee shall approve in advance an informational checking station. The authorizing supervisor or designee shall designate the purpose, location and approximate time of operation of the informational checking station. This authorization does not have to be in writing but the informational checking station must be conducted in accordance with this policy.
- C. Because an informational checking station is not designed to determine whether a vehicle's occupants are violating a provision of the motor vehicle law, drivers shall not be asked to produce a drivers' license or any other documentation. If, however, during the course of the stop a member determines there is reasonable suspicion to believe that a driver or other vehicle occupant has violated a provision of N.C.G.S. Chapter 20 or any other provision of law, the member may detain the driver or occupant for a reasonable period of time in order to investigate further and the operator of any vehicle may be requested to submit to an alcohol screening test under N.C.G.S. 20-16.3 if, during the stop, the member determines the driver has previously consumed alcohol or has an open container of alcoholic beverage in the vehicle.

IV. SPECIAL OPERATIONS CHECKING STATION

- A. The Sheriff or his designee may approve a Special Operations checking station when it is determined that a Special Operations checking station may likely result in the apprehension of a suspect who poses a danger to life and property or the rescue of a hostage or abducted person. The Special Response Team may also be deployed to a Special Operations checking

station. This authorization does not have to be in writing but the checking station must be conducted in accordance with this policy. The authorization should include the location, equipment, time, and operation of the Special Operations checking station.

- B. When a suspect sought to be apprehended by the Special Operations checking station has a hostage or abducted person in the vehicle or the member reasonably believes a hostage or abducted person is in the vehicle, the priority shifts from apprehending the suspect to preserving the life of the hostage or abducted person.
- C. Members operating a Special Operations checking station shall position themselves and their Sheriff's Office vehicles in a manner that will provide a tactical advantage and maximize deputy safety.
- D. Members shall wear their body armor at all times while operating the Special Operations checking station.
- E. Supervisors should closely monitor the Special Operations checking station for the purposes of ensuring deputy safety and updating information.

V. MULTI-AGENCY CHECKING STATION

Checking stations involving other agencies or law enforcement officers not employed by the Alamance County Sheriff's Office must be approved by the Sheriff or his designee and conducted in accordance with the provisions of this policy. Law enforcement agencies assisting the Alamance County Sheriff's Office in a multi-agency checking station, where the assisting agency does not have territorial jurisdiction, must have a mutual aid assistance agreement in place with the Alamance County Sheriff's Office.

VI. PREPARATION

When a checkpoint has been authorized, the deputy-in-charge shall:

- A. Hold a briefing prior to the beginning of the operation for all participating officers, during which the purpose, specific rules, location, and duration of the checkpoint will be stated, and an opportunity for questions by participants will be given.
- B. Consider the following:
 - 1. Area chosen, based on the frequency and nature of vehicle accidents, street configuration, traffic volume, and other such factors
 - 2. Estimated traffic conditions during the checkpoint
 - 3. Likelihood of Chapter 20 violations

4. Convenience/inconvenience to the general public
 5. Assignments for all involved officers
 6. Any necessary contingency planning
 7. Provisions and guide lines for pursuing and stopping vehicles, issuing citations, conducting field sobriety testing, and making investigative detentions and arrest
- C. Ensure that an adequate number of personnel are assigned to the operation.
1. *Note:* Normally, one deputy per lane of travel is sufficient unless the volume of traffic indicates the need for additional officers. When deemed necessary, there should be at least one deputy designated as a pursuit vehicle.
- CI. Advise Central Communications of the operation's time, location, and the radio numbers of the officers assigned to the operation. Radio contact with Central Communications shall be maintained throughout the checkpoint as is feasible and necessary.
- CII. Assure that all participating officers are in full dress uniform and have all necessary equipment, to include:
1. Hat
 2. Reflective vest
 3. Protective vest
 4. Citation book
 5. Flashlight
 6. Flares and traffic cones (as needed)
- CIII. **VEHICLE PURSUITS**
- If an deputy must leave the area of the checkpoint location to pursue a vehicle which appears to be avoiding or attempting to elude the checking station, the deputy shall follow the standard vehicle pursuit policy and procedure requirements of this agency.

VII. PROHIBITED LOCATIONS

Normally, checkpoints will not be located in the immediate vicinity of a major business, hospital, or other institutions between the hours of 0700 to 0900 and 1600 to 1800, Monday through Friday, or near a religious institution during worship hours.

VIII. REPORTS AND AUTHORIZATION FORM DISTRIBUTION

Supervisors in charge of a checkpoint, or their designee, will be responsible for

ensuring that all necessary forms and reports are completed by the participating officers and that same are routed properly to the appropriate personnel for recordkeeping and informational purposes. The original copy of the Checking Station Authorization form shall be forwarded to the Captain of Patrol, who shall maintain these forms and make copies of same as needed for court and/or public records request purposes.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: SUSPECT IDENTIFICATION PROCEDURES

POLICY#: VIII-V EFFECTIVE DATE: 02/15/2007

PURPOSE: The purpose of this policy is to establish guidelines for members of the Alamance County Sheriff's Office to conduct suspect identification procedures.

POLICY: During the course of an investigation, it may become necessary to conduct procedures that allow victims, witnesses, and/or undercover officers to identify the perpetrator(s) of crime(s) being investigated. Several different methods, such as Showups, Photographic Lineups, and Physical Lineups are utilized to accomplish this. It shall be the policy of the Alamance County Sheriff's Office to establish which allow such procedures to be conducted in a fair, consistent, and impartial manner in order to provide the greatest accuracy, validity and reliability as possible or such procedures.

PROCEDURE:

I. SHOWUP PROCEDURES

A showup is the presentation of a suspect to an eyewitness of a crime, usually a short time and in close proximity to where and when the crime was committed. A photo lineup is preferable to a showup; however, in the event a showup is conducted the following guidelines should be followed:

- A. Showups should only be used when circumstances require the prompt display of a single suspect to a witness. In such instances, the suspect should be encouraged to consent to voluntary detainment to participate in a live lineup, or to consent to being photographed for use in a photo lineup.
- B. Showups should only be conducted when a suspect matching the description of the perpetrator is located in close proximity in time and place to the crime. A description of the perpetrator should be documented prior to the showup.
- C. The victim/witness should always be transported to the location of the detained suspect for a showup presentation.
- D. Showups should not be conducted with more than one witness present at a time.
- E. If there are multiple witnesses and one witness makes an identification during a showup, the remaining witnesses should be utilized for another identification procedure.
- F. Words or conduct of any type that may suggest to the witness that the individual being shown to him/her is or may be the perpetrator should be

carefully avoided.

- G. Witnesses should be given a cautionary instruction that the individual being shown may not be the perpetrator.

II. PHOTOGRAPHIC (PHOTO) LINEUP PROCEDURES

A photographic lineup is the presentation of a series of photographs to a victim or witness in an attempt to identify the perpetrator of a criminal act. In utilizing the photo lineup, officers should make every effort to insure that the selection and presentation of photographs to victims and witnesses is done in a fair and impartial manner. Officers should be adequately prepared to explain the preparation and presentation of such lineups. The following policy shall be followed during this procedure:

- A. A photo lineup shall consist of a minimum of six photographs. One photograph will be of the suspect; the remaining five photographs will be used as “fillers”.
- B. The primary source for photo lineups will be the Alamance County Sheriff’s Office jail database; when feasible other databases or sources may be used when necessary or more practical.
- C. No more than one suspect photograph will be used in a lineup at a time. If a case involves more than one suspect, a separate photo lineup must be created. When showing a new suspect, using the same “filler” photos in lineups shown to the same witness will be avoided.
- D. In all photo lineups physical features of each filler should be similar to the suspect’s description, such as race, hair, skin color and skin tone. There should not be any marking or notations on a photograph that would make it stand out from other photographs in the lineup.
- E. Photo lineups must be reviewed for consistency and accuracy by a supervisor before it is shown to a victim or witness. Supervisors will indicate that the lineup has been reviewed on an Alamance County Sheriff’s Office Victim/Witness Photo Lineup Advisal Form.
- F. The individual conducting the photo lineup will not know the identity of the suspect. The investigating deputy will supply the suspect and filler photos to the presenter. This is called a double-blind procedure, and is done to reduce misidentifications due to unintentional influences by the presenter.
- G. Photographs shall be presented to witnesses sequentially, rather than simultaneously. Sequential presentation requires each photo to be presented to a witness separately and in a previously determined order, not

simultaneously or all at once.

- H. After the victim/witness has had an opportunity to view a photograph and has notified the deputy as to whether the photograph presented is that of the offender, that photograph will be removed before another photograph is presented.
- I. If the victim/witness does not make an identification, the presenter may ask *"Would you like to look at the lineup again?"* It is permissible to show the lineup again, in which case it shall be documented in the case that the victim/witness did not make an identification in the first presentation, and that the lineup was presented a second time.
- J. If the victim/witness does ask to see one specific photo a second time, such is permissible but must be documented. If the victim/witness asks to see more than one photo from the lineup again, the entire lineup shall be presented a second time.
- K. The deputy presenting the lineup must adequately explain the lineup process to the victim/witness prior to the presentation of any photographs. To accomplish this, the deputy shall utilize an Alamance County Sheriff's Office Victim/Witness Photo Lineup Advisal Form. When this form has been read to the victim/witness, the time, date, presenter's name, the victim/witness's name and the location where the photo lineup was presented (Sheriff's Office, victim/witness residence, etc.) will be noted on this form.
- L. The victim/witness will indicate on the Alamance County Sheriff's Office Victim/Witness Photo Lineup Advisal Form whether they were or were not able to identify the suspect by initialing the form in the appropriate space. The presenting deputy may ask the victim/witness to describe his/her certainty about any identification that is made and should record that victim/witness's exact response on the advisal form and in a supplemental report to follow the identification procedure.
- M. When the lineup process is completed, the presenting deputy will note the beginning and ending times and indicate same it on the advisal form.
- N. In the event that more than one suspect exists, a separate photo lineup will be created for each suspect. If multiple lineups are presented to a victim/witness, this procedure will be repeated for each viewing.
- O. If more than one victim/witness exists, a separate photo lineup will be presented to each. Victims/witnesses are not permitted to view lineups at the same time.

- P. Officers should not allow the victim/witness to discuss the identification procedure with anyone else before, during or after the lineup procedure.
 - 1. Officers shall not make any comments, gestures or statement that could in any way influence the outcome of the lineup process.
- Q. After photographs in any photo lineup have been viewed by any victim or witness, whether a positive identification is made or not, the lineup photos shall each be marked by the presenting deputy denoting the order in which they were shown. In the event that a positive identification was made, the victim/witness shall not the date and time the identification was made, and place his/her signature on the reverse side of the suspect photograph identified by him or her.
- R. The original of all photo lineups used with all victims and/or witnesses during an investigation will be submitted into evidence, regardless of whether a positive identification was made or not. A “working copy” of any lineup used during an investigation may be made to assist the investigating deputy(s) with that investigation, but may not be used with any victim or witness.
- S. Separate photo lineups may be constructed using copies of the same suspect and “filler” photographs for different victims and/or witnesses; all such lineups presented for viewing shall be marked and placed into evidence as described above.
- T. The person that constructs the photo lineup, as well as the person that presents the lineup, must submit a supplemental report documenting their involvement in the lineup procedure.
- U. Victims/witnesses will not be told if they identified the correct suspect, as such, could interfere with future identification procedures.
- V. Any lineup presentation made by any member of this agency at the request of an outside agency will be conducted in accordance with this policy.

III. PHYSICAL LINEUP PROCEDURES

A physical lineup is the presentation of several individuals to a victim or eyewitness of a crime, in an attempt to identify the perpetrator of a criminal act. Physical lineups shall always be conducted in conjunction with a representative of the District Attorney’s Office. The following guidelines should be used in conducting a physical lineup:

- A. At least six persons-one suspect and five “fillers”, will participate in this type of lineup. All participants will be of the same race and sex and shall be

similar in height, weight, hair color, hair style, facial hair, and clothing. Other characteristics such as glasses shall also be taken into consideration. Participants who know, or could be known, by witnesses will not be used.

- B. All physical lineup procedures will be documented by videotape and logged as evidence in the case. The Crime Scene Investigation Unit will assist in the photographic documentation of such lineup procedures, which will consist of frontal and profile photographs of all participants and videotaping of the entire procedure.
- C. Only one suspect will be used in a physical lineup at one time. If a case involves more than one suspect, a separate physical lineup must be created.
- D. Physical lineups will be reviewed for consistency and accuracy by a supervisor and a representative from the District Attorney's Office before being presented to a witness.
- E. The presenting deputy shall be certain to adequately explain the physical lineup process to the victim/witness prior to its presentation. To accomplish this, this deputy shall utilize the Alamance County Sheriff's Office Victim/Witness Physical Lineup Advisal Form. When the explanations have been read to the victim/witness, the time, date, officer's name, and location at which the physical lineup is presented, shall be noted on this form.
- F. The person conducting the physical lineup shall be independent of the investigation and should not know the identity of the suspect. This is called a *double-blind* procedure, and is done to reduce misidentifications due to unintentional influences by the presenter.
- G. Individuals shall be presented to witnesses sequentially-i.e. one at a time, and not simultaneously. Sequential presentation requires each person to be presented to the victim/witness separately, in a previously determined order.
- H. The suspect should be allowed to choose his/her position in the lineup. If he/she will not choose a position, then this will be done at random; a suspect shall never be placed in the first position of a lineup, however.
- I. Any "filler" participants must not indicate which person the suspect is. Use of police personnel in the lineup should only be used as a last resort.
- J. Participants may be asked to repeat certain words or phrases that were spoken during the crime, but all words and phrases must be consistent by the participants.
- K. The victim/witness will indicate on the Alamance County Sheriff's Office Victim/Witness Physical Lineup Advisal Form whether he/she was or was

not able to identify the suspect by initialing this form in the appropriate space. When the physical lineup process is complete, the presenting deputy will indicate such on this form.

IV. RIGHTS OF PARTICIPANTS IN LINEUPS

- A. Show-ups should only be used when circumstances require the prompt display of a single suspect to a witness, e.g., when not enough probable cause exists for detention long enough to construct a complete physical lineup, or when public safety concerns exist.
- B. Suspects who are not in custody must consent to voluntary detainment to participate in a live lineup, or to being photographed for use in a photo lineup. In such instances, a written consent indicating that this subject is a willing participant in the lineup or photographic session without promises, threats, pressure, or coercion must be obtained which is signed and dated by the suspect. If a non-custodial suspect refuses to participate in a lineup or have his/her photograph taken, a non-testimonial order of identification or search warrant, must be obtained in order to carry out this procedure with that suspect.
- C. No person has a right to have a lawyer present at any photographic identification procedure.
- D. Certain rights are afforded to suspects who are required to stand in a physical lineup. If a suspect has been arrested, he/she must be advised of his/her right to counsel during the lineup procedure. If such a custodial suspect agrees to participate in a physical lineup, a consent form should be obtained. However, suspects who are in custody cannot refuse to participate in a lineup, and can be required to talk, walk, stand, wear particular clothing or disguises, or to make certain gestures that were observed during the crime. Due process requires that if one participant is required to do, say, or act in a certain manner, all participants must do the same thing. Attorneys will be permitted to observe such lineup procedures and may give counsel and advice to a client before such procedures, but will not be allowed to interfere with the lineup procedure itself once it has begun.

V. IDENTIFICATION OF SUSPECTS DURING UNDERCOVER OPERATIONS

- A. During undercover operations, the investigating (case) deputy is responsible for having the suspect of a drug or other contraband purchase identified by the undercover deputy on the same day as the purchase, or as soon after the purchase as is possible. This identification will be made by a photographic or personal viewing of the suspect by the undercover deputy.

- B. Further identification of the suspect by the undercover deputy will be made on the day of the arrest of the suspect. This identification will be made in-person either directly face to face or via a one-way mirror or other means of concealed viewing, as is necessary and appropriate in the judgment of the supervisor of this operation.
- C. No person has a right to have a lawyer present at any photographic identification procedure.
- D. Certain rights are afforded to suspects who are required to stand in a physical lineup. If a suspect has been arrested, he/she must be advised of his/her right to counsel during the lineup procedure. If such a custodial suspect agrees to participate in a physical lineup, a consent form should be obtained. However, suspects who are in custody cannot refuse to participate in a lineup, and can be required to talk, walk, stand, wear particular clothing or disguises, or to make certain gestures that were observed during the crime. Due process requires that if one participant is required to do, say, or act in a certain manner, all participants must do the same thing. Attorneys will be permitted to observe such lineup procedures and may give counsel and advice to a client before such procedures, but will not be allowed to interfere with the lineup procedure itself once it has begun.

VI. IDENTIFICATION OF SUSPECTS DURING UNDERCOVER OPERATIONS

- A. During undercover operations, the investigating (case) deputy is responsible for having the suspect of a drug or other contraband purchase identified by the undercover deputy on the same day as the purchase, or as soon after the purchase as is possible. This identification will be made by a photographic or personal viewing of the suspect by the undercover deputy.
- B. Further identification of the suspect by the undercover deputy will be made on the day of arrest of the suspect. This identification will be made in-person either directly face to face or via a one-way mirror or other means of concealed viewing, as is necessary and appropriate in the judgment of the supervisor of this operation.
- C. The investigating (case) deputy will be responsible for insuring that a photograph of any suspect arrested as a result of an undercover operation is made on the day of the arrest of that suspect, and that a copy of this photograph is placed in the investigative file until such time that the case is properly adjudicated.
- D. In circumstances in which the suspect is arrested and the undercover deputy is not available and/or in which the investigating deputy(s) for the undercover operation was not aware or notified of such arrest(s) until a later date (e.g.,

where the suspect was arrested in another jurisdiction, or was arrested on a warrant which had been placed in this agency's "hot file"), it shall be permissible for the undercover deputy to identify the suspect from a photograph made at the time of his/her arrest.

- E. The investigating (case) deputy will be responsible for submitting supplemental report into the case file documenting the date, time, and results of these identification procedures by an undercover deputy.
- F. In situations in which a photographic identification of a suspect is made by an undercover deputy, notations will be made on the photograph identified by the undercover deputy as to the date and time of the identification, the case file (OCA) number, and the signature or initials of the undercover deputy and the case officer. This photograph will be retained in the case officer's investigative file until such time that the case is properly adjudicated.
- G. Confidential, reliable, informants (cri) who are utilized in undercover operations to establish probable cause for the arrest of suspects shall follow the same restrictions and requirements as are set out in this policy regarding photographic lineup procedures when photographs are used for the purpose cri identifying a suspect, and shall follow the same procedural restrictions and requirements regarding direct or indirect in-person viewing of suspects when that means of identifying a suspect by a cri is utilized.

ALAMANCE COUNTY SHERIFF'S OFFICE
Victim/Witness Photo Lineup Advisal Form

I am about to show you a series of photographs. The person who committed the crime we have discussed may or may not be included. I do not know whether the person being investigated is included in this series or not. Even if you do identify someone during this procedure, I will continue to show you all of the photographs in this series.

Keep in mind that features such as hairstyles, beards and mustaches can easily be changed and that the skin complexion of persons can look different in photographs.

ALAMANCE COUNTY SHERIFF'S OFFICE

TITLE: DOMESTIC VIOLENCE

POLICY#: VIII-VI

EFFECTIVE DATE: 02/12/2019

REVISED DATE: 09/13/2019 05/13/2021 04/22/2024

DISCUSSION: Domestic Violence is a problem that affects every community across the nation. It crosses all races, social and economic backgrounds, cultures, religions and relationship types. Domestic Violence is a deliberate pattern of abusive tactics used by one partner in an intimate relationship to obtain and maintain power and control over the other person.

PURPOSE: The Alamance County Sheriff's Office (ACSO) wants to deliver a clear and consistent response to domestic violence. While protecting the victims of domestic violence and their families from immediate danger and assisting in connecting victims with the resources and services they require, the ACSO seeks to enforce the community's intolerance for violent behavior and communicate the message that domestic violence is unacceptable and will not be tolerated in our community.

DEFINITIONS:

Personal Relationship includes persons whom:

- Are current or former spouses;
- Are persons who live together or have lived together for the purposes of cohabitation;
- Are related as parents and children, including others acting as guardian to a minor child, or as grandparents and grandchildren;
- Have a child in common;
- Are current or former household members;
- Are persons who are in a dating relationship or have had a dating relationship in the past.

Intimate Partner: classified as spouses, former spouses, persons living together or who have lived together as if married, person who are involved in a dating relationship, or individuals having a child in common. "Intimate Partner" is a smaller subset of the broader definition of domestic violence and does not apply to other relationships such as siblings and parents.

Domestic Violence: The commission of one or more of the following acts upon an individual (or upon a minor child who is residing with or is in the custody of the individual) by a person with whom the individual has or has had a personal relationship, not including acts of self-

defense:

- Attempts to cause bodily injury or intentionally causes bodily injury;
- Placing the individual or a member of the individual's family or household in fear of imminent, serious bodily injury or continued harassment, that rises to the level as to inflict substantial emotional distress;
- Communicates threats;
- Commits a sexual assault;
- Intentionally destroys real or personal property;
- Commits crime of domestic violence as defined in NCGS 14-32.5
- Commits domestic criminal trespass as defined in NCGS 14-134.3; or
- Violates a valid court order provided under NCGS 50B

Domestic Criminal Trespass: A misdemeanor committed by a person who enters or remains on premises, after being ordered to leave by the occupant of the premises, who is the spouse, former spouse, or someone with whom the perpetrator has lived as married but are now living apart may include a judicial order of separation, a court order, a written or verbal agreement between the two parties, or separate places of residence for the two parties (N.C.G.S. 14-134.3).

Probable Cause: Probable cause is the legal standard by which a police officer has the right to make an arrest, conduct a personal or property search, or obtain a warrant for arrest. While many factors contribute to a police officer's level of authority in a given situation, probable cause requires facts or evidence that would lead a reasonable person to believe that a suspect has committed a crime.

A law enforcement officer is not required to actually witness the incident to have probable cause to believe that the offender has committed the offense. For example, a deputy may take into account the circumstances of the situation and the testimony of a victim. If the facts presented to the deputy are sufficient to cause the officer to believe that an offense has occurred the deputy may have "probable cause" and be authorized to arrest the offender, even if the alleged offender has already left the scene upon the officer's arrival.

Domestic Dispute: In general terms, any quarrel, which may or may not include violence, within a family or between members of the same household. Definitions are governed by NC General Statutes and may also include any child or an adult or fully emancipated minor who is a spouse, former spouse, cohabitant, former cohabitant or person with whom a suspect has had a child or has had a dating or engagement relationship, including same sex partners. A domestic dispute may or may not include criminal behavior. It is the position of the Alamance County Sheriff's Office to provide the best possible service to all victims of crime regardless of the nature or their relationship to each other.

Bodily Injury: Any physical injury or pain sustained by the victim or any impairment of the victim's physical condition.

Self-Defense: A person's justifiable use of physical force upon another person when he/she believes such force is necessary to defend himself/herself or a third party from what is reasonably believed to be the use or imminent use of physical force by that other person. The use of reasonable force to protect oneself or members of the family from bodily harm from the attack of an aggressor, if the defender has reason to believe he/she/they are in danger.

Domestic Violence Protection Order: All forms of orders related to domestic violence that have been issued by a court of this state or another, whether civil or criminal, regardless of whether service has been made.

Ex-Parte Order: A temporary court order valid for up to 10 days or until the date set for a hearing in which both parties are present. Ex-parte orders in cases continued beyond the 10 days may be valid and can be verified electronically through the Administrative Office of Courts (AOC) e-filing system. These orders are available to individuals involved in domestic violence only (N.C.G.S.50B-2c).

Lethality Assessment Protocol (LAP): A screening tool to assist investigators and provide guidance to victims, resulting in an enhanced approach to homicide prevention between intimate partners.

POLICY: Domestic Violence is a crime, which requires direct law enforcement intervention and a coordinated community response. A deputy sheriff who responds to a domestic violence incident will attempt to reduce the possibility of violence and threats toward the victim and other involved individuals, and will conduct a thorough investigation.

I. ARREST BY LAW ENFORCEMENT OFFICERS

A. Warrantless Arrests - A law enforcement officer may arrest without a warrant any person who the deputy has probable cause to believe has committed a criminal act in the officer's presence. A law enforcement officer may arrest without a warrant for a felony based on probable cause alone, even if the offense did not occur in the officer's presence.

N.C. General Statute 15A-401(b)(2) authorizes a law enforcement officer to conduct a warrantless arrest if the officer has probable cause to believe that one of the following misdemeanors have been committed.

1. Simple assault;
2. Assault on a female;
3. Assault with a deadly weapon;
4. Assault inflicting serious injury; and/or
5. Domestic criminal trespass

(NOTE- The new crime of Misdemeanor Crime of Domestic Violence, is not included in this list, but because the charge of Misdemeanor Crime of Domestic Violence includes all of the elements of a Simple Assault, it is also viable as an offense for which a warrantless arrest can be made, whether or not Simple Assault is also charged.)

B. **Mandatory Arrests** In cases where there is a Chapter 50B Court Order in effect, N.C. General Statute 50B-4 **requires** an officer to effect an arrest if there is probable cause to believe that the suspect violated the court order.

Additionally, according to the law, the terms and conditions of the court order remain enforceable, regardless of the acts of the victim or suspect, and may be changed only by order of the court.

II. INVESTIGATING ALLEGATIONS OF DOMESTIC VIOLENCE

A. **Preliminary Investigation by Responding Deputies** – The primary concern of the responding investigating deputy should be the safety of the victim/complainant. When responding to a domestic dispute or domestic violence call, Deputies/Investigators of the Alamance County Sheriff's Office will perform the following duties:

1. Restore order by separating the parties and allowing each party to calm down. It is important to separate the parties involved in the dispute.
2. Interview all parties separately. Children should be interviewed in a manner appropriate to their age. Children's names and ages should be noted in the report.
3. Investigate the incident and determine if State Law authorizes an arrest. Always record statements, preserve the crime scene, and collect evidence (Utilize Crime Scene Unit if needed).
4. Check NCIC/NC Aware to determine if there are any outstanding warrants, current release conditions or an active 50B.
5. Provide the victim with the contact information for The Family Justice Center.
6. Photograph the victim if a victim has been assaulted or alleges an assault occurred (regardless if injury is apparent). Depending upon the circumstances, the injuries should be photographed within 24 hours of the incident.
7. Determine - if both parties are injured - which party was the aggressor and whether one of the parties was acting in self-defense. Reasonable acts of self-defense, without the use of excessive force, may be justifiable and may not necessitate the arrest of both parties to a domestic incident.
8. Complete the Lethality Assessment Protocol
9. Notify the on-call Special Victims Unit Investigator and request they respond to the scene if a Domestic Violence incident involves a serious injury or

death.

10. Submit a complete and accurate Incident Report when:

- an arrest is made or
- any time such an arrest could be made, but the suspect could not be located at the scene or
- threats have been made or alleged by an involved party or
- an assault or an allegation of assault has been made, regardless of the observable presence of injuries or
- property was damaged, or evidence that property was damaged
- violations or allegations of violations of a 50B order

11. Submit a “domestic” field contact form with a brief summary when:

- a domestic dispute has occurred and
- no assault, no evidence of assault, or allegation of assault has been made and
- no threats were made or alleged and
- no damage to property or evidence of damage to property and
- the incident was verbal in nature

B. If an arrest is made, the investigating deputy will complete an Incident Report and an Arrest Report and provide the victim with a Victim Notification Form. These reports will be completed and submitted before the end of the investigating deputy’s shift.

C. Lethality Assessment Protocol shall be utilized on all domestic calls. Deputies may utilize the Forseti online tool. Based on the lethality assessment, the deputy will call LAP Hotline. Do not use the victim’s phone unless it is patched through via CCOM.

1. The deputy will stay with the victim for the duration of the 10-minute call.
2. If the hotline is not answered immediately, the deputy will make a second attempt.
3. If the victim initially suggests they do not wish to talk to the hotline counselor, make the call to the hotline and then ask the victim again.

III. ARREST DECISIONS

A. When Arrest is required by Policy

The investigating deputy must arrest and transport the offender to the magistrate's office under the following circumstances if there is probable cause to believe that:

1. A felony has occurred; or
2. A Simple Assault, Assault on a Female, Assault with a Deadly Weapon, Assault

inflicting Serious Injury, and/or Domestic Criminal Trespass was committed by the offender outside the presence of the officer and a warrantless arrest is authorized under N.C. General Statute 15A-401(b)(2);

3. **AND:**

4. The Victim/Complainant and Perpetrator/Offender:

- a. Are current or former spouses;
- b. Are persons who live together or have lived together;

5. **OR:** A valid Domestic Violence Protective Order does exist and there is probable cause to believe that the suspect has violated a valid protective violence order (50B).

B. Suspect has left the Scene

If an arrest is authorized and the offender has left the scene, the responding/investigating deputy will obtain a warrant for arrest and make a reasonable effort to locate the suspect as soon as possible and conduct the arrest. If the suspect is not arrested before the end of the responding/investigating deputy's shift, that deputy shall notify the oncoming shift supervisor.

C. When arresting a suspect for violation of a Domestic Violence Protective Order, **Use N.C. General Statute 50B-4.1(a). Using this statute makes it a criminal offense.**

D. Proper Restraints Are Required

Whenever an offender is placed under arrest for a Domestic Violence related offense, the deputy is required to apply proper physical restraints, including handcuffs, in accordance with agency policy.

IV. ASSISTANCE BY DEPUTY IN OBTAINING WARRANTS

The investigating deputy shall assist the victim/complainant by obtaining a warrant for the arrest of the perpetrator. If the victim/complainant refuses to cooperate, at the time, the deputy shall weigh all of the facts and circumstances, and will decide whether or not to obtain a warrant from the magistrate.

A. The deputy **will** consider the following facts and circumstances before deciding whether or not to obtain a warrant:

- 1. The existence of a protective order;
- 2. The history of previous law enforcement calls involving the same victim and offender
- 3. The likelihood that the crime will be repeated or continuation of the violence;
- 4. The seriousness of the victim's injury; **and**
- 5. The presence or involvement of dangerous weapons.

B. The deputy **will not** consider the following when deciding whether or not to obtain an

arrest warrant:

1. The relationship status of the parties;
2. The victim's apparent willingness or non-willingness to prosecute the case; or
3. The deputy's belief that the victim will not prosecute.

V. POST ARREST PROCEDURE

After conducting an arrest, a deputy will transport an offender without unnecessary delay to appear before a judicial official.

The responding deputy will inform the judicial official of all pertinent information known by the deputy concerning the offender's history of violence, threats, the number of previous calls, the potential for further violence if released, and the existence of court order, release conditions or civil order. This information will assist the judicial official in setting appropriate bond and release conditions (if applicable). In domestic related cases where the parties are living together or have lived together, and one or both parties are arrested, they will be detained without bond for 48 hours or until they are taken before a Judge to have their bond set, whichever comes first.

The Deputy will complete thorough and accurate reports including an Incident Report, Arrest Report, and any other required reports. The deputy will assist the victim in contacting the Family Justice Center if the victim needs shelter or further assistance.

VI. VICTIM SERVICES

After conducting an investigation, even if an arrest is not made, the investigating deputy will take whatever steps are reasonable to protect the victim/complainant from harm and will advise them of services which are available.

VII. OFFICER INVOLVED DOMESTIC VIOLENCE

A. On Scene Response

When a law enforcement or detention officer employed by this agency is involved in a domestic violence situation and sworn personnel are dispatched to the scene, the following procedures shall be applied:

1. The first responding deputy shall notify his/her supervisor to respond to the scene. Once the supervisor arrives, the criminal investigation should be handled as outlined in this policy, but shall be led by a deputy who is at least one rank above the involved deputy.
2. The on-site supervisor shall notify the Sheriff, Chief Deputy and the Lieutenant of

the Special Victims Unit from the scene, or as soon as possible after assessing the situation.

6. In cases where the responding deputy determines that the suspect is a sworn law enforcement officer from another agency, the responding supervisor shall notify the respective agency where the suspect is employed.
7. In cases where a Domestic Violence Ex-Parte Protective Order is issued against a law enforcement officer from another agency, the on-duty supervisor shall contact the on-duty supervisor of the officer's employing agency before the service of the order.

B. Mandatory Reporting

If any employee of the ACSO has knowledge of an on-going domestic violence situation involving another employee, they should notify their immediate supervisor, who will notify his/her chain of command. The supervisor of the involved employee will inform the Sheriff or Chief Deputy who will initiate a formal investigation.

A deputy will make a written report of any alleged crime of domestic violence by a law enforcement officer, just as any other domestic violence incident.

C. Internal Investigation

In addition to any criminal investigation, an Internal Affairs Investigation will be conducted by order of the Sheriff or Chief Deputy. Any complaints involving Sheriff's Office Employees, regardless of whether a law enforcement officer responded and probable cause existed, will be handled with high priority in the investigation process, and will be resolved as quickly as possible within the Sheriff's Office. Any investigation which appears to have a conflict of interest that would make an objective investigation impossible, if the incident were to be investigated by the ACSO, will be referred to the SBI.

The provisions of this policy are intended to ensure and enhance the credibility of the Alamance County Sheriff's Office, and should not be construed as policy which assumes

guilt, penalizes or exonerates employees of this office.

4. A provision that the pretrial release authority places a copy of the release in the defendant's court file along with a pretrial release agreement upon full approval of a defendant's release by the pretrial release authority and the court. The pretrial release authority shall also be required to notify the appropriate detention staff of the defendant's release and to meet with the defendant before the defendant is released to discuss the pretrial conditions and monitoring and to have pretrial release agreement signed and attached to the release order.
5. A provision that the defendant shall contact the appropriate pretrial release case manager on a weekly basis and shall comply with the pretrial release court order when the defendant is released and that failure to comply with this condition may result in the immediate incarceration of the defendant. In addition, the pretrial release case manager is responsible for monitoring the court order/pretrial agreement to assure that all conditions stated in the Agreement are adhered to.

VI. RELEASE RECOMMENDATIONS

Upon completion of the detention interview, the interviewer will make one of three recommendations regarding a defendant's participation in a pretrial services program. The recommendations are as follows: excluded, disqualified or further investigation required.

EXCLUDED

Persons charged with any of the offenses listed on the exclusion list are excluded from release under a Pretrial Services Program unless otherwise authorized by a Judge.

DISQUALIFIED

Persons with certain charges or serving active sentences listed on the Disqualified Defendant List are disqualified under Pretrial Services unless otherwise authorized by a Judge.

FURTHER INVESTIGATION

This process applies to a defendant who has not been excluded or disqualified from the program but requires additional verifications to determine suitability. An example may be as in the case when the defendant is newly located within the county/state and there is a need to verify any criminal activity outside of the state of North Carolina. There are other situations when further investigation may be required, such as when a living arrangement is in question.

INFORMATION VERIFICATION

When a further investigation recommendation has been made, the following procedures will be implemented prior to a defendants' release on a Pretrial Services Program; the information obtained from the defendant during the interview process will be verified when possible by contacting references (family members, employers, etc.). Case details will be obtained in cases involving a victim. Local law enforcement, probation/parole officers and the District Attorney's Office will be contacted concerning the suitability for release of the person to the pretrial program. A consent for Release of Information is signed by the defendant prior to his or her release.

VII. PRETRIAL RELEASE PROGRAM

The Pretrial Release Program is designed for defendants who do not have extensive criminal histories or an extensive history of failing to appear in court—with exception being when ordered by a Judge.

Depending on the nature of the charges and other relevant factors, Pretrial Services may impose certain restrictions on the defendant ranging from daily call-ins to curfews. Pretrial Services will determine release conditions, on a case-by-case basis or at the discretion of a presiding Judge. Defendants placed on the Pretrial Release Program shall agree to abide by any conditions set by Pretrial Services or the court. The agreement can be modified to address a defendant's specific area of concern. Pretrial Services will review the agreement with the defendant prior to their release to ensure that he/she fully understands the conditions of release.

VIII. RELEASE OPTIONS

Pretrial Services offers two release programs (Pretrial Release and Electronic Monitoring) to those defendants who have qualified for release. These programs function to accomplish the following objectives:

- A. To eliminate the inequalities of the old monetary bail bond system.
- B. To alleviate the overcrowded detention facilities and reduce the cost of housing, guarding, and feeding prisoners.
- C. To preserve the defendant's ability to keep his job and support his family.
- D. To aid him in securing and consulting counsel and preparing his defense.
- E. To seek appropriate referral, screening and treatment for mental illness, addictions or other barriers necessary to alleviate recidivism.

IX. ELECTRONIC MONITORING

Electronic Monitoring is designed for those defendants who require more high-risk supervision and tracking than those defendants on Pretrial Release. An on-site inspection of the property where the defendant will reside is conducted by this office prior to their placement on the program. A defendant placed on Electronic Monitoring signs a contract with Pretrial Services agreeing to abide by the rules and regulations of the program.

The defendant is then confined to his/her residence and is under 24-hour supervision through a GPS Satellite Monitoring device attached to his/her ankle. Under normal circumstances, the defendant has a range of approximately 150 feet from the monitor. The defendant always remains home except for "away times." (Time that has been approved by the Judge and/or Case Manager, an example is for school, work, medical appointments, required treatment, etc.). Away times for court appearances and attorney appointments do not require approval. Away times are logged and called into the monitoring agency.

B. Issuance

The Personnel and Training Division shall ensure that body armor is issued to all deputies and that, when issued, the body armor meets or exceeds the standards of the National Institute of Justice. Body armor shall be issued when a deputy begins service at the Alamance County Sheriff's Office and shall be replaced when the body armor becomes worn or damaged to the point that its effectiveness or functionality has been compromised. Annual inspections of body armor should be conducted by a person trained to perform the inspection for fit, cleanliness and signs of damage, abuse and wear.

The required care and maintenance of body armor is subject to the following:

12. Civil Section Deputies are strongly encouraged to obtain the pertinent route maps and other necessary locators to aid in locating defendants. II. SERVICE OF PROCESS

All summons and complaints shall be served or returned to the Clerk of Court within 60 days of the issuance date. Under NO circumstances shall ANY summons and

complaint be observed after such date. The method of a summons and complaint is determined by the nature and status of the party or parties to be served according to the following rules:

A. Natural Person

1. A natural person is an individual summoned for some act or commission he or she allegedly committed as an individual. This will often be represented on the summons by designation of the person to be served without any other title or indication as “process agent”.
2. Natural persons may be served either by personal delivery of a copy of the summons and complaint:
 - a. to them
 - b. to a person named his or her agent for process, or
 - c. to a person of suitable age and discretion who resides at the dwelling place of the person named in the summons.

Members using substitute service shall exercise extreme care to ensure that the person accepting delivery is competent to understand the process and the importance of re-delivery to the defendant. Such delivery must take place at the defendant’s residence. Generally, persons under the age of 14 years should not be utilized for such substitute service.
3. Under NO circumstances shall substitute delivery of copies be made at the Sheriff’s Office, the place of the subject’s business, or any place other than the residence.

1. Normally, persons under a legal disability who are defendants will have a parent or guardian listed for service. Persons under a legal disability may be juveniles, persons who have been declared incompetent to manage their affairs, etc.
2. If the person under disability is a juvenile, the parent must be served in addition to the juvenile. When there is no parent, or in the case of other legal disability, a guardian will be appointed by the court. Such guardian must be served along with the person under disability.
3. The determination of legal disability is not a decision made by this Office. Where no parent or guardian is indicated, but the Deputy reasonably believes that the person served is under legal disability, the paper shall be served as directed. The Deputy shall then, as a courtesy, make contact with the plaintiff or his or her attorney in

order to explain the potential disability.

C. **State**

If the party defendant is the State of North Carolina, service is made upon the Attorney General or any Assistant or Deputy Attorney General in person. "State of North Carolina" will be entered as the party served.

D. **State Agency**

If the defendant is a state agency, such as a school board or the like, personal service shall be made upon the registered agent for the state agency. If the registered agent is not listed on the summons, he or she may be determined by contacting the Attorney General's Office. The registered agents of state agencies will be listed in that office.

E. **Cities, Towns, or Villages**

Where the party defendant is a city, town, or incorporated village, the process shall be made upon the city manager or the city or town clerk. Under no circumstances shall any other person, such as the town attorney, be served. The city or town shall be entered as the person served.

F. **County**

If the county is named as the defendant, the process may be served by delivery to the county manager, chairman of the county board of commissioners, any individual commissioner, or the clerk for the board of commissioners. Under NO circumstances shall ANY other party, such as the county attorney, be served. "County of Alamance" shall be entered as the person served.

G. **Other Local Government Units**

All other local governments units such as school boards, etc., named as defendants shall be served by delivery of a copy to any officer or director, or any process agent or attorney-in-fact for the unit authorized to accept service. Deputies confronted with a process that does not designate the party to be served shall make every reasonable effort to compel the plaintiff or the plaintiff's attorney to designate the proper party. Where such designation is not forthcoming, the Deputy shall serve an officer or director of the governmental unit only, if possible. The proper name of the government unit shall be entered as the person served.

H. **Corporations**

1. A corporation is a recognized entity under the law with an existence separate and apart from any of the individuals within the corporation. A corporation will have the designation "Inc." after the business name and has the capacity to sue and be sued in its own name. The return must designate the corporation as the person served. A

corporation may be service by personal delivery of a copy of the summons and the complaint to any officer, director, or managing agent of the corporation. Generally, the person to be served will be specified in the summons. In addition, a corporation may be served by delivery to the person apparently in charge of the office, such as a director or managing agent. Generally, this will not include secretaries unless such secretary has the title “office manager” or comparable status.

2. A corporation is required to have on file with the Secretary of State a registered agency for service of process. Such agent is also a proper party for service and, if not specified, may be determined by calling the Corporations Section of the Secretary of State’s office. If one of the above persons cannot be located or if the corporation is not registered in North Carolina, service may be obtained by delivery to the Secretary of State.

I. Partnerships

A partnership may be served as a party defendant by delivery to any general partner, which is my partner with managerial authority. In addition, the authorized agent for service of process or the attorney-in-fact may be served. The process may also be left at the office of any general partner with someone apparently in charge. Again, this does NOT generally include secretaries. Members are to exercise extreme caution in attempting to serve anyone other than a general partner when the agent for process is not specified in the summons directive.

J. Unincorporated Associations

Such associations will include fraternal organizations, rescue squads, etc. Service on the association is made by delivering copies to any officer, director, or managing agent of the association or to any member of the governing body. To the most further extent possible, members shall require the plaintiff or the plaintiff’s attorney to formally designate the person to be served. Valid service may also be obtained by delivery to any agent specifically authorized to accept process or by leaving the process in the association business office of any officer, director, or managing agent. Deputy shall deliver the paper to the person apparently in charge of the office. The proper name of the organization must be entered as the person served.

III. RETURN OF PROCESS

- A. Deputies shall ensure that returns are made correctly and in a timely manner. Under NO circumstances shall any process be held for any reason in order to secure service or at the request of the plaintiff.

- B. Before submitting any process of the Returns Clerk, the Deputies shall review all returns for completeness and accuracy. Any error discovered shall be corrected immediately. Such return must contain the name of the person or business served, the appropriate method of service, the member's signature, and the date of service, and location of service.
- C. Under no circumstances shall any Deputy use the standard "Due and Diligent" phrase when marking a paper to reflect the inability to locate the person to be served. Rather, the Deputy shall enter the number and type of attempts made and any other pertinent information, such as refusal to open the door, etc. The Deputy shall also cite in the return any alternate locations (i.e. DCI, blue book, etc.) consulted in an attempt to locate the party to be served.
- D. With respect to process received too late for service, the return shall state the number of attempts, if any, and record on the process return the phrase "did not locate the subject after receipt and prior to the due date". Deputies shall not state on the return that the paper was received too late for service.
- E. With respect to the return on an execution for lack of bidders, such return shall contain a statement as to where and when such sale was advertised and offered.

IV. EXECUTION SERVICE

All execution documentation stated in a return shall be personally verified prior to entry. Under NO circumstances shall ANY Deputy alter the return in any manner after return to the court. Errors on papers already returned to court shall be brought to the attention of the Clerk of Court.

V. SEIZURE OF PROPERTY

- A. It shall be the responsibility of the seizing Deputy to observe all legal requirements with respect to the seizure and care of property regardless of the type of process authorizing such seizure.
- B. Deputies shall exercise extreme care to determine the actual ownership of items apparently subject to seizure. Any doubt as to the ownership of such items shall be resolved against the seizure. Normally, property owned jointly by the defendant and another shall not be subject to seizure without a court order.
- C. With respect to motor vehicles registered through the North Carolina Division of Motor Vehicles, the titled owner or owners are the persons in legal control of the property without regard to the identity of the person operating or paying for such vehicle.

- D. Although it is technically possible to sell the defendant's share of jointly owned property, as a practical matter, such items of property cannot be successfully sold. In the case of motor vehicles, they cannot even be titled. Therefore, such items shall not be seized without a court order.
- E. It shall be the responsibility of the seizing Deputy to ensure that items seized under court process are not lost or damaged due to negligence.
- F. Vehicles or other items of personal property seized under process shall be safely secured during the period such items are in the custody of the Sheriff's Office. With respect to seizure of real property, the Deputy is authorized to require the plaintiff to advance the necessary expenses of any reasonable security measure, including the posting of a guard.
- G. Seized Property Storage: All property seized per court order shall be turned over to the plaintiff at the time of seizure if possible.
- H. If this is not allowable by law as in the case of a Claim and Delivery, the property will be tagged with a white property sheet and placed in a secure area. A copy of the property sheet will be attached to the Court Order and signed by the person receiving the property upon release. The order and property release will be returned together to the clerk's office.
- I. Under NO circumstances shall the plaintiff or any other party be permitted to take custody of or provide security for any items in the custody of this Office pursuant to seizure under court process.
- J. Prior to making any seizure of mobile homes, the Deputy shall ensure that the county property taxes have been paid and the appropriate receipt issued.
- K. Any question concerning the property of any seizure or the method of storing or securing such property shall be immediately referred to the Deputy's supervisor for resolution.
- L. No levy shall be made upon the assets of any natural person unless the required exemptions hearing has been conducted or until it has been determined and ruled that the defendant is entitled to no exemptions under Chapter 1C of the General Statutes.
- M. Where an attachment or other seizure process exists against the property of a business, the business itself shall not be padlocked without the express prior approval of the supervisor and legal advisor. Generally, it is permissible only to remove sufficient assets to satisfy the debt.

- N. All fees shall be collected in advance pursuant N.C.G.S. 7A-311. This can be waived only in the event that the plaintiff is a government agency.

VI. MAGISTRATE'S SUMMONS

- A. Magistrate summonses should be served 2 days before the date of hearing on the paper. Without exception, the process must be returned to the Clerk of Court before the close of business on the last business day before the hearing.
- B. Except as provided below for magistrate summonses for ejectment when no money judgment is claimed, the method of service is the same as for a summons and complaint.
- C. If the magistrate summons is for ejectment and it does not contain a claim for monies due, the member shall attempt to make personal service. If this fails, the summons may be posted in a conspicuous place on the property.
- D. Failure to satisfy the personal requirements for personal service where a money judgment, as well as a summary ejectment for possession, is included in the magistrate summons **AUTOMATICALLY DEFEAT THE PLAINTIFF'S CLAIM FOR DAMAGES.**
- E. When the magistrate's summons does not contain a claim for money, or when the money claim is abandoned after issuance of the summons, the Deputy is still required to exercise due diligence in attempting personal service. Only after normal attempts to obtain personal service have failed is alternate service valid. However, after the normal efforts to locate the person have failed, it is permissible for the Deputy to affix the summons and complaints to the premises.
- F. Deputies utilizing this form of service shall ensure to the greatest extent possible that the summons is attached to the premises in a reasonably permanent and conspicuous manner. If it becomes reasonably apparent during the course of attempting personal service that the person cannot be located and the summons contains a claim for money, then posting the summons on a conspicuous place on the premise may complete service.
- G. Under NO circumstances shall the member change the paper to "possession only".

VII. TAX ATTACHMENTS

There is no time specified for service of tax attachments. Therefore, it should normally be treated as a 30-day process. A tax attachment shall be served by personal delivery to the defendant taxpayer.

VIII. TAX GARNISHMENT

The time period on a tax garnishment is not specified. Therefore, it should normally be treated as a 30-day process. It should be served by delivery to the garnishee as specified in the regulation governing garnishment.

IX. TAX FORECLOSURE

The tax foreclosure is served in the same way as a summons and complaints. However, this is a 60-day process.

X. SPECIAL PROCEEDINGS

- A. Special proceedings have the appearance of a regular summons and complaint with the exception of the designation “special proceedings” in the title of the case. Such cases involve suits to partition property, contesting of wills, etc.
- B. The statute concerning service of special proceedings provides that the plaintiff may request immediate service. Therefore, under normal circumstances, such processes should be served as quickly as possible upon the assumption that such request has been made.
- C. In any event, the member must return such papers to the Clerk of Court within 30 days of issuance. The method of service of special proceedings is the same as for a summons and complaint. A special criterion for legal return of service is that the respondent in the proceeding must sign the return as being served.

XI. EJECTMENT

- A. In addition to the notice mailed from the office, the deputy shall post a copy of the notice on the property.
- B. At the time of ejectment, a qualifying landlord is to be granted the option of recalling the execution, continuing with the set out, or simply changing the locks. This election shall be executed in writing, signed by the plaintiff and a copy returned with the execution.
- C. If the padlocking option is chosen, the deputy shall supervise the changing of the locks and shall then return the execution to the Clerk of Court.
- D. Deputies are prohibited from giving landlords advice as to which option to utilize or what to do with small amounts of property left on the premises. Similarly, deputies shall not attempt to value any such property.

XII. USE OF FORCE

- A. Generally, any use of force in serving civil process shall be prohibited. If service cannot be obtained without the use of force against either persons or property, such process shall be returned unserved and with the appropriate return statement.
- B. If the Deputy cannot enter onto the premises peacefully, he/she shall not enter at all except as provided below. In case of doubt as to authority to use force, or in any event where further attempts would reasonably appear to result in the likelihood of violence against the member, the member shall withdraw and make the appropriate return.
- C. Use of force is authorized under the law for execution of a claim and delivery under limited circumstances. However, prior to attempting such levy, the member shall have satisfied him or herself as to the particularity of the description of the property and shall have identified the property subject to seizure by peaceful means.
- D. Force may not be used merely to identify property subject for seizure. However, when the Deputy has unmistakably identified the property subject to seizure, he/she may use only the amount of force reasonably necessary to effect entry onto the premises and to seize such property after a public demand for delivery of the property has been made and refused.
- E. Deputies may also lawfully use the degree of force reasonably necessary to gain entry onto the premises and to remove property subject to a summary ejectment. This shall be done only upon actual possession of the order in ejectment and only to the degree necessary to place the plaintiff in possession of the premise. In the deputy's discretion, he may consider options other than an immediate use of force, such as (1) seeking to invoke the court's contempt jurisdiction under G.S. 5A-11, (2) applying for a criminal arrest warrant for resisting, delaying or obstructing officers pursuant to G.S. 14-223, or (3) seeking supplemental court orders authorizing specific law enforcement action to gain access to the premises and/or to forcibly remove the tenant ("Order in Aid of Possession". The office may find it advisable to enlist the help of landlord or landlord's attorney with respect to options (1) & (2).
